

April is National Move More Month

Were you aware that there is a National Move More Month? Me neither, but April brings the arrival of National Move More Month—a time dedicated to embracing the power of movement and reaping its myriad benefits. Here at Northridge Village, we're excited to embark on this journey together, nurturing our health and well-being through simple yet impactful activities.

First and foremost, we extend our deepest gratitude to our diligent maintenance team for their dedication in mapping out a mile-long route in our Commons Building, Assisted Living and Independent Living areas. This thoughtful endeavor provides us with an opportunity to indulge in invigorating walks, surrounded by the comfort and beauty of our home.

Yet, our options for movement extend far beyond these designated routes. Simple activities like chair exercises (check the calendar for times), dance parties, stretching routines, balloon ball (see calendar for times), and yoga offer abundant opportunities to infuse our days with movement and vitality. Let's seize each moment, each opportunity, to move together as a community, fostering not only physical health but also camaraderie and joy.

Together, let's embrace National Move More Month with open arms, celebrating the gift of movement and the boundless possibilities it brings to our lives.
