

Concrete Buster

ACID CONCRETE TRUCK & FORMS CLEANER

North Woods® Concrete Buster is a highly concentrated, hydrochloric acid, cleaner for use in cleaning cement trucks, off-road vehicles, concrete forms, and heavy equipment.

Especially effective in applications such as pre-soak and pressure washing. Concrete Buster is formulated to remove cement, road film, rust, and oxidized deposits. Fortified with an extremely effective corrosion inhibitor, so it can be used to remove a wide range of soils on painted surfaces, iron, and steel.

Widely used by construction companies, highway departments, and other concrete producing firms. Concrete Buster excels where other more aggressive products fail or cause surface damage.

DIRECTIONS FOR USE

USE STRAIGHT, OR 10:1

The best success is achieved when applying to surface, allowed to dwell, agitated, and pressure washed. Application via a pressure washer, foaming equipment, or manually.

PRODUCT PROPERTIES

Appearance: Clear yellow liquid

Odor: Mild, characteristic

Density (lbs/gal)(±0.1 @20°C): 11.71

pH (Conc./1%)(±0.5 @20°C): 1.5-2.0

Foaming tendency: moderate

Hard Water Tolerance (as ppm CaCO₃): >2700

Freeze/thaw stability: 3 cycles

Flash-point (TCC): None

Biodegradable (per 16CFR260): Yes

Section 313 chemicals: None

BENEFITS

- Removes excess concrete build up
- Safe on all metal and painted surfaces
- Completely Biodegradable
- Reduces labor costs
- Saves clean up time
- Contains corrosion inhibitors to protect surfaces
- Effective on rust, and oxidized deposits

AVAILABLE SIZES:

- 5 gal
- 55 gal
- 330 gal totes
