*Ask for current or custom formulations

SEEDS PER POUND

~335,000

FEATURES & BENEFITS

Increased Kentucky Bluegrass percentages within the blend provide the following benefits

- Improved Tensile Strength
- Improved Disease Resistance
- Greater Density
- Finer Texture
- Quicker Turn-Time
- Less Production Waste

SEEDING RATE

225 – 350 lbs/acre
10 – 15 lbs/1,000 ft²

(DOUBLE COVERAGE seeding rates can be reduced by 25% compared to straight tall fescue).
