

nuitée

INTRODUCTION

Nuitée is a cloud-based B2B company that supplies wholesale best-buy hotel inventory to the travel industry

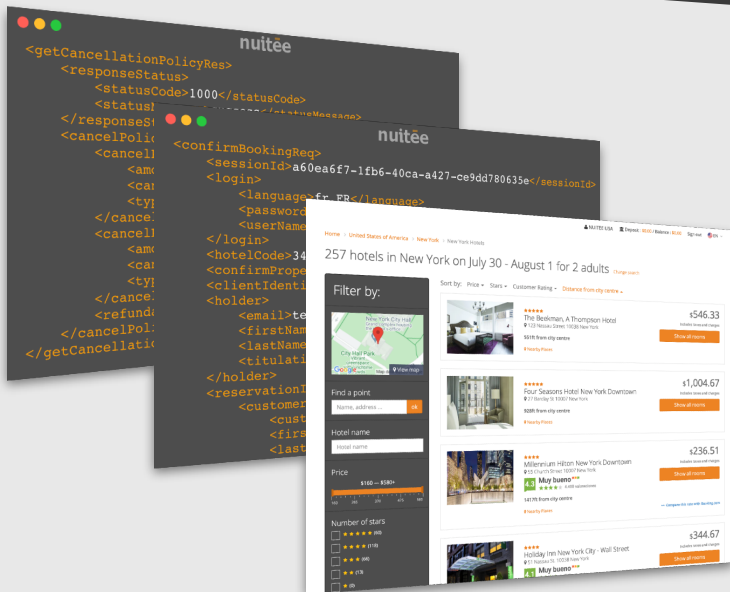

Nuitee offers a simple API connectivity solution to an extremely fragmented and complex travel distribution industry.

The company started operating in 2017 and positioned itself as one of the fastest-growing startups in its segment, winning the trust of an exclusive and high demanding API customer base.

Empowered by its own innovative and scalable technology, Nuitee allows travel companies to book AI-driven hotel inventory with the best buy dynamic rates - all handled by a fantastically experienced team.

High Performance Data-engineered API

+600 000 HOTELS Worldwide

Started in 2017

80 employees in 12 countries

Own data-warehouse

Avg 300 Million hotel searches / day

175 traveller nationalities

Nuitée is a privately owned business.

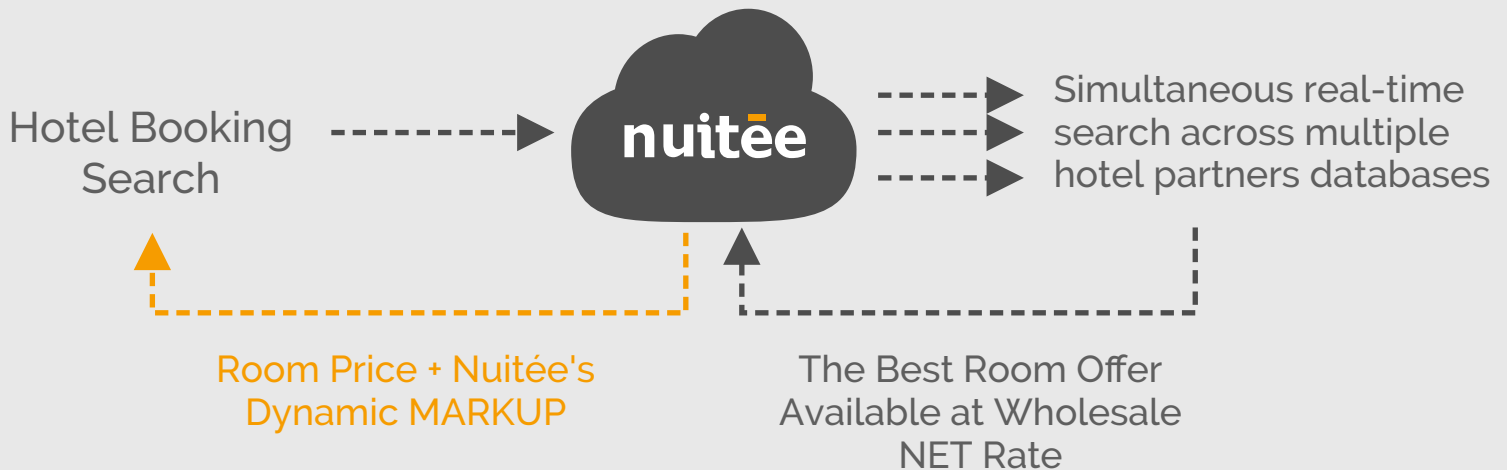

The tech company's headquarters are located in Tullamore (Ireland) with a team of digital nomads that are working remotely from different location all over the World : Argentina, Bulgaria, Croatia, France, Mexico, Morocco, North America, Spain, Turkey, United Kingdom and United Arab Emirates.

The company was founded by tech entrepreneurs and travel industry experts to build an innovative channel distribution for hotels, that fills the gap in the distribution space and creates value using data-intelligence extracted from millions of daily hotel searches.
