Eighth
Mills

On road to Missionary Station
& about 600 Yds from picket
193 is a very remarkable &
large vein of Ferruginous
Quartz - running N. N. E. to S. W.
from Valley River to the House
said to contain gold. The ridge
on which this vein runs contains
throughout its whole extent a
bed of Iron ore appearing
& said to be the richest in the
Country

3490 trail comes in to
River at B.M.
on Black oak on
River bank near
Tillaklat's house sometimes called Yachaleeka - 86

This creek I believe is the one which leads into the Mt above John Welch's on Valley River and is generally called by the Whites "Snow Bird". It furnishes as much if not more water than Cheowah above the point of junction.

There are two trees together a watering place where one is a white oak the other a black oak of short body and very much crooked.

Handwritten text, possibly a name or location, written vertically in a cursive style.

The country hence to
Turtle town resembles
that in the vicinity of
the pine barrens of
S. Carolina - slightly
undulating & pine being
principal growth.
