REFLECTION TALL FESCUE
*Festuca arundinacea*

DESCRIPTION

Reflection turf-type tall fescue is a new and improved IRT™ release selected for turf quality and brown patch resistance with A-LIST quality. Reflection is an elite cultivar that excels in challenging southern transition zone conditions. It has improved recovery from wear, drought tolerance, plus retains color late into the fall and winter months. Reflection tall fescue excels in a variety of environments and extreme conditions that require resilient turf. (University Recommended for the Transition Zone)

APPLICATIONS

Sod production, sports turf, home lawns and landscaping, gold course roughs, parks

GEOGRAPHICAL ADAPTATION

Extreme conditions of transition zone and areas that limit the summer performance and persistence of cool-season turf

SEEDS PER POUND (approximate)

235,000

FEATURES & BENEFITS

- A-LIST approved
- IRT™ (Inherent Rapid Tillering) release
- Heat and drought tolerant
- Low input requirements
- Improved brown patch and Pythium resistance
- Fine-textured turf quality

SEEDING RATE (pounds/1,000 ft²) *

- Overseeding: 5-7
- New Seeding: 8-10

*local conditions vary and dictate rates
