Summary
After a bumpy ride, the Otter landed safely in Fort Lauderdale, FL at its last stop in the continental US on the way to San Juan, PR. Barring potential bad weather, the Otter will continue to transit to Turks and Caicos tomorrow.

Concerns
N/A

Comments
At the earliest, the Otter will arrive in Puerto Rico on May 6th. This plan is subject to change due to extreme weather and thunderstorms, and the crew continues to keep a close watch on weather forecasts.

Pictures

*Insects on the windshield. The Otter receives some TLC from the pilots on its journey south.*
Lake Okeechobee, Florida. Our transit from Melbourne, FL to Fort Lauderdale, FL included flying over Lake Okeechobee, which, according to Wikipedia, is about half the size of Rhode Island and only averages 9 feet deep.

Just outside of Fort Lauderdale, we passed over Everglades and Francis S. Taylor Wildlife Management Area. It’s almost impossible to see from this picture, but there are whooping cranes flying in formation near the bottom right hand corner.
