Dear Mr. Bausay;

Thank you for putting me in touch with Mr. Hippie. We have an estimate of the cost of a Sequoyah statue - no census has been made as yet - and insofar as one for Arkansas, we get to come up with a sum of money.

I thought you might be interested in the enclosed memo and newspaper article. Re: Dwight mission, I'm taking a unique approach - instead of going to Park Service or other governmental agency first, I'm collecting information showing Dwight mission was truly an historical operation - deserves a museum - then I'll go to the governmental agencies.

I would appreciate receiving your comments.
