

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Report on Clean and Green Activity Organized by EEE Department in Association with NSS-NECG

The Department of Electrical and Electronics Engineering (EEE), in collaboration with the National Service Scheme (NSS) of NECG, successfully organizes a Clean and Green Activity on 07-02-2026 with the objective of promoting environmental awareness, cleanliness, and social responsibility among students.

The activity actively involves II Year and III Year EEE students, who enthusiastically participate and demonstrate a strong commitment towards maintaining a clean and eco-friendly campus environment. The program emphasizes the importance of cleanliness, waste management, and sustainable practices, aligning with national initiatives such as Swachh Bharat Abhiyan and environmental conservation goals.

As part of the activity, students engage in cleanliness drives, including cleaning of campus premises, removal of plastic waste, segregation of biodegradable and non-biodegradable waste, and awareness creation on maintaining green surroundings.

Faculty members of the EEE Department and NSS coordinators guide the students throughout the activity and motivate them to adopt cleanliness and green practices not only within the campus but also in their surrounding communities. The activity instills values of teamwork, discipline, civic responsibility, and environmental consciousness among the participants.

The Clean and Green Activity serves as a platform for students to understand their role as responsible engineers and citizens in protecting the environment. The active participation of II and III Year EEE students reflects their dedication towards social service and environmental sustainability.

Overall, the program proves to be meaningful and impactful, successfully creating awareness about cleanliness and environmental protection while strengthening the collaboration between the EEE Department and NSS of NECG. The activity contributes positively to the holistic development of students and reinforces the institution's commitment towards a clean, green, and sustainable future.
