### THE CHEROKES.

We regret to learn that violence has  
been already committed by the Cherokees  
within our limits. Dr. John Brewster,  
late Surveyor General of the State has  
fallen a victim to their hostility. His fer-  
ryman was killed, it is stated a few hours  
previous, at the ferry, from whence they  
proceeded to his house. His body was  
pierced by four balls.

We take the occasion to urge upon the  
authorities of the country, the absolute ne-  
cessity of inflicting some punishment for  
their sanguinary murders. The Creeks,  
after they had gorged their thirst for blood,  
were persecuted quietly to emigrate to their  
new homes, and we presume a similar fate  
is in store for the Cherokees. It should be  
demanded by Georgia, that the chiefs and  
leaders of their people, require them to  
deliver up the offenders to our laws, or, in  
default, to suffer in their stead. Seventy,  
stern, inflexible severity, is the only safe  
course in this matter. The Indians must  
be taught that they shall not murder with  
impunity. That the arm of the white man's  
law can reach him to the bosom of his  
own tribe, and avenge the violation of its  
decrees.—*Millidgeville Journal.*

Upwards of 2,000 lbs. of maple sugar  
have been made in the town of Sandwich,  
N. H. this season.—*Times Courier.*
