

GAELIC

KENTUCKY BLUEGRASS

Poa pratensis

DESCRIPTION

Gaelic is a premium Kentucky Bluegrass that is outstanding for establishing new turf areas and over-seeding existing turf on sports fields, commercial landscapes and golf courses in all cool-season zones. A Hybrid Julia type x Shamrock type, Gaelic is an ideal choice for broadening the genetic base of Bluegrass blends and mixtures as well as adding to Turf-Type Tall Fescue.

CHARACTERISTICS

Growth Habit Rhizomes

Establishment 8-14 Days

Low Mow Tolerance ½" Excellent

Mowing Frequency Weekly

Traffic Tolerance Good

Nitrogen Required Medium

Shade Tolerance Good

Cold Tolerance Good

Drought Tolerance Good

Salinity Tolerance Good

FEATURES & BENEFITS

- Wear tolerant
- Excellent turf quality
- Resists dollar spot and stem rust
- Premium turf density

APPLICATION

Golf, sports fields, lawn, sod production

GEOGRAPHICAL ADAPTATION

Cool-season and transition zones

PRODUCTION AREAS

Pacific Northwest

SEEDING RATE

2-3 lbs/1,000 sq ft

Local conditions vary and dictate rates
