Summary
More promising days, as crews briefly that we might have an opportunity for a clear sky collect over SERC. However quickly building cumulus clouds curbed any ideas of a flight. Better days remain forecasted in front of us as drier conditions are expected to dominate the next few days.

Concerns
Hotel Kit 1 had a degraded RAID on startup today. Instead of trying to remove the the failed drive and replace it with a new one, both disks were reformatted to see if a second formatted would prevent further degradation. This is a new test. If it happens again, a new drive will be used as per our normal procedure.

Comments
Pilot Justin departs D02 tomorrow and is being replaced by Magnus, who arrived this afternoon. Enjoy the time off and thanks for the hard work, Justin.
