

# Big Green GC

## NONTOXIC BIODEGRADABLE GLASS CLEANER

Big Green GC is North Woods® latest breakthrough in environmentally safe, extreme concentration, detergent compression technology. It's biodegradable, earth safe chemistry allows for fantastic cleaning results without any harsh alkali, caustics, or butyls. With Big Green GC, you're buying a state of the art chemical formulation that provides unheralded cleaning results - yet is extremely safe and mild. Big Green GC's extreme concentrations yield unheard of savings. You won't believe the results, the space savings, and the economy! It contains only the finest readily biodegradable ingredients.

### DIRECTIONS FOR USE

#### LIGHT SOIL:

Dilute 1/2 oz. per gallon of water

#### NORMAL SOIL:

Dilute 1 oz. per gallon of water

#### HEAVY SOIL:

Dilute 4 oz. per gallon of water

#### EXTRA HEAVY SOIL:

Dilute 10 oz. per gallon of water

#### FLOOR WITH TIRE MARKS:

Dilute 8 oz. per gallon of water

#### FLOOR WITH HEAVY TIRE MARKS:

Dilute 15-30 oz. per gallon of water

NOTE: This product is made with a metal corrosion inhibitor, to protect metal racking, shelves, machinery, and other metal equipment from rusting.

### BENEFITS

- Cleans and Shines at Mild pH Levels
- Removes Stubborn
- Rubber Burn Marks
- Contains No Section 313 Chemicals
- No special equipment needed to use
- Very Concentrated for unparalleled economy
- Low foaming
- Saves space
- Biodegradable
- No VOC's
- No HAP's
- No emission reporting

### SPECIFICATIONS

Appearance: Green/yellow liquid

Odor: Mild, characteristic

Density (lbs/gal)(±0.1 @20°C) : 8.71

pH (Conc.)(±0.2 @20°C): 10.4

Refractive index (±0.0020 @20°C): .1.3745

Foam generation: Low

Stability (40°-120°F): Stable

Freeze/thaw stability: 3 cycles

D.O.T. classification: Not regulated

Biodegradable (per 16CFR260): Yes

Section 313 chemicals: None

Volatile organic compounds (VOC)-% : None
