Summary

N70AR began transit today from D17 in Fresno, CA to D19 in Fairbanks, AK. Crew made it as far as Kalispell, MT, just shy of the border, before stopping tomorrow. Plan is to pass through customs into Canada tomorrow and progress as far as weather/time allows.

Concerns

- QAQC of yesterday's 2019061615 flight indicated a potential issue with the waveform to discrete data ratio. This disk set has been set aside and will be made available with the data on the hotel kit once it's set up in Fairbanks, likely Friday.

Comments

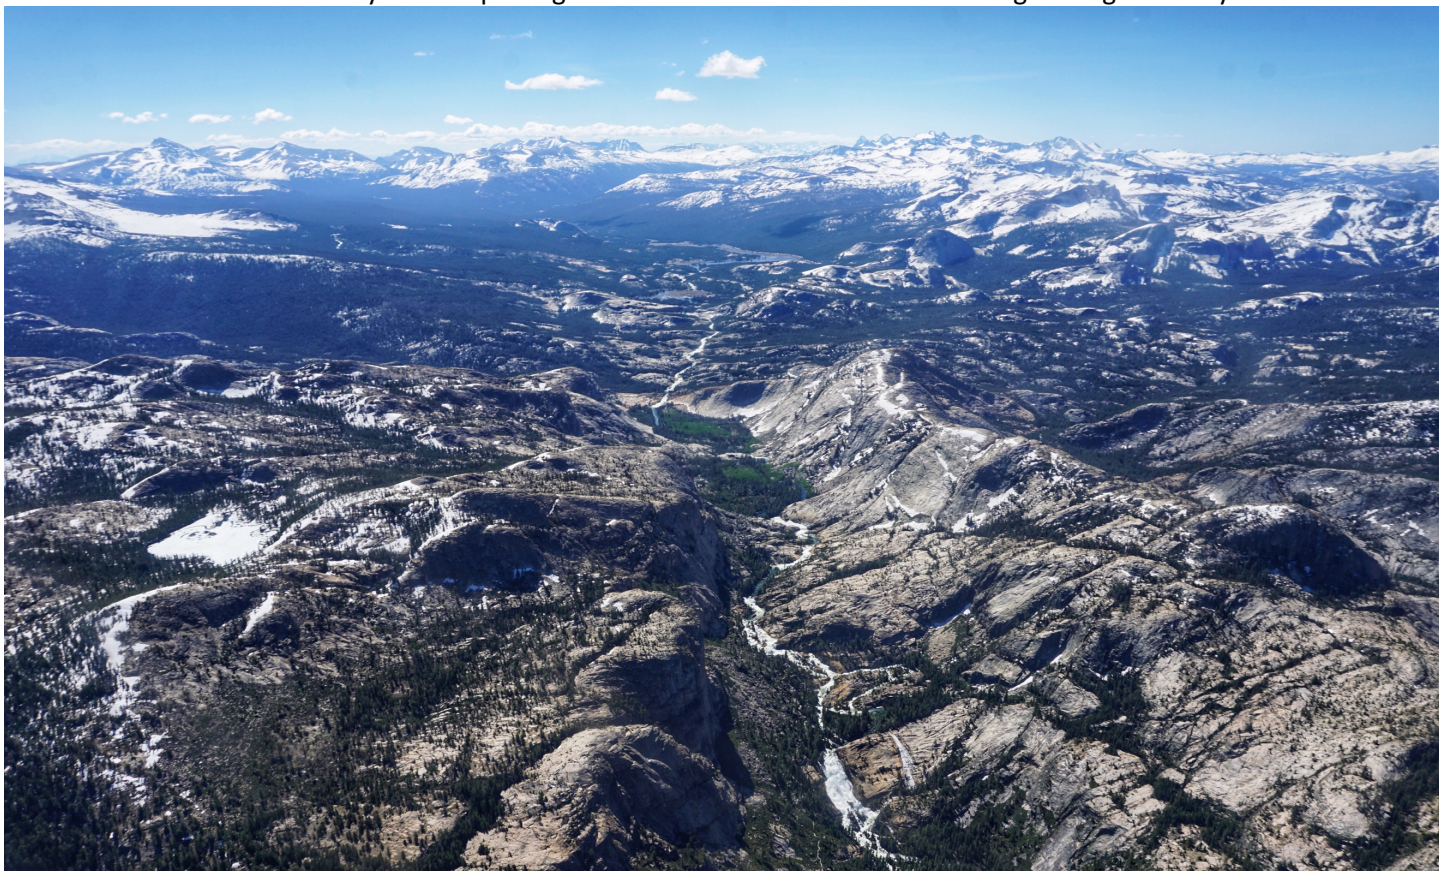

- 2019061715 flight over TEAK will be extracted once the hotel kit is set up in Fairbanks, likely this Friday.
- Ellisa Barris departed Fresno and rotated out. Abe Morrison flies to Fairbanks tomorrow in anticipation of the Otter's arrival.
