

# ROVER TALL FESCUE

*Festuca arundinacea*

## DESCRIPTION

Rover (PPG-TF 306) is a leader in drought tolerance. This tall fescue boasts a great response to heavy traffic while providing excellent overall turf quality and expressing dark green color. It's low-mow ability and gray leaf spot resistance provide Rover with a rare package of top qualities coveted by many!

## APPLICATION

Sod production, sports turf, professional lawn and landscape, home lawns, golf course roughs

## GEOGRAPHICAL ADAPTATION

Cool-season and transition zones

## FEATURES & BENEFITS

- Great wear and drought tolerance
- Outstanding turf quality
- Gray Leaf Spot resistance
- Dark green color
