

Dear Colleagues

It is with pleasure that we can continue in the series of the International Conference on Solid State Chemistry (SSC) and can host the 15th SSC. The conference has become a truly interdisciplinary meeting covering all aspects of interesting scientific discoveries and materials-related topics. The SSC 2024 will continue in this tradition aiming to enrich and stimulate scientific discussion among different research fields. It is the natural curiosity of every scientist to tackle and answer the most difficult problems which connect us all.

We look forward to meeting you all in Ústí nad Labem in September 2024.

Jiri Orava, J. E. Purkyně University in Ústí nad Labem

Kamil Lang, Institute of Inorganic Chemistry of CAS

Chairpersons of the SSC 2024 conference

CONFERENCE TOPICS

- Advances in solid-state materials synthesis, new solids, compounds, alloys, glasses, ceramics, polymeric and other materials
- Computational and theoretical aspects including atomic and electronic structure of solids
- Materials and principles of renewable energy production, conversion, and storage
- Advanced characterisation techniques, thin-film deposition
- Biomaterials, biotechnology, and their applications
- Chemistry and physics of emerging materials and devices
- Physical chemistry of solids, electrochemistry, and related topics
- Materials for environmental applications
- Green and sustainable chemistry, materials, and technology
- Microporous/mesoporous materials
- Nanomaterials, hybrid- and nanostructured solids
- Photonic and optical properties of solids

IMPORTANT DATES AND DEADLINES

On-line application opened: **October 31, 2023**

Call for papers: **January 1, 2024**

Abstracts submission deadline: **April 8, 2024**

Confirmation of acceptance: **May 8, 2024**

Early bird registration deadline: **June 8, 2024**

Preliminary programme: **July 8, 2024**

Final programme: **August 8, 2024**
