

HD SPORTS 2.0 OVERSEEDER

DESCRIPTION

HD Sports 2.0 Overseed is high density turf with a superb fibrous root system that is credited to Hampton (The Root Monster) and a diverse formulation of *Super Elite* high performance Kentucky bluegrasses—Fullback and Bluebank—plus 80% Elite Perennial Ryegrass. HD Sports 2.0 produces extreme wear and traffic tolerant turf that is fast to recover from hard play and its superior genetics build a remarkable advantage over summer patch and other diseases. With early spring green up and extended fall/winter color, plus the added quick germination with the outstanding Perennial Ryegrasses, HD Sports 2.0 Overseed is an outstanding option for sports fields due to the synergy created with superior varieties in this high density Kentucky bluegrass.

STRENGTHS

A deep and fibrous root system provides for fast turf recovery from traffic damage and drought stress.

WEAR

Superior wear and traffic tolerance that withstands the abuse of cleated traffic with minimal damage and fast recovery.

COLOR

Super Elite varieties selected for uniform dark green genetic color for season long performance. Early spring green up provides high density turf for spring sports. Excellent color/growth produces high density turf through the summer and fall seasons.

SEEDING RATE

5-10 lbs per 1,000 sq ft

20% HD Sports 2.0 with XALT

(Hampton / Fullback / Bluebank KBG)

40% Expedite Perennial Ryegrass

40% Benchmark or Intense Perennial Ryegrass

PERFORMANCE

Agronomically formulated for heavy duty performance. No weak varieties, which would erode performance, are ever used to blend down the cost.

USES

High performance sports fields and other turf areas that desire the highest quality performing mixture.

TEXTURE

Fine blade, high density turf

MOWING HEIGHTS

0.5" - 2.5" depending on management
