

Give employees **24-hour access to their schedule** and let them request PTO and shift changes from anywhere

## Clinical Workforce Management Software

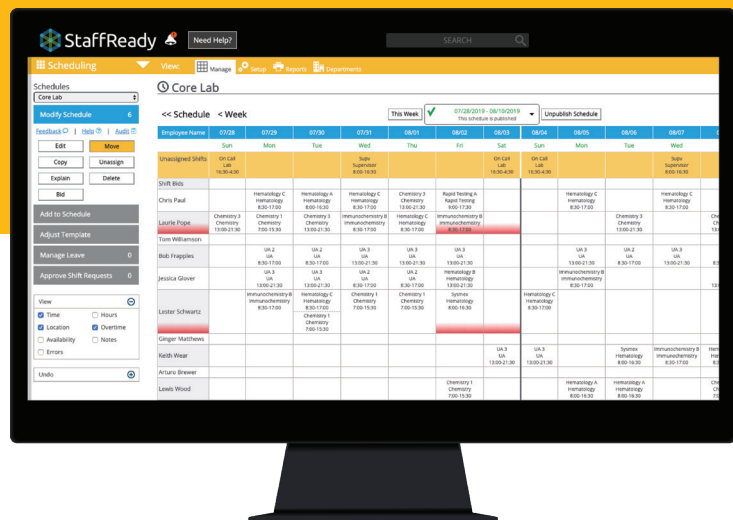

You want to create and update staff schedules in minutes, not hours. You want scheduling transparency that improves morale and productivity. You want the flexibility to manage schedules, automatic shift trades, and union regulations.

You want StaffReady Scheduling, an automated, cloud-based software solution.

We've been building cloud solutions for health care since 2002, and we understand how to help you work better by managing your staff time and resources. We create custom software experiences for each client based on your needs and requirements.

Our scheduling tool works the way you want it to. It's easy to schedule employees based on demand and the skills they have, while providing transparent scheduling across your organization.

Create flexible staff schedules in real time. Our cloud-based solution lets you automatically build schedules based on your rules and rotations. Easily view gaps and assign shifts, or send them out for bid. Include notes for specific employees, shifts, leave requests and shift trades. A 99.9% guaranteed uptime allows you to work confidently in the software 24x7x365.

**Our products run on everything.**  
Any time. Anywhere. Any device.

**Customize StaffReady to fit your organization. Create individual schedules for each department, and manage employees across multiple schedules and departments. We've been building cloud-solutions for healthcare since 2002, and we always tailor the software to fit your unique needs and requirements.**

“We were spending approximately 11,000 hours per year, at a labor expense of close to \$500,000...(Now) we're saving both time and money by using StaffReady Scheduling.”

## Flexible

Provide flexibility to your staff by publishing schedules weeks in advance. Our cloud-based solution automatically builds schedules based on your rules and rotations. Easily review and modify the built schedule and allow your employees to make change requests once you choose to publish. Handle these change and leave requests easily, conveniently, from anywhere.

## Transparent

Boost morale with ultimate transparency. Automated scheduling creates schedules available in real-time, 24/7. Allow employees to trade shifts and request personal time off/leave through the system with approvals and audit logs that track all changes.

## Customizable

Tailor it to fit your organization. Create individual schedules for each department, and manage employees across multiple schedules and departments. We work with you to discover your needs and tailor the software to fit your unique needs.

## Boost Morale

Save resources and headaches, every day. Dramatically reduce administrative time currently spent on scheduling. Manage multiple locations from one dashboard. Match availability and qualifications/competencies by integrating with StaffReady Competency.
