

Armor Plate

Premium Protective Coating

North Woods® Armor Plate is a premium moisturizing formula that penetrates, renews and restores suppleness to porous surfaces affected by harsh environmental conditions such as ultra violet overexposure. It leaves an invisible, breathable, protective coating that will revitalize leather, vinyl, rubber, fiberglass, and plastics. Armor Plate is formulated with Ultra Violet repellents that protect and renew surfaces and leaves no greasy residue!

BENEFITS

Ultra Violet Repellents Protect & Renew

- Vinyl
- Leather
- Fiberglass
- Rubber
- Tires
- Plastic

DIRECTIONS FOR USE

Spray Armor Plate Premium Protectant directly onto surface, or a dry cloth. Spread evenly over surface to be revitalized and allow to penetrate into surface for several minutes. Buff surface with a cloth for a satin finish or allow to air dry for a high gloss finish. Armor Plate Premium Protectant penetrates immediately to restore and guard against fading, dulling, and cracking. Protect your investment - use Armor Plate Premium Protectant!
