

Mobile Check-in

JumpStart Learning Academy

**Using the Brightwheel App to Scan
image below and Check-In**

Using the Brightwheel App, scan the QR code to complete the check in process for your child. You can do this from inside your car prior to dropping your child off or remotely if somebody without the app is dropping your child off.

If checking in remotely, please do not check in more than 15 minutes before your scheduled class time.

Please do not use this to check out as teachers will be performing the check out process.
