Career Schools and Colleges, Austin, Texas.**

Published: Sept. 13th 2021 Effective: Sept. 13th 2021

For the Students:

This student handbook serves as a contract of record between you and Nucamp for your time with the Nucamp program in which you have enrolled. Nucamp strongly suggests that you read this handbook thoroughly, then retain it for future reference.

Students are bound to the version of the student handbook that is in effect upon their entrance into a Nucamp program. No other version of the student handbook supersedes the version in effect when the student enrolls in a Nucamp program.

Mission Statement

Nucamp provides community coding bootcamps on evenings & weekends, allowing working adults currently left out of the digital economy to enter the software development industry.

Through our unique business model & software platform we are the first and only bootcamp to offer truly affordable, local and flexible programs across the US

History

Nucamp was founded in 2017 by ex-Microsoft Ludovic Fournage. After spending 18 years leading the development of digital learning at Microsoft, Fournage experienced firsthand the lack of diversity in software development careers. He thought coding bootcamps might be the answer, but quickly discovered significant affordability and accessibility gaps, especially for those without

college degrees, lacking previous job experience in technology, or underemployed even while working full-time. So, he left Microsoft and started Nucamp in his Bellevue, Washington home to revolutionize how people access rewarding careers in software development, without requiring a college degree or expensive loans in the form of income sharing agreements.

There, Fourrage met many aspiring developers showing heart and potential, but who felt left out of the digital economy just because of where they lived or economic status. This felt incredibly unfair, so he committed to building Nucamp into a superior nationwide coding experience with unmatched value. Fourrage then brought on Karim El Naggar, an experienced executive leading software businesses at General Electric, as CEO to help scale Nucamp's disruptive business model with outstanding operations, quality and the most passionate and skilled tutors. The two have since relentlessly worked to bring the promise of affordable coding bootcamps to every corner of the U.S. for under \$2,000, a huge shift from traditional coding bootcamps that typically cost \$10,000-\$20,000.

Officers, Directors, and Trustees

Ludovic (Ludo) Fourrage, Founder and Chief Product Officer, is an education industry veteran, named in 2017 as a Learning Technology Leader by Training Magazine. Before founding Nucamp, Ludo spent 18 years at Microsoft where he led innovation in the learning space. As the Senior Director of Digital Learning at this same company, Ludo led the development of the first of its kind 'YouTube for the Enterprise'. More recently, he delivered one of the most successful Corporate MOOC programs in partnership with top business schools and consulting organizations, i.e. INSEAD, Wharton, London Business School, and Accenture, to name a few. With the belief that the right education for everyone is an achievable goal, Ludo leads the Nucamp team in the quest to make quality education accessible.

Karim El Naggar, former Founder and Chief Operating Officer, started with Nucamp as a business advisor and joined as a co-founder in 2018 and left Nucamp in 2020. Karim excelled at growing businesses sustainably, consistently delivering on financial and customer satisfaction targets. He has been leading Digital, Industrial IoTs and Software global businesses in the US and internationally for over 15 years before he joined Nucamp and he has now moved on to grow other businesses.

School Calendar, Class Schedules, and Program Starting Dates

General schedule structure

- Nucamp operates on 5-week cycles. Bootcamps start every cycle, with 10 cohorts delivered every year.
- Classes are 4 or 5 weeks long, and always fit into one 5-week cycle.
- Bootcamp classes always start on Monday mornings with online content accessible on a weekly basis. Each new week's content is released online on the Saturday preceding the start of the week

Schedule structure for the 3 types of bootcamps

- The Web Fundamentals Bootcamp is a unique 4-week class covering HTML, CSS and JavaScript designed an introduction course.
- The Front-End Bootcamp includes 3 classes: Bootstrap, React, React Native. There are 14 weeks of instruction over a total of 17 weeks from start to graduation (2 weeks of break and 1 week of graduation preparation).
- The Full-Stack Bootcamp includes 4 classes: Bootstrap, React, React Native and Backend. There are 18 weeks of instruction over a total of 22 weeks from start to graduation (3 weeks of break and 1 week of graduation preparation).

Holidays

The following holidays will be observed and classes will not be held: New Year's Day, Martin Luther King Day, Independence Day, Thanksgiving, Christmas

Breaks and Mealtimes

Two 15-minute breaks will be provided to students during Saturday workshops.

Student Contact Hours

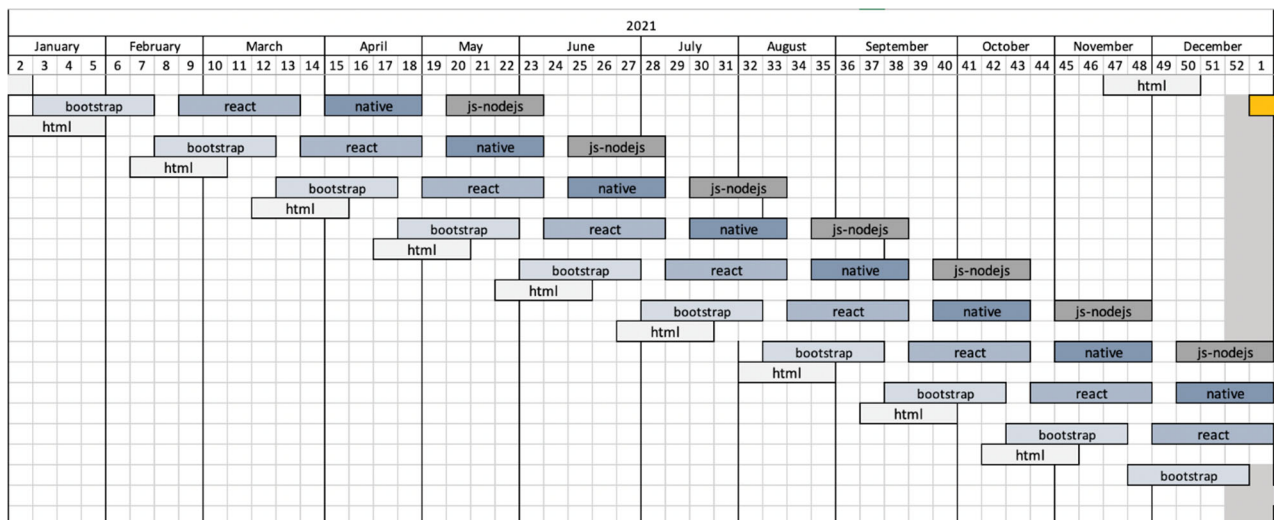

Nucamp estimates that

- 80% of the instruction is spent online by students, on the basis of:
 - o 2 ½ h per day on Monday, Tuesday, Wednesday, Thursday, and Friday
 - o 1h on Sundayfor a total of 13.5h per week of online instruction
- 20% of the instruction is delivered in-person on the basis of:
 - o 4h workshop on Saturday

for a grand total of 17.5 student contact hours per week

Program	Total Student Contact Hours
The Web Fundamentals Bootcamp	70 Student Contact Hours
The Front-End Bootcamp	245 Student Contact Hours
The Back-End, SQL, and DevOps w/Python Bootcamp	245 Student Contact Hours
The Full-Stack Bootcamp	315 Student Contact Hours

2021 Schedule

Facilities

Nucamp does not operate owned or rented facilities. 80% of the instruction is online and the remaining 20% is delivered through workshops facilitated by Teaching Assistants, held at coworking spaces such as WeWork or Impact Hub, or via Live Online workshops which students attend via video-conference. There is one (1) 20 minute scheduled breaks during the Saturday workshops.

Hours of Operation

School: 9:00 a.m.– 6:00 p.m. PST

Office: 9:00 a.m.– 6:00 p.m. PST

An example of coworking space in the state of Washington:

The co-working spaces provide seating and tables, as well as power and wifi-access. All co-working spaces provide lavatories and water supply.

Depending on the co-working space being used, they may or may not be ADA accessible, provide parking, kitchen, etc.

Nucamp will make a reasonable attempt to accommodate students with disabilities on a class-by-class basis, depending on the workshop location.

Students may also choose to attend live online workshops via videoconference in one of the following 3 time zones: Pacific, Central, Eastern.

Student Required Equipment

Students must provide their own laptops, and have working webcam, microphone and speakers or headset.

Collaborative workshop activities are performed using computer screen-sharing software. Nucamp does not require video-projection equipment, boards, or other educational supplies, and does not supply any physical course material or equipment to students.

Teacher-Student Ratio

The maximum class size is 12 and the student/teacher ratio is therefore 12 to 1 or less in all classes.

Entrance – Admission Requirements

Nucamp does not require students to hold any certificate or diploma or to pass an entrance examination. Nucamp, in line with its social mission, believes everyone should be given a chance to complete the program if they want to.

Nucamp offers a simple 25 question test upon request to help students decide if they are ready to register into one of the two advanced bootcamps (Front End Web Development or Full Stack Web Development), or if they should instead register first to the Web Development Fundamentals 4-week bootcamp.

Equal Opportunity – Equal Advantage

Nucamp does not discriminate based upon student race, religion, color, political identification, gender identification, sexual orientation, age, physical limitations or disabilities, veteran or military status, or the use of a trained guide or service animal.

Nucamp encourages diversity and accepts applications from all minority and under-represented groups. Approximately 50% of Nucamp students are from minority and under-represented groups.

ADA Accommodations

Nucamp will make every reasonable accommodation to students with disabilities on a class-by-class basis.

Nucamp acknowledges that information pertaining an applicant's disability is voluntary and confidential, and will be made on an individual basis. If the student presents this information, Nucamp will reasonably attempt to provide an accommodation to overcome the effects of the limitation of the qualified applicant. All inquiries about accommodations should be made to the admissions administrator upon registration of the program. To be qualified, an individual with a disability must meet the basic skill, education, training and other eligibility requirements of the relevant job or vocational program, and must be able to perform the essential functions of the relevant job or vocational program, either with or without reasonable accommodation; the employment and academic standards are the same for all individuals enrolled.

Programs

Web Development Fundamentals: Hybrid Online / In-Person | 4 weeks

(70 Total Student Contact Hours)

Introductions to Web Development, namely HTML, CSS and JavaScript. This Bootcamp *does not* prepare for a job in the industry, it is a preparation to either the Front End or Full Stack Bootcamp.

Subject	Lecture	Lab	Extern	Total
WDF 090	13.5	4	0	17.5
WDF 091	13.5	4	0	17.5
WDF 092	13.5	4	0	17.5
WDF 093	13.5	4	0	17.5
Total	54	16	0	70

WDF 090 - Tech Week – 13.5/4/0

In this first week, students are introduced to classmates and the tutor, and to the tools they will need for the Bootcamp. Students will install a code editor and a collaboration tool, and will write their first HTML page.

Prerequisites: Acceptance into the program

WDF 091 - HTML and CSS – 13.5/4/0

In this second week, students are introduced to the fundamental elements of HTML and CSS, the main technologies used to construct web pages. Students will learn to build and validate forms.

Prerequisites: WDF 090

WDF 092 - Introduction to JavaScript – 13.5/4/0

In the third week of the course, students begin to learn JavaScript; this includes the fundamental components of most programming languages such as variables, arrays, making decisions, loops, events and functions, as well as the generation of random numbers.

Prerequisites: WDF 091

WDF 093 - Advanced JavaScript –13.5/4/0

In the fourth and last week of the course, student are introduced to relatively more advanced components of JavaScript. This includes a deeper understanding of techniques which have already been introduced, namely loops, arrays, events and functions. New topics include DOM concepts and manipulation.

Prerequisites: WDF 092

The approximate time required to complete the program is 4 weeks duration. A certificate of completion will be awarded at the end of this course work.

Front-End Web and Mobile Development: Hybrid Online / In-Person | 17 weeks
(245 Total Student Contact Hours)

The three courses in this Bootcamp cover front-end frameworks: Bootstrap and React. Students learn to create hybrid mobile applications using the React Native. This bootcamp prepares students for a Junior Front-End Web / Mobile Developer job.

Subject	Lecture	Lab	Extern	Total
FEWM 100	67.5	20	0	87.5
FEWM 101	67.5	20	0	87.5
FEWM 102	54	16	0	70
Total	189	56	0	245

FEWM 100 - Bootstrap: 5 Weeks – 67.5/20/0

Prerequisites: Students are expected to have prior working knowledge of HTML, CSS and JavaScript

Week 1: Front-end Web UI Frameworks Overview: Bootstrap

Week 2: Bootstrap CSS Components

Week 3: Bootstrap JavaScript Components

Week 4: Web Tools

Week 5: Advanced JavaScript Part 1

Break: 1 Wee7.

FEWM 101- React: 5 Weeks –67.5 /20/0

Prerequisites: FEWM 100

Week 1: Advanced JavaScript Part 2

Week 2: Introduction to React

Week 3: React Router and Single Page Applications

Week 4: React Forms, Flow Architecture and Introduction to Redux

Week 5: More Redux and Client-Server Communication

Break: 1 Week

FEWM 102- React Native: 4 Weeks – 54/16/0

Prerequisites: FEWM 101

Week 1: Introduction to Hybrid Mobile App Development Frameworks

Week 2: React Native UI Elements and Redux

Week 3: React Native Alerts, Animations, Gestures, and Persist Redux Store

Week 4: Accessing Native Capabilities of Devices: The Expo SDK

The approximate time required to complete the program is 17 weeks duration. A certificate of completion will be awarded at the end of this course work.

[Back-End, SQL, and DevOps with Python: Hybrid Online / In-Person | 17 weeks](#)
(245 Total Student Contact Hours)

The three courses in this Bootcamp will cover the fundamentals of the Python programming language; the most popular database query language in the world: SQL; and introduce you to modern software engineering with DevOps.

Subject	Lecture	Lab	Extern	Total
BSDP 100	67.5	20	0	87.5
BSDP 101	67.5	20	0	87.5
BSDP 102	54	16	0	70
Total	189	56	0	245

[BSDP 100 -Python Fundamentals, Data Structures, and Algorithms: 5 Weeks - 67.5/20/0](#)

Week 1: Bootcamp Kick-Off & Introduction to Python

Week 2: For Loops and Functions

Week 3: Introduction to Data Structures

Week 4: Object-Oriented Programming and Data Structures

Week 5: All about Algorithms

Break: 1 Week

[BSDP 101 - SQL with Python: 4 Weeks - 67.5/20/0](#)

Week 1: Data Modeling and Database Technologies

Week 2: Just SQL

Week 3: Database Migrations & Application Development

Week 4: Database Triggers, Optimization, and Visualization

Break: 1 Week

[BDSP - Modern Software Engineering with DevOps: 4 Weeks - 54/16/0](#)

Week 1: Introduction to Software Development

Week 2: Deployment, Docker, and Serverless Technologies

Week 3: Integration and Testing

Week 4: Advanced DevOps

[Portfolio Project & Graduation:](#)

Week 1: Portfolio Project Wrap-up, Presentation and Graduation

Pre-requisites: Students are expected to have prior working knowledge of HTML, CSS and JavaScript.

The approximate time required to complete the program is 17 weeks duration. A certificate of completion will be awarded at the end of this course work.

Full-Stack Web and Mobile Development: Hybrid Online / In-Person | 22 weeks (315 Total Student Contact Hours)

The first two courses in this Bootcamp cover front-end frameworks: Bootstrap and React. Students learn to create hybrid mobile applications, using the React Native. On the server side, students learn to implement NoSQL databases using MongoDB, work within a Node.js environment and Express framework, and communicate to the client side through a RESTful API. This bootcamp prepares students for a Junior Full-Stack Web / Mobile Developer job.

Subject	Lecture	Lab	Extern	Total
FSWM 100	67.5	20	0	87.5
FSWM 101	67.5	20	0	87.5
FSWM 102	54	16	0	70
FSWM 103	54	16	0	70
Total	243	72	0	315

FSWM 100 - Bootstrap: 5 Weeks – 67.5/20/0

Week 1: Front-end Web UI Frameworks Overview: Bootstrap

Week 2: Bootstrap CSS Components

Week 3: Bootstrap JavaScript Components

Week 4: Web Tools

Week 5: Advanced JavaScript Part 1

Break: 1 Week

FSWM 101 - React: 5 Weeks – 67.5/20/0

Week 1: Advanced JavaScript Part 2

Week 2: Introduction to React

Week 3: React Router and Single Page Applications

Week 4: React Forms, Flow Architecture and Introduction to Redux

Week 5: More Redux and Client-Server Communication

Break: 1 Week

FSWM 102 - React Native: 4 Weeks 54/16/0

Week 1: Introduction to Hybrid Mobile App Development Frameworks

Week 2: React Native UI Elements and Redux

Week 3: React Native Alerts, Animations, Gestures, and Persist Redux Store

Week 4: Accessing Native Capabilities of Devices: The Expo SDK

Break: 1 Week

F5W103 - NodeJS Express MongoDB: 4 Weeks 54/16/0

Week 1: Introduction to Server-side Development

Week 2: Data Management and NoSQL

Week 3: Authentication and Security

Week 4: Backend as a Service

The approximate time required to complete the program is 22 weeks duration. A certificate of completion will be awarded at the end of this course work.

Education Credentials

Students receive a certificate of completion after each module, and a certificate of completion at the end of the bootcamp, provided they have completed all weekly assignments with a grade of 6/10 or above.

Students may also receive a certificate of completion with honors by providing a video presenting their portfolio project, which has to be a working prototype.

Here are multiple examples of such project on GitHub: <https://github.com/search?q=nucamp> as well as on our YouTube channel at <https://www.youtube.com/playlist?list=PLRL-N7m2cRDOjjedo42d7zRnlwh-RF7La>

Tuition and Additional Costs

Total cost of training including tuition, fees, deposits, and other charges necessary to complete the program.

Early Bird Pricing (2 weeks or more prior to registration)

Program	Total Tuition (Early bird rate)	Registration Fee (included)	Textbooks	Supplies	Licensing / Testing
Web Dev Fundamentals	\$349	\$30	0	0	0
Front End	\$1480	\$100	0	0	0
Python	\$1480	\$100	0	0	0
Full Stack	\$1880	\$100	0	0	0

Regular Pricing (less than 2 weeks prior to registration)

Program	Total Tuition (Regular Pricing)	Registration Fee (included)	Textbooks	Supplies	Licensing / Testing
Web Dev Fundamentals	\$399	\$30	0	0	0
Front End	\$1780	\$100	0	0	0
Python	\$1780	\$100	0	0	0
Full Stack	\$2180	\$100	0	0	1

To facilitate access to the program, Nucamp offers as the default option to students registering to the Front End or the Full Stack program a payment plan as follows:

- Initial Payment at registration of 1/4th of the total tuition for Front End (or 1/5th for Full Stack)
- 3 monthly payments starting on the first day of class for Front End (or 4 monthly payments for Full Stack)

Financial Aid Assistance

Nucamp does not currently offer financial aid. Instead, Nucamp provides extremely affordable tuition and monthly payment plans as the default option for students.

Grading System/Standards of Progress

Students are graded weekly on the workshop assignment. A passing grade is a minimum of 6 out of 10.

A student who misses an assignment must contact the tutor within twenty-four hours of the due date to inform him of late assignment submission and arrange for a new date of submission.

Students may submit assignments late within reasonable limits provided:

- They have informed their tutor and have agreed on a new date with him.
- They do not have more than 2 assignments late at any point during the bootcamp
- They turn-in all their assignments at least 5 days before their graduation date, which is usually 10 days after the last workshop

Students who fail to maintain the minimum grade point average of 6/10 required for graduation will not be issued a completion certificate. Under Texas Education Code, Section 132.061(f) a student who is obligated for the full tuition and is not entitled to a refund may request a grade of "incomplete". This option is only available to student that withdraw for an appropriate reason unrelated to the student's academic status. Students may be allowed to opt for an "incomplete" grade to reenroll in Nucamp during the 12-month period following the date the student withdraws and complete those incomplete program without payment of additional tuition.

Attendance Requirements

Students are expected to complete their online learning and communicate with their tutors online each week as needed to be prepared for their Saturday assignment. Students are expected to attend the Saturday workshops in person (or in videoconference, depending on the bootcamp). Nucamp recommends to students who are not showing continuous commitment to drop from enrollment. Occasional excused absences are acceptable so long as all assignments are completed and the minimum grade point average of 6/10 required for graduation is maintained.

Make-up Work

There is no make-up work other than submitting late assignments. Students are required to publish their weekly assignment and receive a 6 out of 10.

Tardiness

Students are expected to arrive on time for Saturday workshops and be prepared to begin work by the start of the session. This insures the maximum amount of instruction for the student with the least disruption for other students in the bootcamp.

Students who develop a pattern of tardiness will be addressed by student administration and may be excluded if their behavior is detrimental to the class.

Withdrawing from School

To withdraw from Nucamp, student may go to their personal profile at <https://www.nucamp.co/profile> by selecting “change” on their bootcamp and then “cancel”. This action will have an immediate effect.

They may also request to withdraw from the program via simple email sent to studenadmin@nucamp.co

The student refund is calculated automatically. See the Cancellation and Refund Policy section below for more clarification.

Nucamp also offers students the option to retake a bootcamp module for a \$99 fee, or to postpone enrollment to the next module starting 5 weeks later for a \$99 fee. We offer these additional options in addition to simple withdrawing to offer flexibility to students who have professional or personal commitments or changes in their lives that conflict with their bootcamp schedule. We also offer students the option of retaking the complete bootcamp for the same one-time fee of \$99. The \$99 fee is payable once, all following changes or retakes are free of charge.

Code of Conduct

Nucamp supports a safe environment where students may comfortably pursue their academic goals. Students are expected to conduct themselves in a way that supports this environment, does not put other students or the tutors at risk from discrimination or harm in any form, conveys respect for other students and the tutor, and uphold academic integrity.

Students are directed to the Nucamp Student Code of Conduct for further explanation and elaboration of student responsibilities in this area.

Conditions for Dismissal

Students may be dismissed from the school for the following reasons:

1. Not adhering to Nucamp's code of conduct.
2. Not meeting financial responsibilities to Nucamp

Nucamp will notify the student in writing should it become necessary to dismiss the student. The dismissal letter will contain the date and the reason for dismissal. Tuition will be refunded according to Nucamp's refund policy.

Conditions for Re-Enrollment

Students dismissed from the school who request re-entry must put the request in writing at studentadmin@nucamp.co

Students may be re-enrolled in the school for by:

1. Adhering to Nucamp's code of conduct.
2. Meeting financial responsibilities to Nucamp

Student Grievance-Complaint/Appeal Process

Nothing in this policy prevents the student from contacting the Workforce Board (the state licensing agency) at 360-709-4600 at any time with a concern or a complaint. Students who have a complaint should write to studentadmin@nucamp.co. and if not resolved, directed to:

Texas Workforce Commission
Career Schools and Colleges, Room 226T
101 East 15th Street
Austin, Texas 78778-0001
Phone: 512-936-3100
texasworkforce.org/careerschools

Cancellation and Refund Policy (Compliance with f Texas Education Code, Sections 132.061 and .0611 and Title 40, Texas Administrative Code, Section 807.261-264)

Nucamp will refund all money paid if the applicant is not accepted if a starting class is cancelled.

Should the student's enrollment be terminated, or should the student withdraw for any reason, all refunds will be made according to the following refund schedule:

1. If the bootcamp has not started:
 - Less than 3 days after registration, we will reimburse 100% of the money paid
 - 3 days or more after registration, we will retain a registration fee of \$30 for Web Development Fundamentals bootcamps or \$100 for other bootcamps and reimburse the remaining amount paid.
2. After the bootcamp has started: the amount retained by Nucamp is calculated based on attendance:
 - less than 75% of total instruction weeks: we will retain the pro-rata portion of tuition corresponding to the number of hours up to the effective date of termination
 - more than 75% of total instruction weeks: 100% of total tuition

When calculating refunds, the official date of a student's termination is the last day of recorded attendance:

1. When the school receives notice of the student's intention to discontinue the training program via the student self-service Web portal, or via email,
2. When the student is terminated for a violation of a published school policy which provides for termination; or,
3. Ten school days following the last date of attendance.

All refunds will be paid within 30 calendar days of the student's official termination date.

For reference:

- Web Development Fundamentals bootcamps comprise 4 weeks of instruction
- Front-End and Mobile Development bootcamps comprise 14 weeks of instruction
- Full Stack and Mobile Development bootcamps comprise 18 weeks of instruction

Nucamp also offers students the option to pause their attendance to a bootcamp and resume it with another cohort for a one-time fee of \$99.

Students who withdraw after the 75% completion mark and request a grade shall be given a grade of "incomplete" and permitted to re-enroll in the course during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course.

REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE

A student of Nucamp who withdraws from Nucamp a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;

(b) A grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

(c) The assignment of an appropriate final grade or credit for the courses in the program, but only if the teaching assistant or teaching assistants of the program determine that the student has:

(1) satisfactorily completed at least 90 percent of the required coursework for the program;

and

(2) demonstrated sufficient mastery of the program material to receive credit for completing the program.

All refunds will be paid within 30 calendar days of the student's official termination date.

For reference:

- Web Development Fundamentals bootcamps comprise 4 weeks of instruction
- Front-End and Mobile Development bootcamps comprise 14 weeks of instruction
- Full Stack and Mobile Development bootcamps comprise 18 weeks of instruction

Nucamp also offers students the option to pause their attendance to a bootcamp and resume it with another cohort for a one-time fee of \$99.

Student Records

Nucamp will maintain student records for 50 years or until the school closes. If the school closes, whether voluntary or involuntary, Nucamp will forward educational records and transcripts to the Workforce Training and Education Coordinating Board, 128 10th Ave SW, Olympia, WA 98501.

Upon graduation, Nucamp will present each student with a copy of his/her transcript. Students should retain these records indefinitely. Students may request additional copies in writing from the school for a \$25.00 transcript fee. Students may review their student records at any time.

Placement Assistance

Nucamp does not currently offer placement assistance.

School Calendar, Class Schedules, and Program Starting Dates

General schedule structure

- Nucamp operates on 5-week cycles. Bootcamps start every cycle, with 10 cohorts delivered every year.
- Classes are 4 or 5 weeks long, and always fit into one 5-week cycle.
- Bootcamp classes always start on Monday mornings with online content accessible on a weekly basis. Each new week's content is released online on the Saturday preceding the start of the week

Schedule structure for the 3 types of bootcamps

- The Web Fundamentals Bootcamp is a unique 4-week class covering HTML, CSS and JavaScript.
- The Front-End Bootcamp includes 3 classes: Bootstrap, React, React Native. There are 14 weeks of instruction over a total of 17 weeks from start to graduation (2 weeks of break and 1 week of graduation preparation).
- The Full-Stack Bootcamp includes 4 classes: Bootstrap, React, React Native and Backend. There are 18 weeks of instruction over a total of 22 weeks from start to graduation (3 weeks of break and 1 week of graduation preparation).

Holidays

The following holidays will be observed and classes will not be held: New Year's Day, Martin Luther King Day, Independence Day, Thanksgiving, Christmas
