

Report on World Cancer Day Awareness Program

The Department of Master of Computer Applications (MCA), Narayana Engineering College, Gudur, organized a World Cancer Day Awareness Program on 4th February at the Seminar Hall. The objective of the program was to create awareness among students about cancer, its prevention, early detection, and the importance of a healthy lifestyle.

The program commenced with an introductory address by the faculty members of the MCA Department, highlighting the significance of observing World Cancer Day and the need to educate students about cancer-related issues.

The session was led by the Resource Person, Dr. Yasimullah, M.B.B.S, who holds a Master's degree in Emergency Medicine and Critical Care. During his lecture, he explained various types of cancer, their causes, early warning signs, and the importance of early diagnosis. He also emphasized preventive measures such as avoiding tobacco and alcohol, following a balanced diet, regular exercise, and undergoing periodic health checkups.

Dr. Yasimullah also addressed common misconceptions about cancer and motivated students to support cancer patients with empathy and understanding. The session was interactive, and students actively participated by asking questions, which were clearly answered by the resource person.

The program concluded with a vote of thanks, expressing gratitude to the resource person and organizers. The awareness program was informative and successful in educating students about cancer prevention and promoting health consciousness.

No Of Students Benefitted Through This Program: 53
