### **Summary**

No flights were possible today due to low overcast conditions at both sites.

### **Concerns**

None.

### **Comments**

Remaining licenses and configuration files were copied for the incoming backup IX Controller. Andrew's investigating has pointed to the camera drive bay as the prime suspect, so the first work-around attempted will be to write camera data to a disk in the other drive bay, and RiAcquire data to a USB3.0 drive (which will be arriving Friday). The IX Controller will not be immediately swapped.

### **Pictures**

Snow accumulated on the Toolik tower this morning.
