

# Aluminum Rack Wash

## HIGHLY CONCENTRATED ALUMINUM CLEANER

A highly concentrated, non-foaming, mildly alkaline cleaner formulated specifically for use in applications having high mechanical energy such as recirculation CIP cleaners and rack washing systems where no foam is desired.

Removes a wide range of soils on processing equipment and is recommended for use on aluminum and soft metals. Aluminum Rack Wash is non-foaming, free rinsing, biodegradable and economical to use.

---

### DIRECTIONS FOR USE

1% TO 5% CONCENTRATION

Generally used at a 1% to 5% concentration in an automated rack washer. Can be used manually as well. See your representative for more information.

### PRODUCT PROPERTIES

**Appearance:** Clear yellow liquid  
**pH (Conc.):** 12-12.5  
**Foaming tendency at 70F:** N/A  
**Specific Gravity:** 1.18

### BENEFITS

- Cleans aluminum
- High reserve alkalinity
- Effective on oils and greases
- Non-foaming
- Hard water tolerant
- No filming or spotting
- Will not harm aluminum
- Safe on soft alloys
- Free rinsing
- No chalky white film
- Saves costs
- Biodegradable
- Reduces labor costs

### AVAILABLE SIZES:

- 55 gal
- 330 gal totes
