

# DROUGHT STAR™

## *Sod Seed Blend*

### DESCRIPTION

Drought Star™ sod Bluegrass blend is designed for the sod producer whose customers demand better drought performance and better recovery from harsh summer conditions. Drought Star™ is a low-cut Bluegrass formulation and includes our vigorous, rhizome producing Texas x Kentucky hybrid Bluegrass. Drought Star™ has the heat tolerance potential to push the use of Kentucky Bluegrass farther south in the transition zone and adds summer performance to traditional Kentucky Bluegrass regions.

### FORMULA

\* Example:

33% Midnight Kentucky Bluegrass  
33% Elite Hybrid Kentucky Bluegrass  
33% SPF 30 Texas Hybrid Bluegrass

\*ask for current or custom formulations
