Summary

Weather was cooperative today, as hoped-for. We continued on from Turks and Caicos, refueled in Exuma, Bahamas, and cleared customs in Miami. We hoped to make a 3rd leg and end the day in our familiar stomping grounds of Gainesville, FL, but the aircraft had other plans.

Concerns

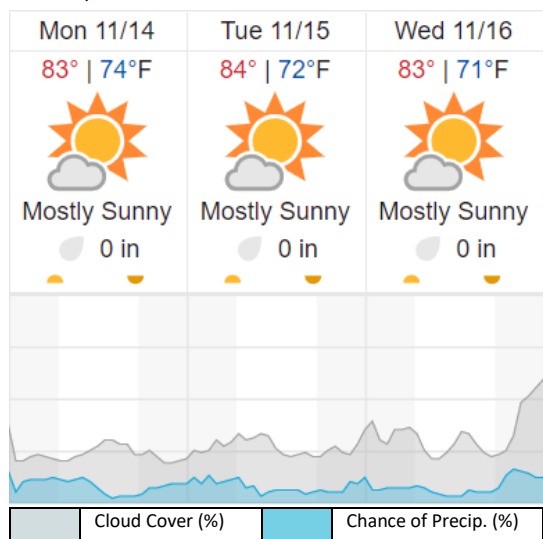

The Twin Otter's inverter 2 circuit breaker popped during startups after a fuel stop in Miami. After some troubleshooting and coordination with TOIL, it was determined that we would need to delay here and wait for a mechanic to service the plane.
