This Trimester, Suzy learned about energy and how it can be transformed and about the motions of the earth and moon causing observable patterns that affect living and non-living systems. She is a pleasure to have in my class.

***note: this is a example locally developed course. Schools can setup multiple custom courses which can be modified to have custom course titles.  Suzy had a great time on our 4 day canoe trip through the Gulf Islands, it was a great experience in the wilds. She is working on create a climbing route for our team for the Squamish Chief. Suzy is always well prepared and organized for trip with the correct gear and training. Suzy needs to work on pacing herself during our longer trips.
