

SPARK

PERENNIAL RYEGRASS

Lolium perenne

DESCRIPTION

Spark Perennial Ryegrass is our new professional turf quality release, developed for fast establishment combined with seedling gray leaf spot resistance. Spark is the best option for seeding heavy use sports fields, golf courses, and lawns demanding premium turf quality, disease, and traffic performance. Spark's color and texture offer an excellent ability to blend with other cool season grasses. Its ability to tolerate a low height of cut make it an excellent companion in seed blends and mixtures used for establishing professional turf as well as overseeding both cool and warm-season grasses.

APPLICATION

Fairways & Tees, Sports Turf, Residential Lawns & Parks, Warm Season Overseeding, Versatile Companion in Blends and Mixtures

SEEDS PER POUND

~250,000

GEOGRAPHICAL ADAPTATION

Cool-season and transition zones, arid regions with irrigation, warm-season zones for winter over-seeding of Bermudagrass turf

2014 DATA

Variety	Turf Quality	Genetic Color	Density	Leaf Spot
Spark	6.2	5.3	6.7	6.8
Gator 3	5.2	6.7	5.3	5.0
Palmer III	4.6	5.0	5.3	4.0
Buccaneer	2.9	2.7	2.9	3.2
LSD	0.6	1.1	0.8	0.9

FEATURES & BENEFITS

- Improved gray leaf spot performance
- Ideal in areas with fast establishment and wear tolerance issues
- Very good traffic tolerance
- Excellent year-round turf density and quality
- Improved disease resistance

SEEDING RATE

Warm Season Overseeding:
15+ lbs/1,000 sq ft

Cool Season Overseeding:
5-7 lbs/1,000 sq ft

Cool Season New Seeding:
8-10 lbs/1,000 sq ft

Local conditions vary and dictate rates
