

SOUTHSIDE TALL FESCUE

Festuca arundinacea

DESCRIPTION

With great traffic tolerance, Southside Tall Fescue (PPG-TF-267) exhibits strong lateral growth, keeping a dense canopy through the summer months and into the fall. Southside has fine leaf texture and brilliant genetic color as well as improved resistance to drought-like conditions. This variety will perform exceptionally in both low and high maintenance applications.

APPLICATION

Sod production, sports turf, professional lawn and landscape, home lawns, golf course roughs

FEATURES & BENEFITS

- Top of class turf quality
- Dark green color
- Performs well in heavy traffic areas
- Exceptional density

GEOGRAPHICAL ADAPTATION

Cool-season and transition zones
