

COACHELLA

PERENNIAL RYEGRASS

Lolium perenne

DESCRIPTION

Coachella (PPG-PR 576) is notable for its very dark green color and performance at low mowing heights. Coachella is vigorous and quick to establish, making it ideal for overseeding into golf course fairways, tees, rough, sports fields, lawns and other heavily trafficked areas. Additionally, it exhibits excellent mowing performance under both low and high maintenance programs. Coachella will establish quickly, and the color and texture allow it to stand alone or compliment other cool season grasses in a blend or mixture.

APPLICATION

- Golf course
- Sports turf
- Lawn and landscaping
- Excellent for winter overseeding in bermudagrass
- Versatile companion in blends and mixtures with other cool season grasses

FEATURES & BENEFITS

- Dark green in color
- Rapid establishment
- Great lateral growth

SEEDS PER POUND

~250,000

SEEDING RATE

Warm Season Overseeding:

15+ lbs/1,000 sq ft

Cool Season Overseeding:

5-7 lbs/1,000 sq ft

Cool Season New Seeding:

8-10 lbs/1,000 sq ft
