

Golden Gut Formula

Trust your Gut and Feel Good | #150030

Trusting your gut is more than just paying attention to your intuition, but a smart and sound way to keep your body and mind functioning in peak condition. Growing research shows a direct correlation between gut health & overall wellness. Our gut is our second brain.

Our Golden Gut Formula is an advanced, integrated nutrient source uniquely designed to support gut health.

Our special formula delivers both pre- and probiotics, and thanks to our innovative three-layer encapsulation technology, the beneficial bacteria are protected from stomach acid, ensuring they reach your intestines where they're needed most.

Furthermore, our effervescent formula dissolves rapidly in liquid, bypassing the typical breakdown process of capsules and tablets. This faster dissolution ensures that the vital nutrients and probiotics are readily available to your gut, maximizing their effectiveness.
