

Bio Slide

VEGETABLE DERIVED OIL BASED ASPHALT RELEASE AGENT

North Woods® Bio Slide is an earth safe formulation designed to replace hazardous counterparts. Derived from vegetables and plants, this oil based, anti-stick coating is unparalleled in performance when used on asphalt truck beds and other paving equipment.

For use by construction companies, highway departments, and other asphalt application firms. A ultimate non-stick coating to prevent build-up of asphalt on truck beds, drag slats, spreaders, automatic shovels, wheel barrows and other surfaces. It's great for other asphalt working equipment such as pavers, shovels, rakes, graders, and rollers.

DIRECTIONS FOR USE

USE STRAIGHT, OR 20:1 OR 30:1 DILUTION

Best results when applied to clean surface, but still effective if that is not an option. Application via spray arch, pump up sprayer, compressed air sprayer, or through any asphalt spray system. Lasts for 4 or more truckloads.

PRODUCT PROPERTIES

Appearance: Golden liquid
Odor: Mild, characteristic
Density (lbs/gal)(±0.1 @20°C): 7.42
pH (Conc./1%)(±0.5 @20°C): 7
Refractive index (±0.0020 @20°C): 1.136
Foaming tendency: low
Hard Water Tolerance (as ppm CaCO3): >2700
Freeze/thaw stability: 3 cycles
Flash-point (TCC): None
Biodegradable (per 16CFR260): Yes
Section 313 chemicals: None

BENEFITS

- Prevents asphalt from sticking
- Safe on all metal and painted surfaces
- Completely Biodegradable
- Saves clean up time
- Extended duration coating lasts for multiple loads
- Reduces labor costs
- Works on trucks, pavers, rollers, all and tools, spreader bars, belts, etc.

AVAILABLE SIZES:

- 5 gal
- 55 gal
- 330 gal totes
