

NOBLE KENTUCKY BLUEGRASS

Poa pratensis

DESCRIPTION

Noble Kentucky Bluegrass is a Super Elite cultivar with a very dark green genetic color, wear tolerance, seeding vigor, and drought tolerance (summer density and wilting). Noble is an excellent Kentucky Bluegrass for use in Elite Kentucky Bluegrass mixes for golf courses and sports fields. This variety can also be used in sod production mixed with newer, darker, Turf-Type Tall Fescues with a matching dark color and horizontal-knitting growth habit. Noble is an outstanding competitor to *Poa annua* and has good winter color as well as great performance across all disease trials. It was rated the #1 Kentucky Bluegrass in the New Jersey Shade Trial and #2 for Summer Patch at Tennessee.

APPLICATION

Golf courses, sports turf, lawn turf

GEOGRAPHICAL ADAPTATION

Cool-season and upper transition zones

SEEDING RATE

2 – 3 lbs/1,000 sq ft

Local conditions vary and dictate rates

FEATURES & BENEFITS

- Wear, heat, and drought tolerant
- Performs well in shaded areas
- Tolerant of low mowing heights
