

DEET FREE

DEET FREE NATURAL INSECT REPELLENT

Finally a natural alternative to the harsh chemical containing insect repellents on the market today. After years of research, extensive testing, and approval from the United States Environmental Protection Agency - we are pleased to bring you North Woods® Deet Free Natural Insect Repellent.

This natural chemical alternative utilizes plants known for their unique ability to ward off noxious biting insects. Deet Free's plant based essential oils formula contains no harsh chemicals, no synthetic pesticides, and no fragrance to mask harmful toxins.

More and more potentially lethal viruses are known to be transmitted by biting insects. That's why it's never been more important to protect you, your children, and your pets from this danger. North Woods Deet Free provides this level of protection without exposure to potentially harmful chemical irritants - safely, effectively, and naturally.

DIRECTIONS FOR USE

Spray Deet Free on clothing and exposed areas. Reapply as necessary.
