Cherokee Agency Aug 26, 1834

#370

Genl Geo Gibson

Comd Genl Subsistence

Sir

I arrived at this Agency on the 19th Inst after having visited Golconda Ill & Cape Girardeau Mo. with the view of ascertaining the best route by land for the removal of Cherokee emigrants In order to be availed of all the information on this subject considered of importance to the Department I must beg leave to defer a report until I see Lieut Harris who is at this time at the Blountville Springs & whose observation will enable him to furnish information additional to that collected

by

Yours Most Respectfully

Ben Furrer

It will my friend Easton have the goodness to send me three or four printed copies of the newly printed regulations on the subject of Indian removals?
