

BATTLE HAWK TALL FESCUE

Festuca arundinacea

DESCRIPTION

Battle Hawk (NAI-ROS4) was selected for its superior drought performance, high turf quality and disease resistance. Proven to perform in drought-like situations while trialled in a rainout shelter at Rutgers University, it scores consistently high in NTEP data. The Battle Hawk cultivar has excellent leaf texture and exceptional spring green up. For any application, choose the well-rounded and high-quality Battle Hawk!

APPLICATION

Sod production, sports turf, professional lawn and landscape, home lawns, golf course roughs

GEOGRAPHICAL ADAPTATION

Cool-season and transition zones

FEATURES & BENEFITS

- Drought tolerance
- Excellent disease resistance
- Spring greenup
- Low-mow ability

NTEP DATA

Variety	Drought Tolerance 2021 (T-25)	Gray Leaf Spot 2019 (T-30)	Brown Patch 2021 (T-28)	Spring Greenup 2021 (T-17)	Leaf Texture 2021 (T-18)
