

NASH

ECOSYSTEM FOR GUESTS AND RESTAURANTS

Take your communication with guests to the next level:
from restaurant to ecosystem

- Bringing in new guests
- Talking about your restaurants
- Increase revenue
- Motivating employees

ECOSYSTEM NOSH

BASIC FUNCTIONALITY

01 Online menu

02 Pre-orders and reservations

03 Match?

04 Payment and e-tips

ADDITIONAL FUNCTIONALITY

01 Order accounting system (CRM)

02 Delivery without commissions

03 Restaurant customization on the map of the app

04 Geomarketing

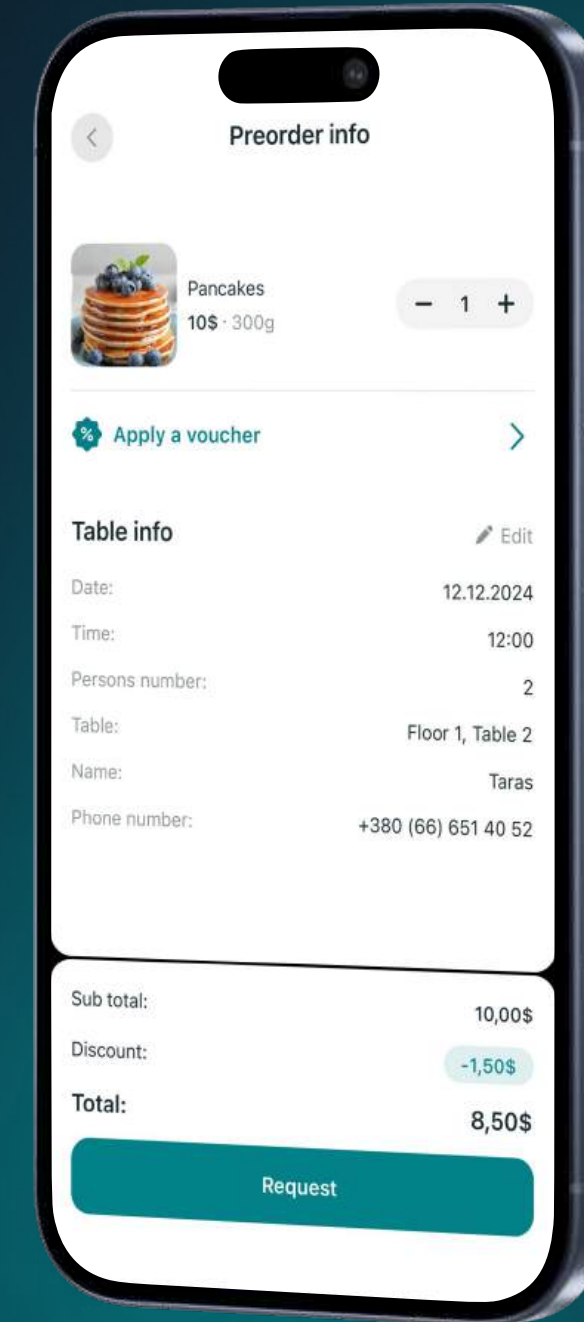

05 Push-notifications

ONLINE MENU

NOSH allows guests to browse, order and pay for dishes through the app, without a waiter, providing convenience and saving time.

We enable restaurants to update menus in real time. This eliminates the need to print new menus for seasonal dishes and prevents situations with stop-list orders.

01

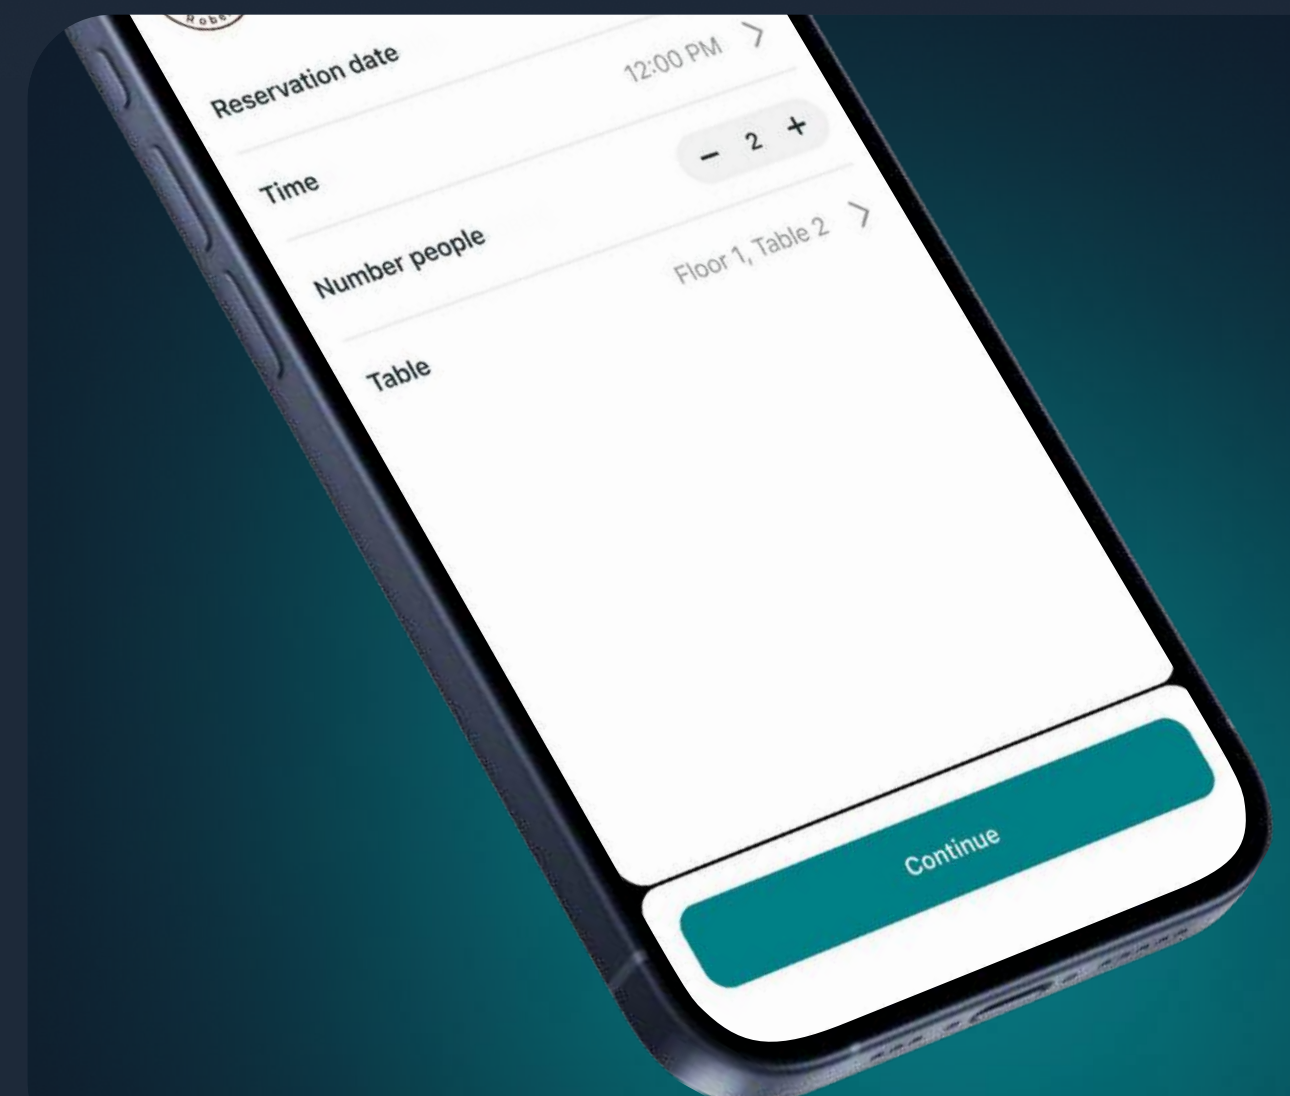

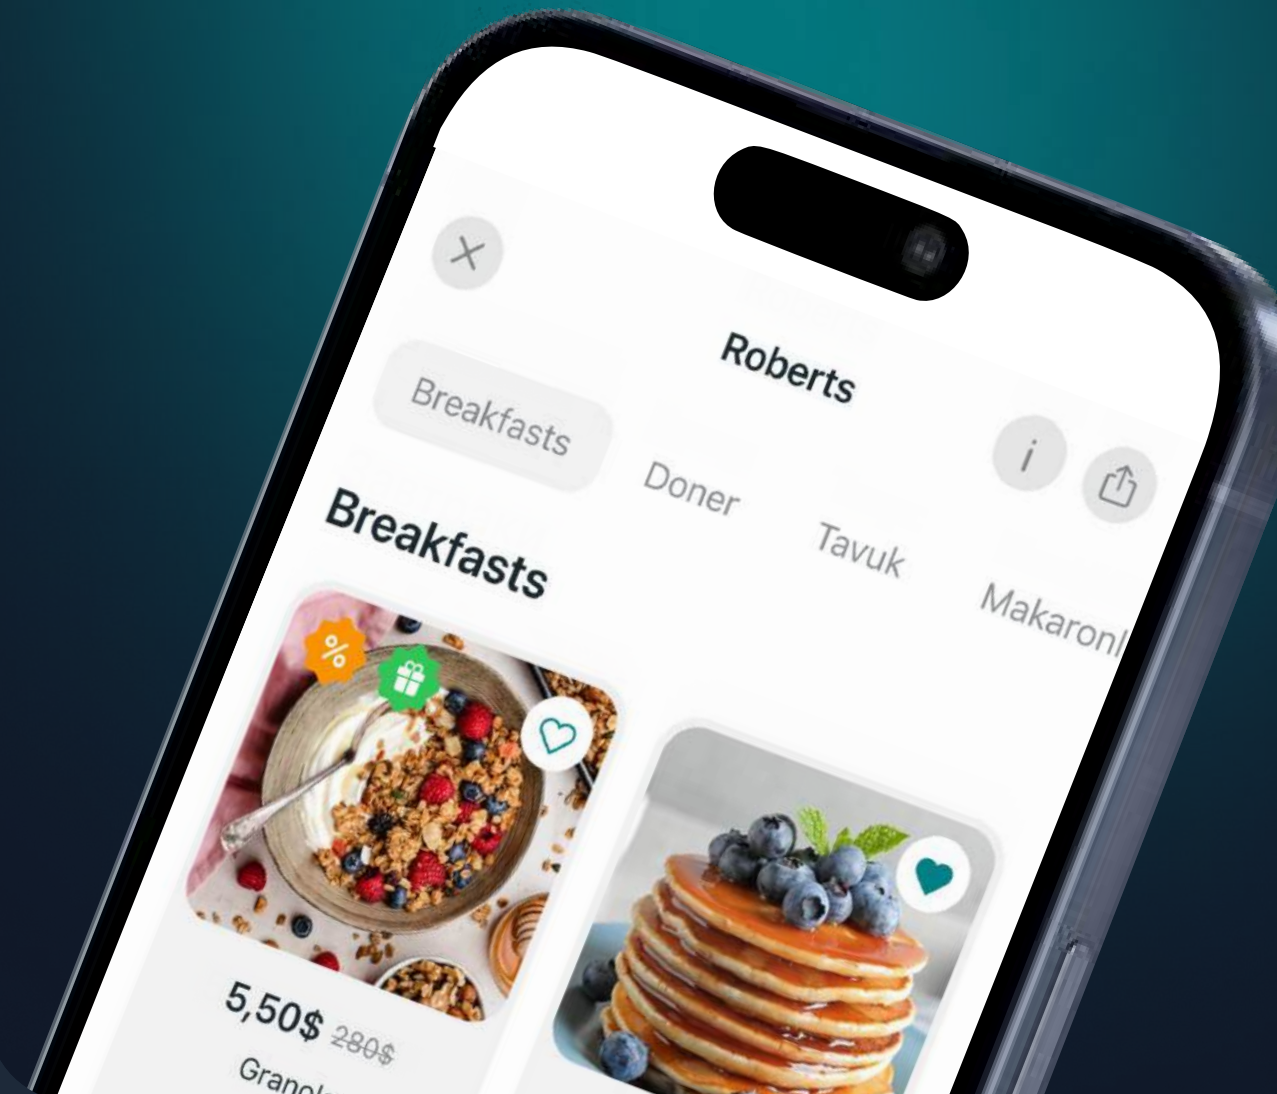

PRE-ORDER AND RESERVATIONS

Your guests will be able to book a table in advance or make a reservation for a certain time, which will help to avoid unpleasant situations and ensure a stable load of your institution.

02

+20% Increase in average check

up to **100%** Helping to reduce the cost of printed menus

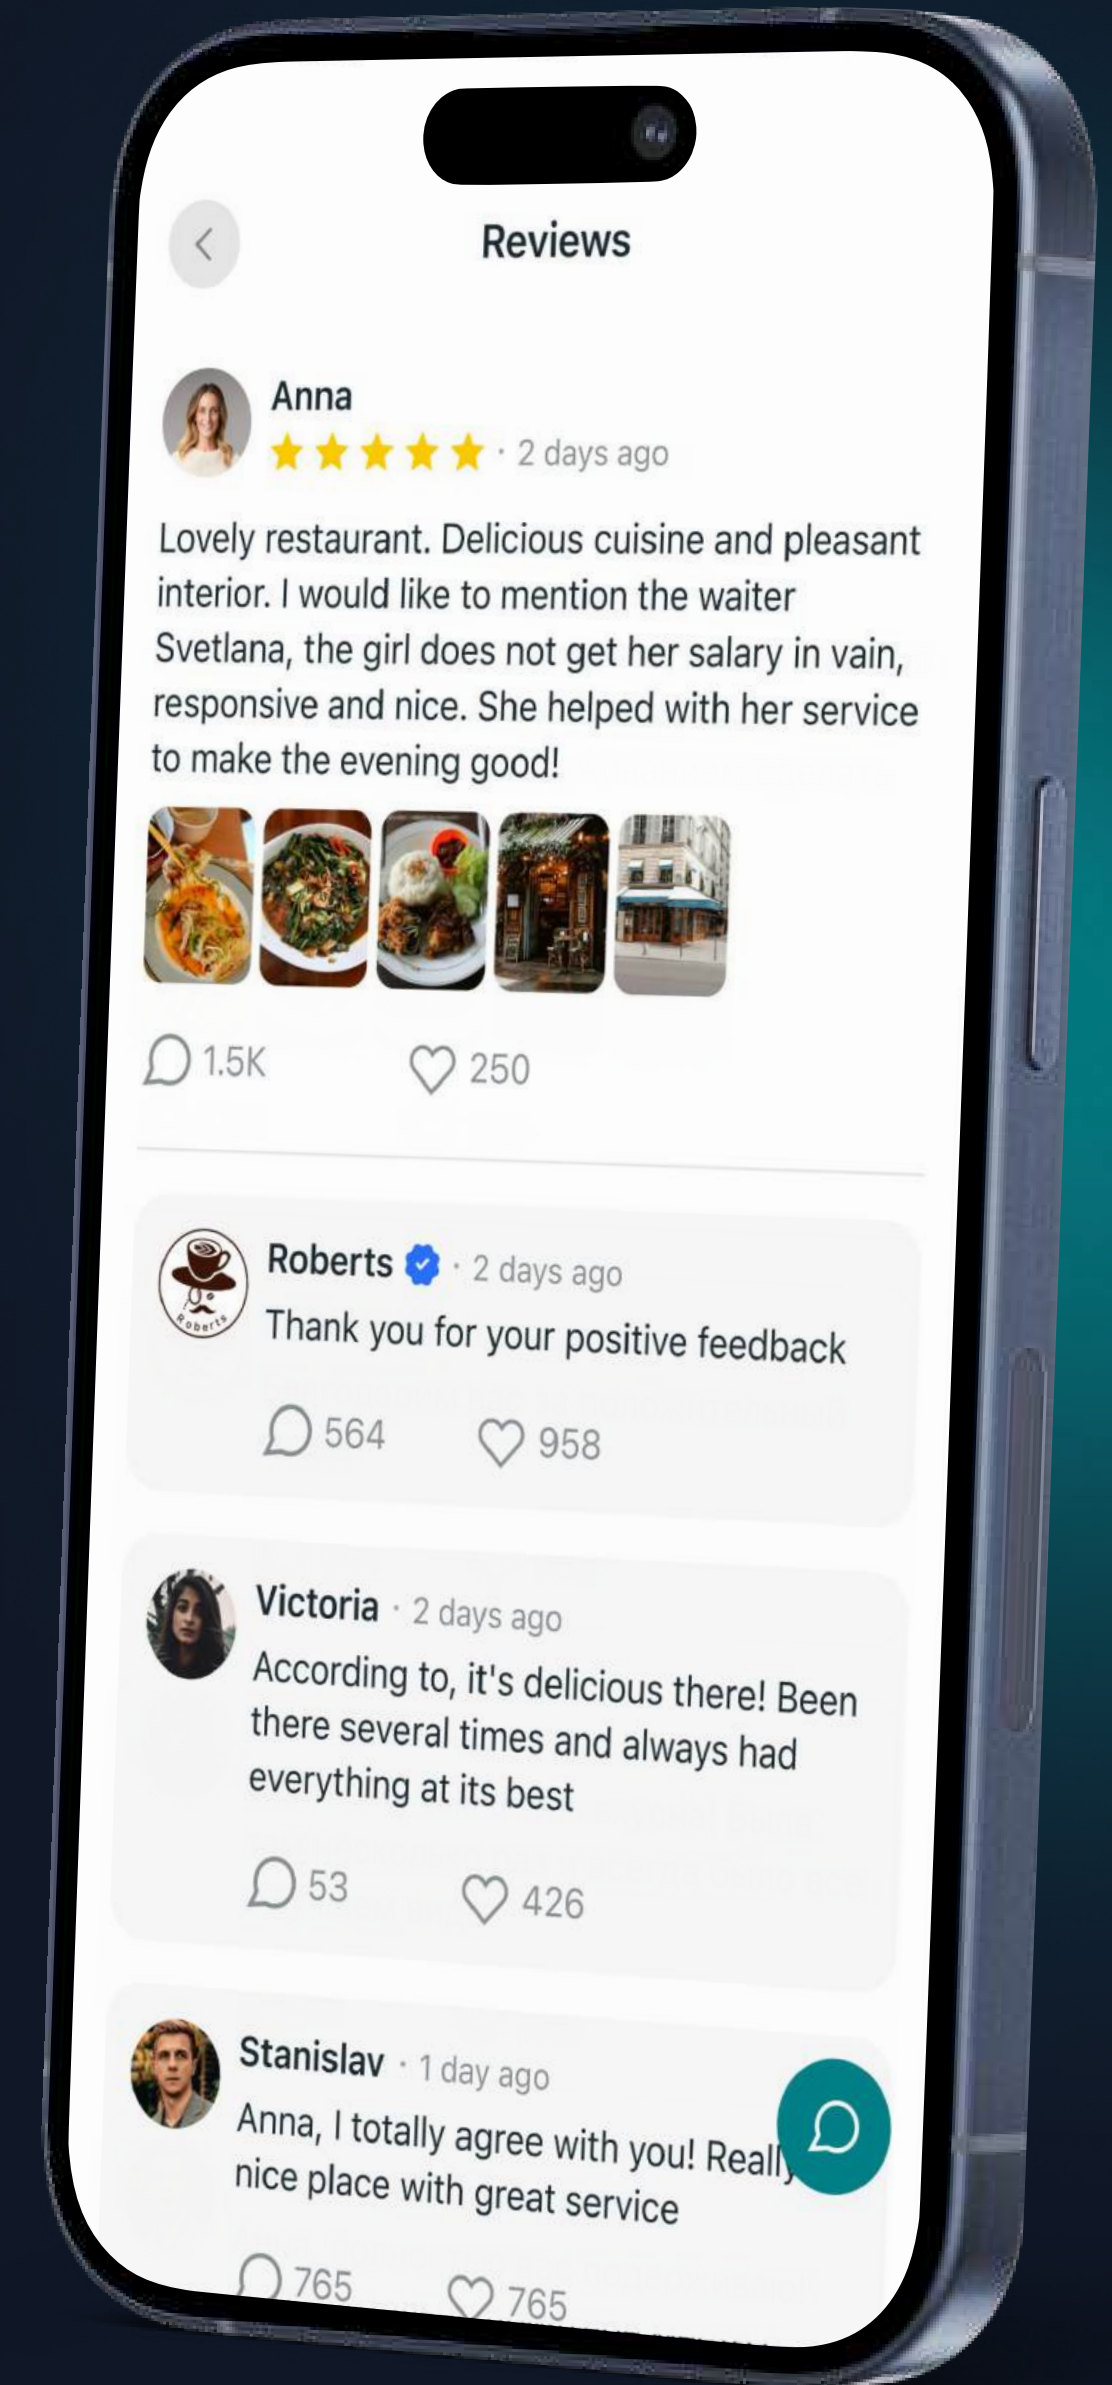

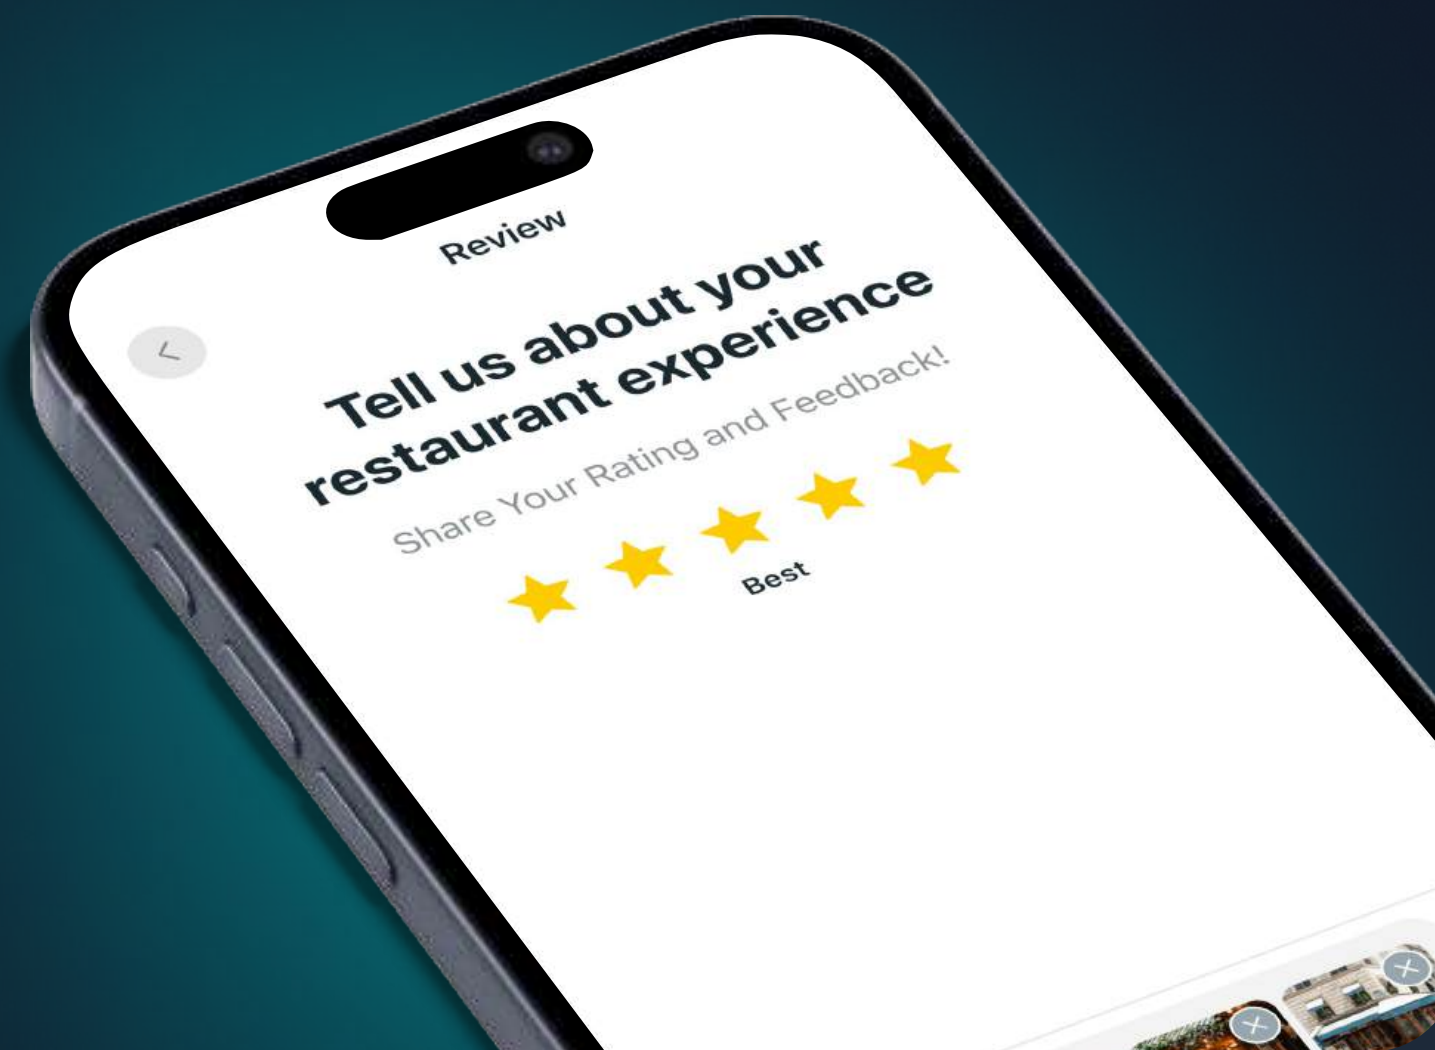

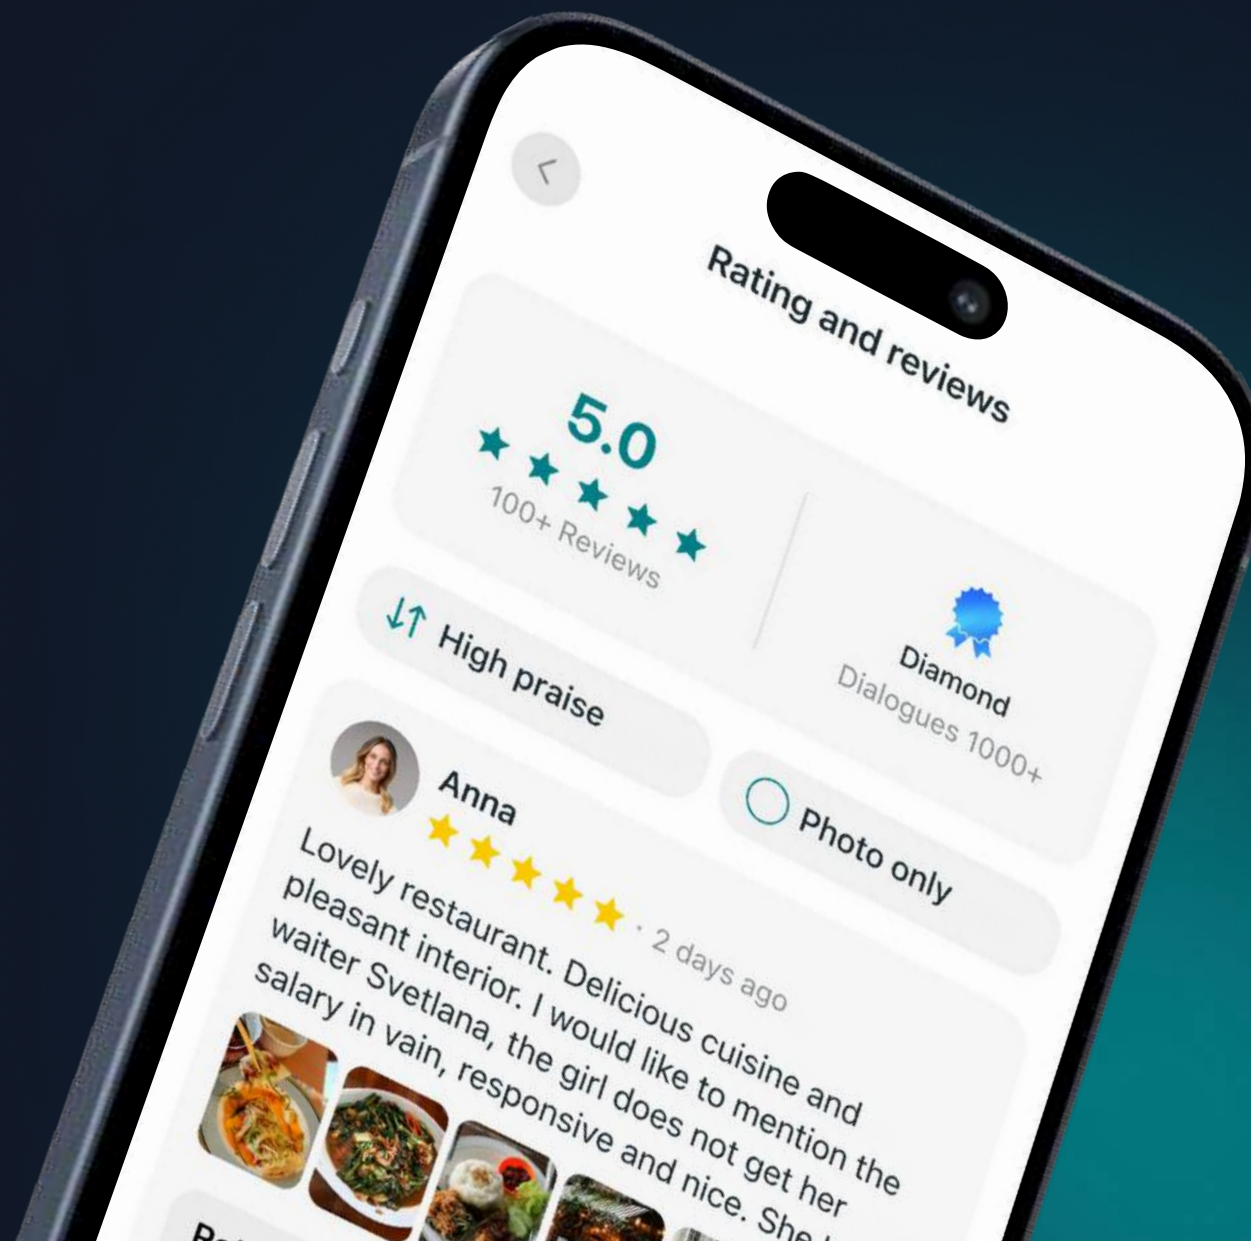

MATCH?

All reviews and ratings boil down to one thing - solving the guest's question, "Is this a good fit for me?"

"Match?" is the ability to create chat and discussion threads about restaurants or just a place to discuss an evening at your favorite establishment.

Engage with your guests. Start viral trends and be on the top of the popularity charts

03

PAYMENT AND E-TIPS

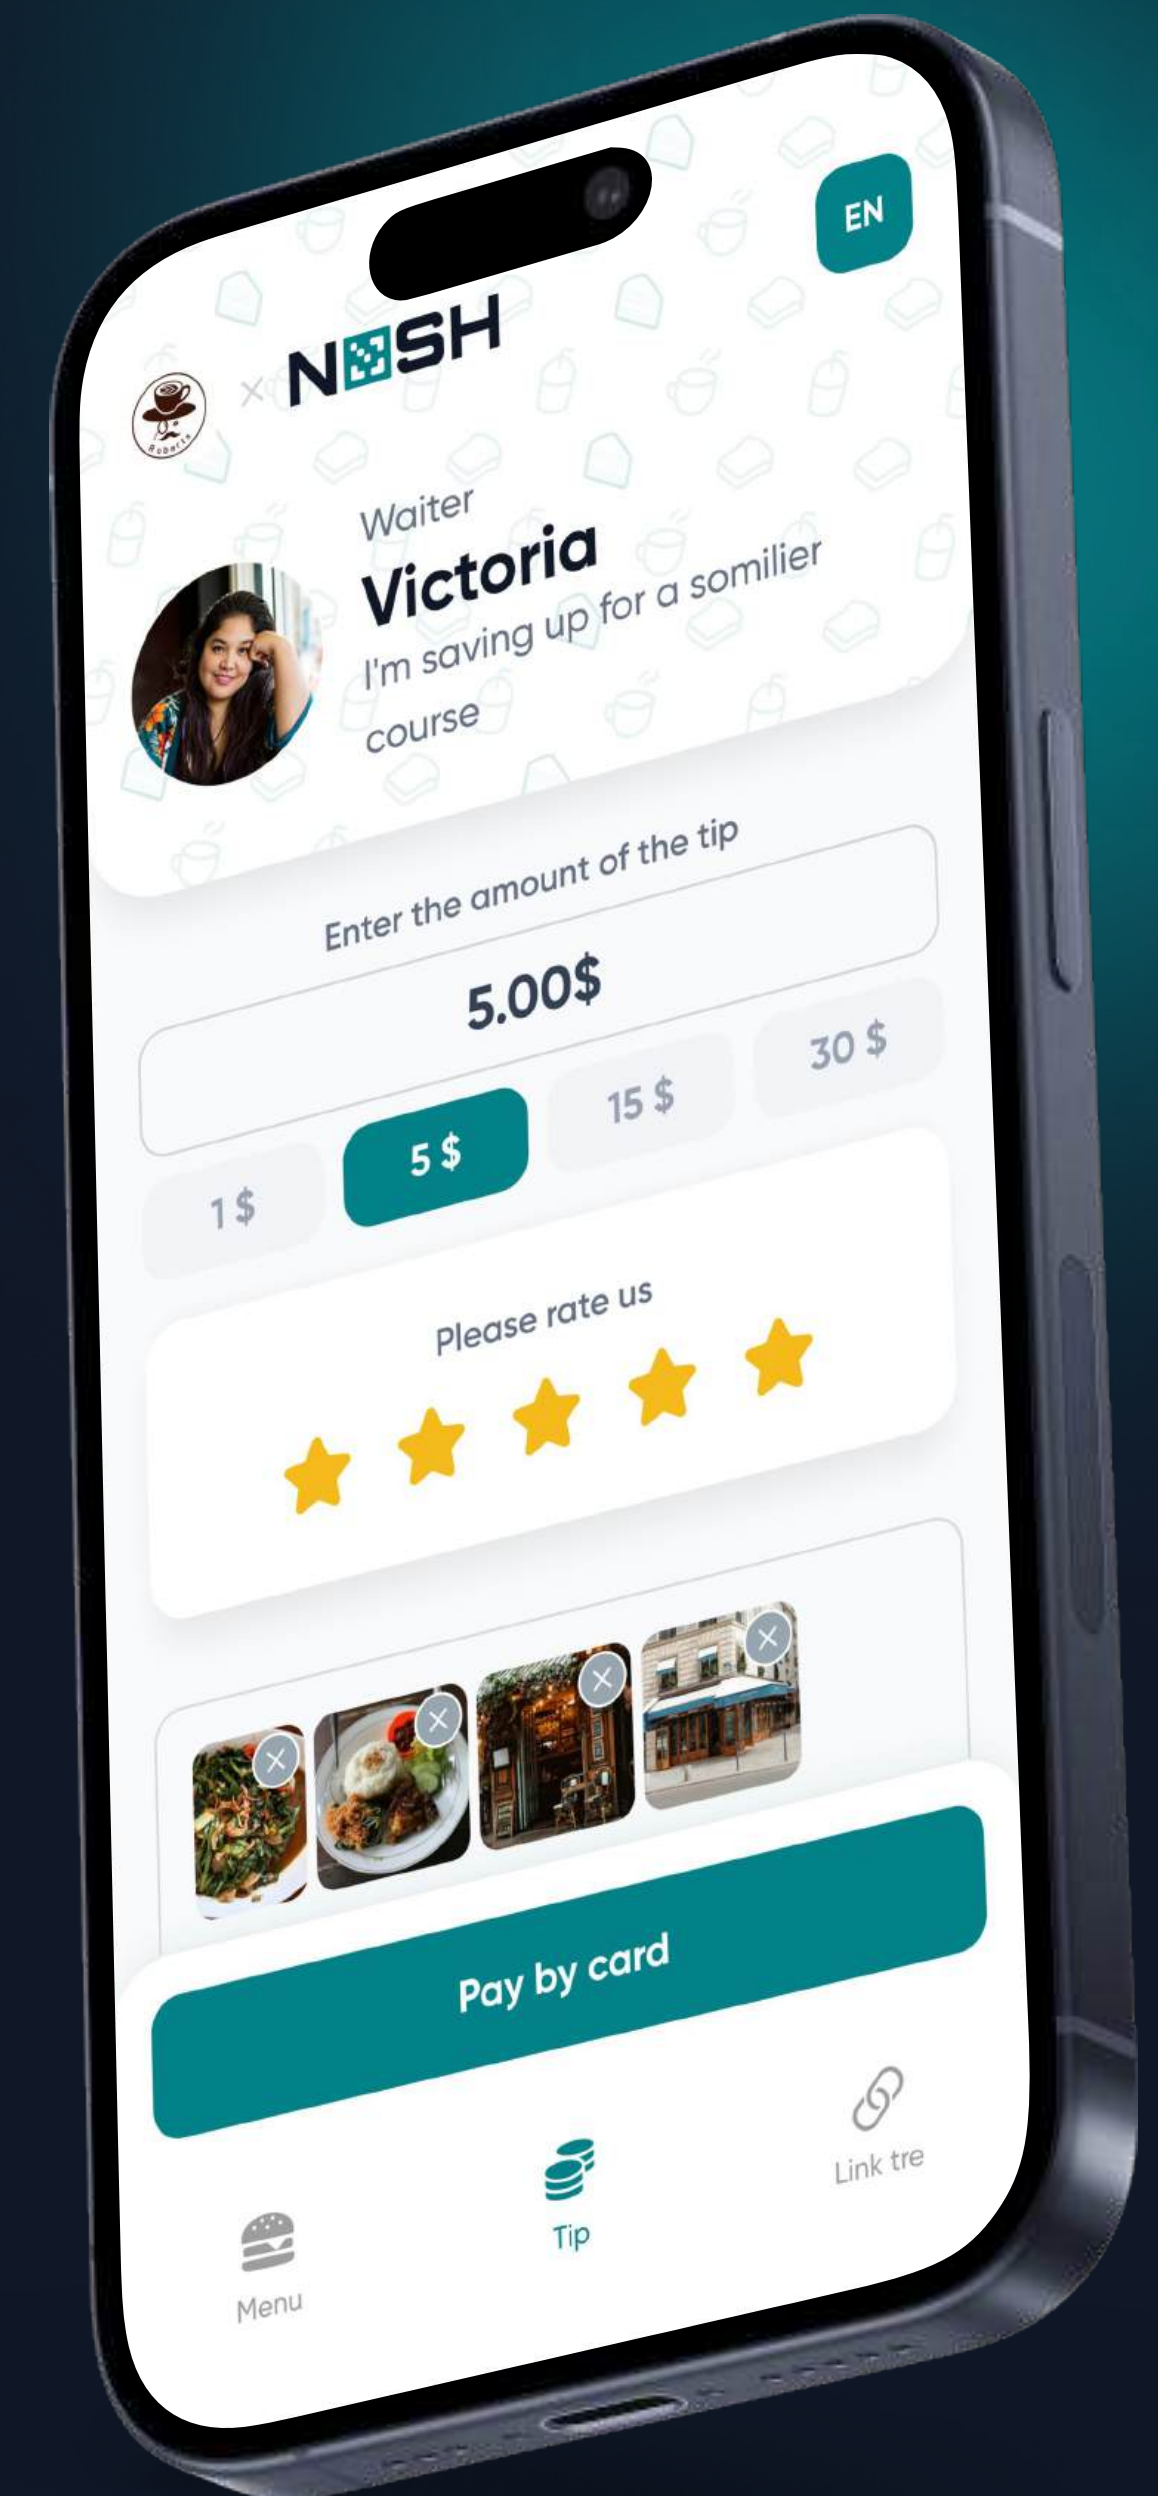

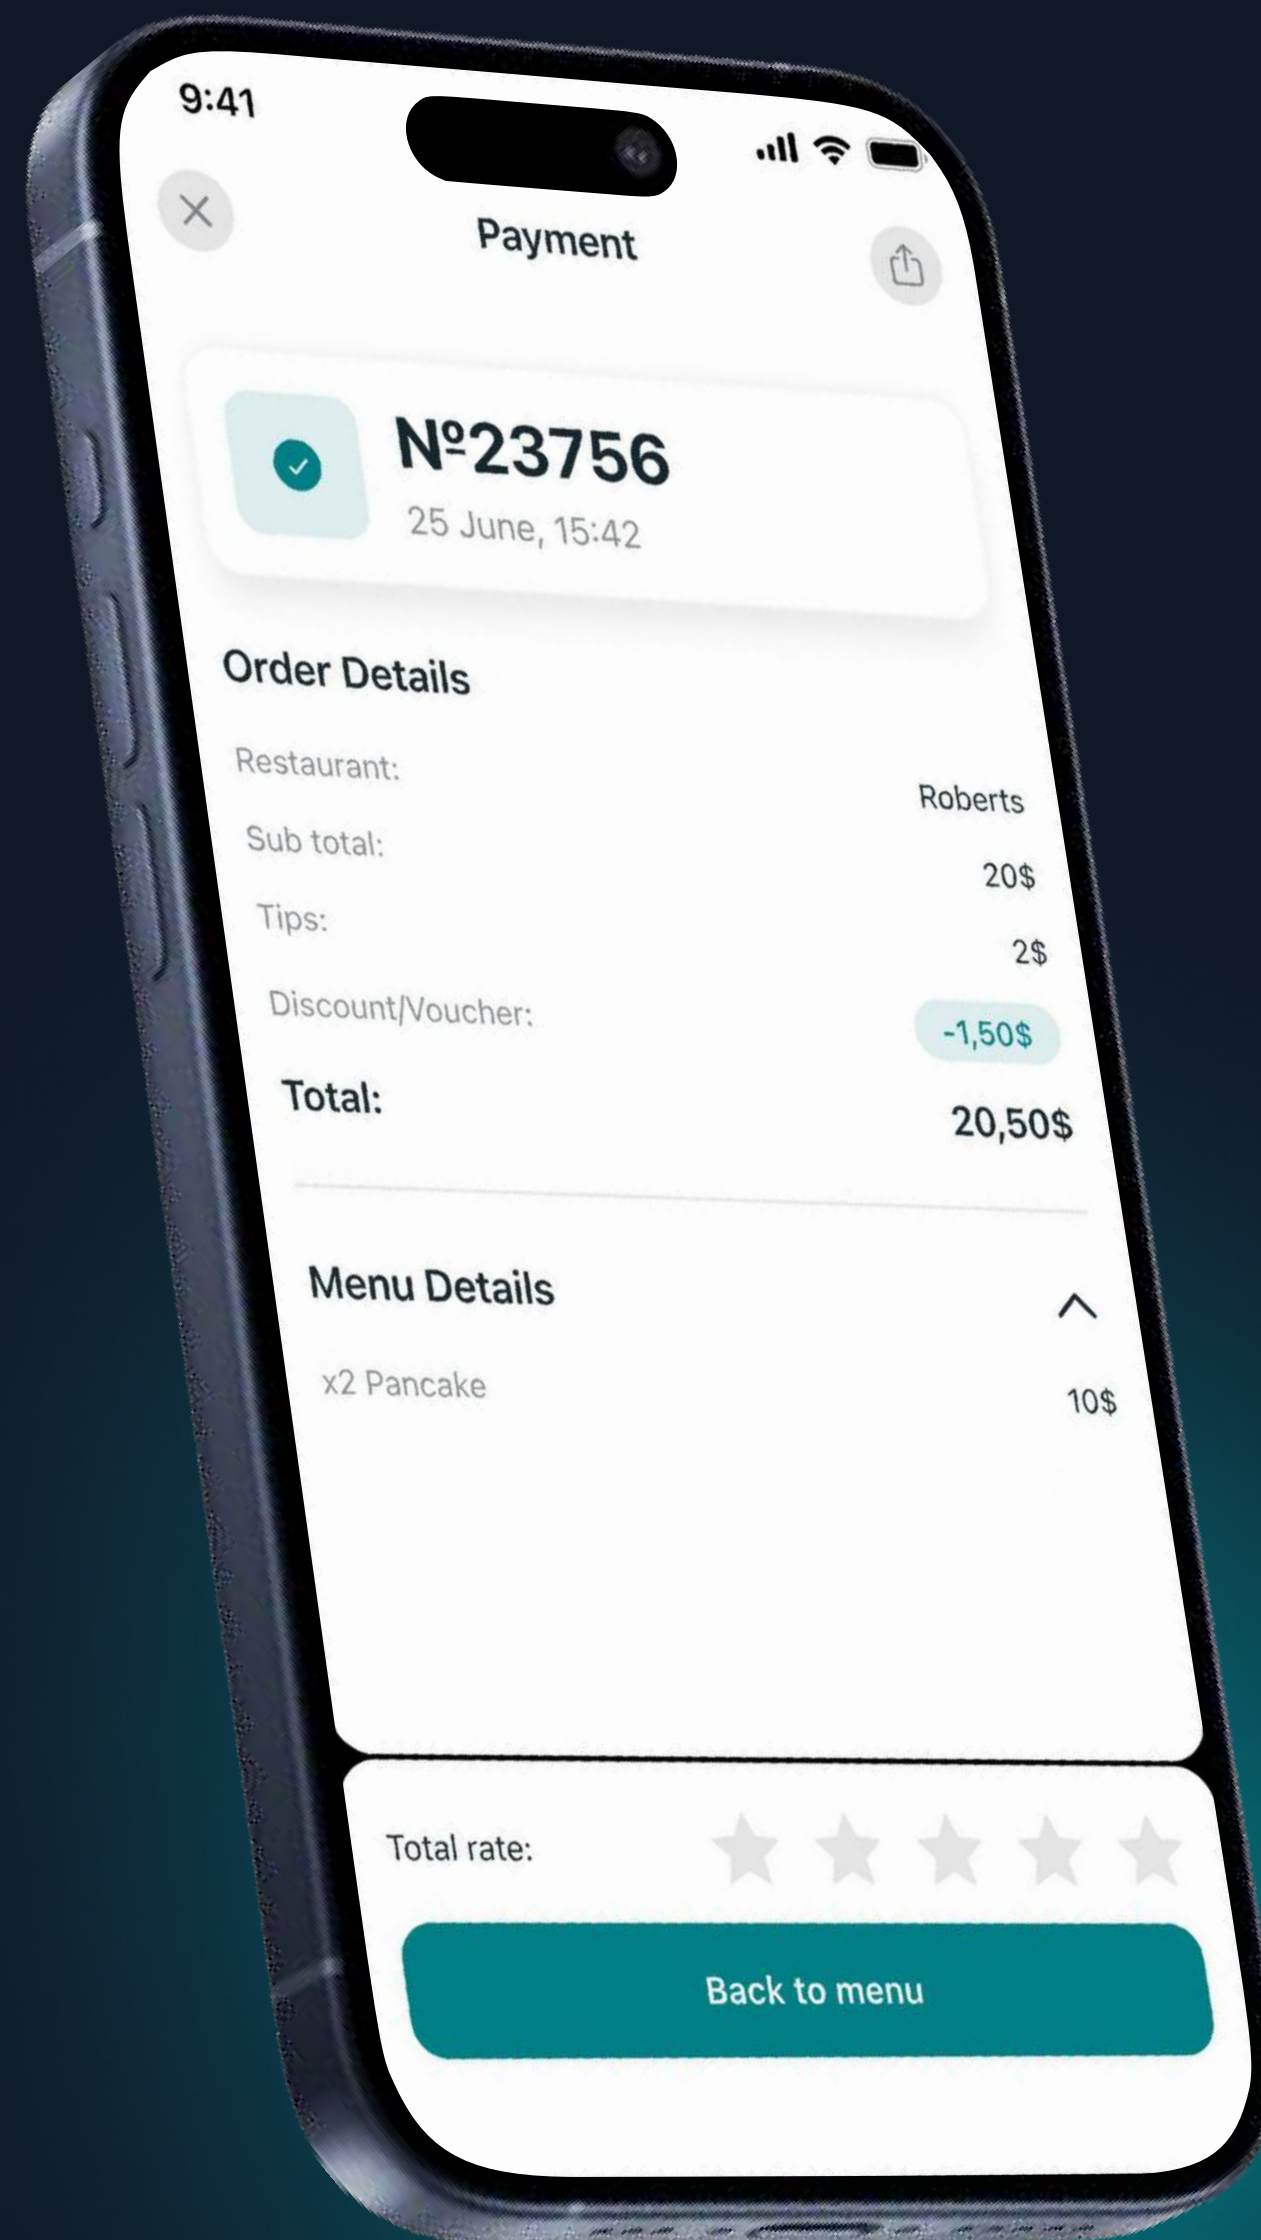

Integration with payment systems for instant order payment is an important process for any online businesses. It allows guests to make secure and fast in-app payments.

Increase employee loyalty through tips, promotions and bonuses

04

87% Our users leave an e- tips

ORDER ACCOUNTING SYSTEM (CRM)

NOSH's CRM system allows restaurants to efficiently track and manage all incoming orders in real time, ensuring accuracy and on-time fulfillment.

We help optimize staff performance, reducing the likelihood of errors and improving the overall level of guest service.

01

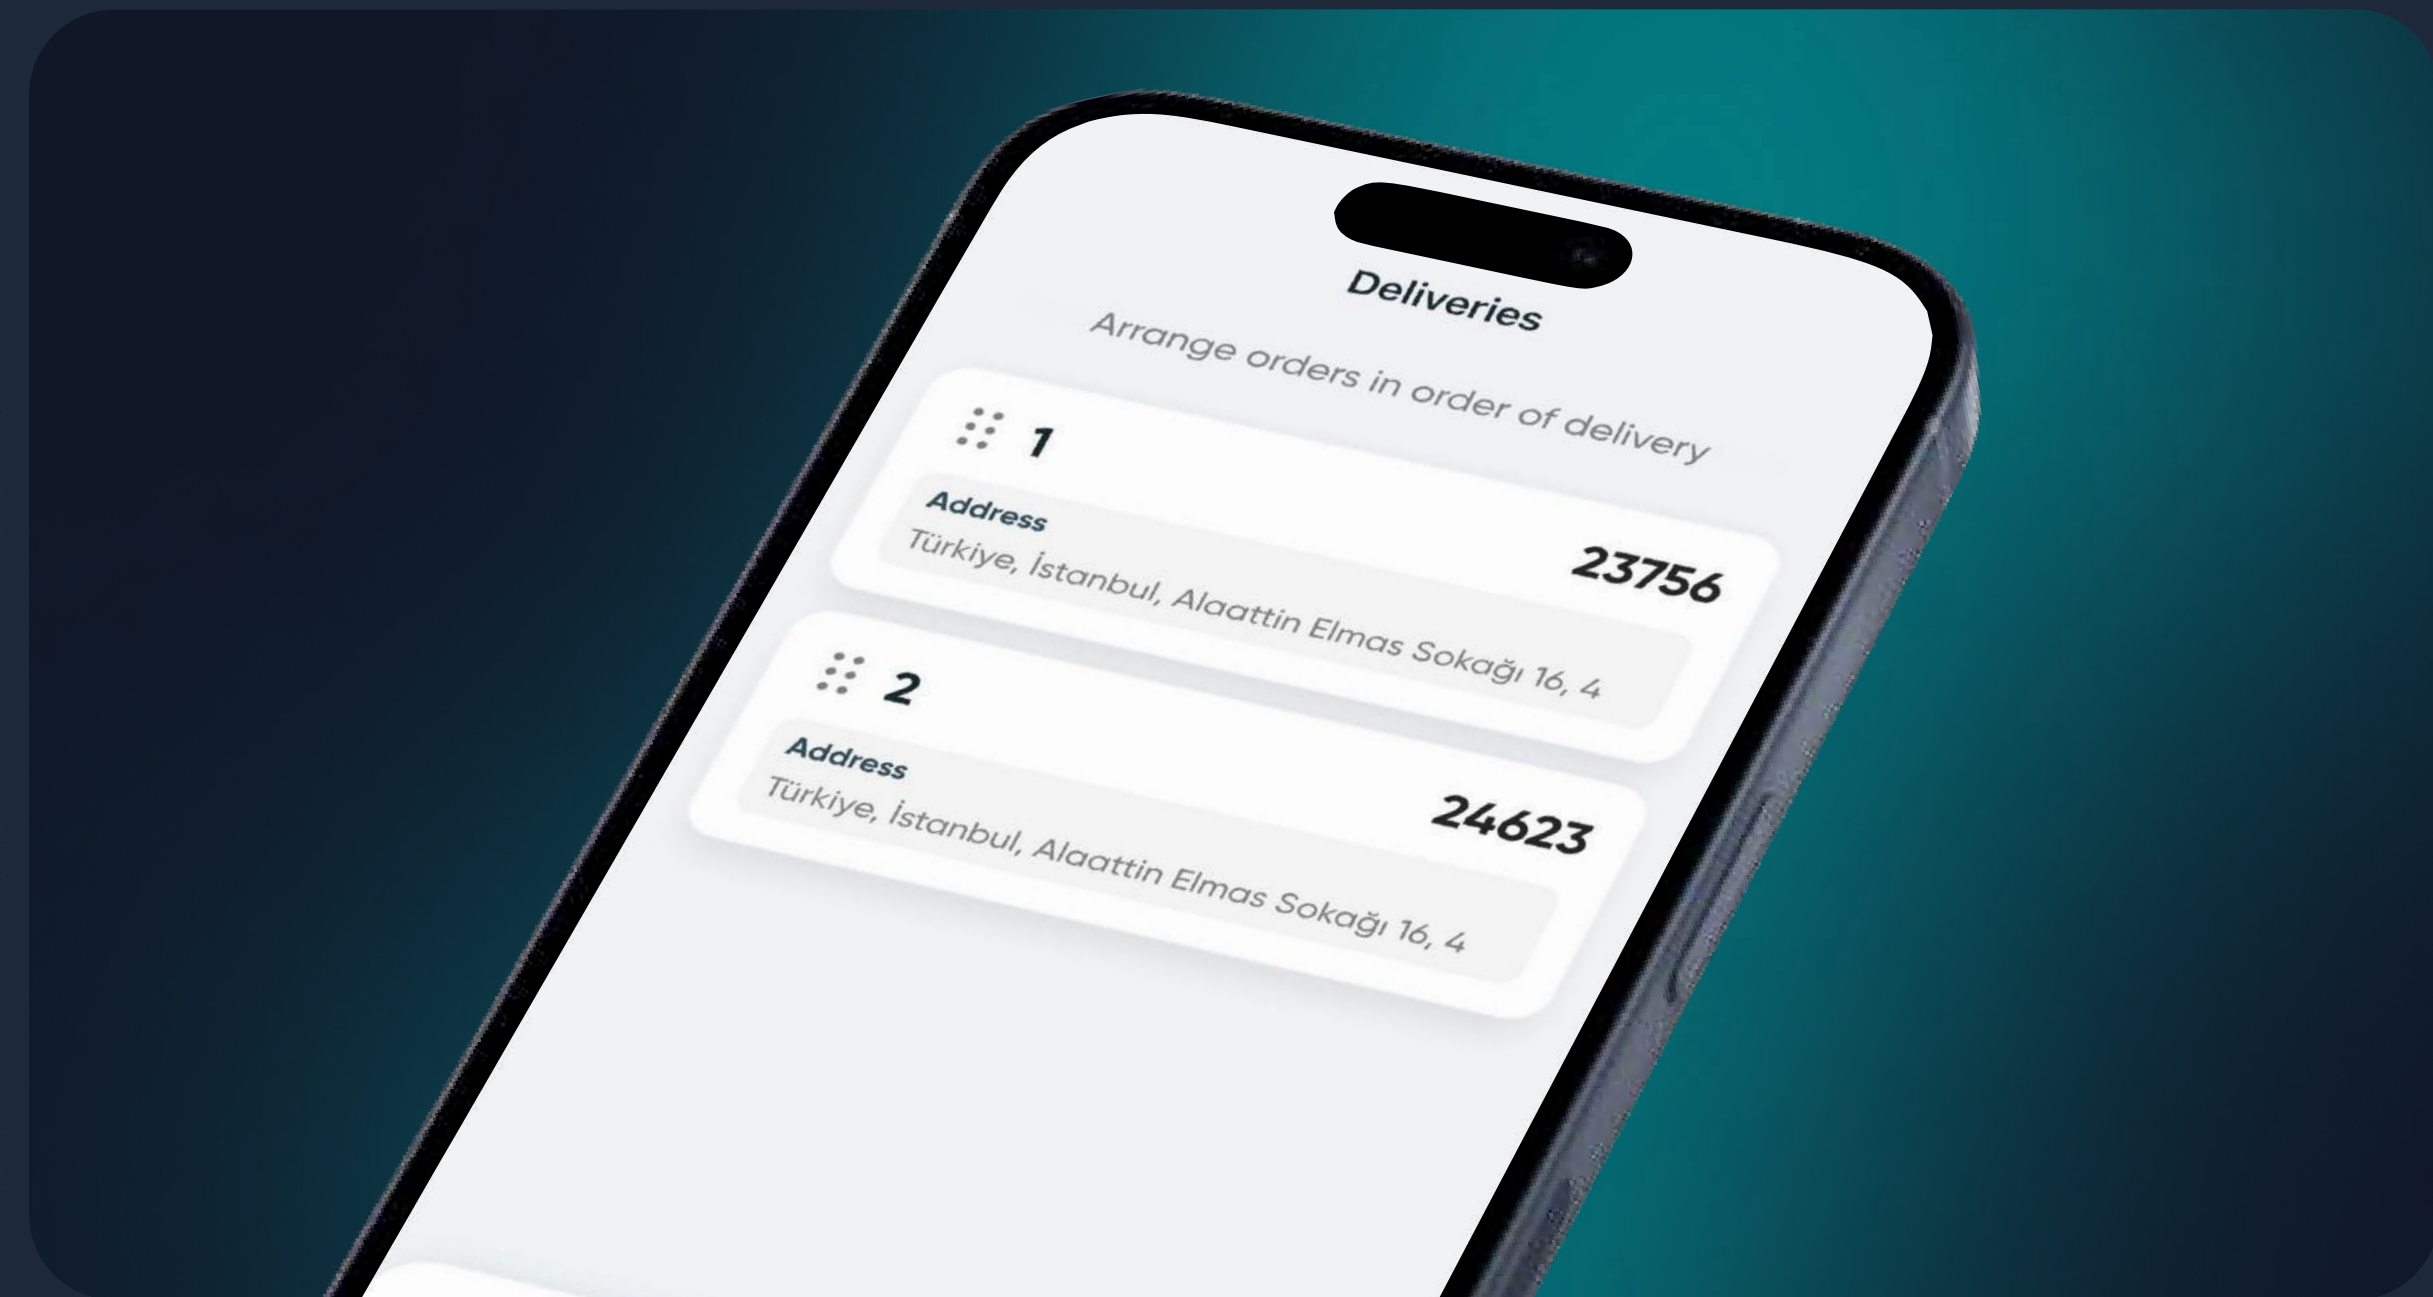

DELIVERY

With your own staff of couriers, you can easily accept delivery orders, without commissions and hidden fees.

This allows you to control the quality of delivery and optimize costs, providing the best service for your guests.

0% Delivery fees

02

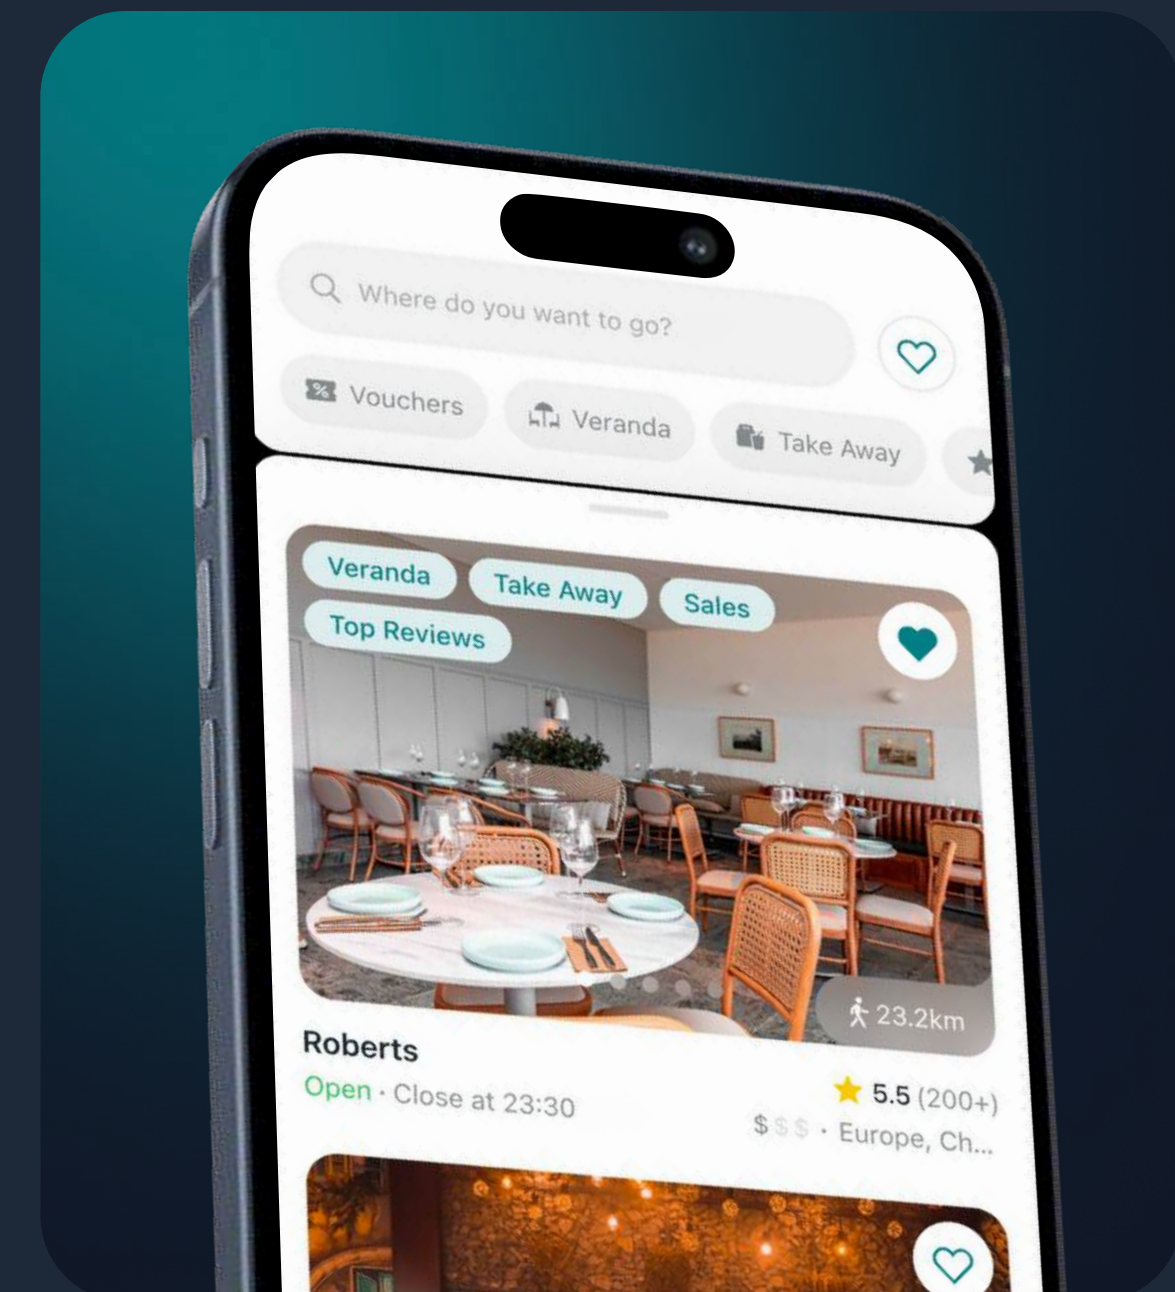

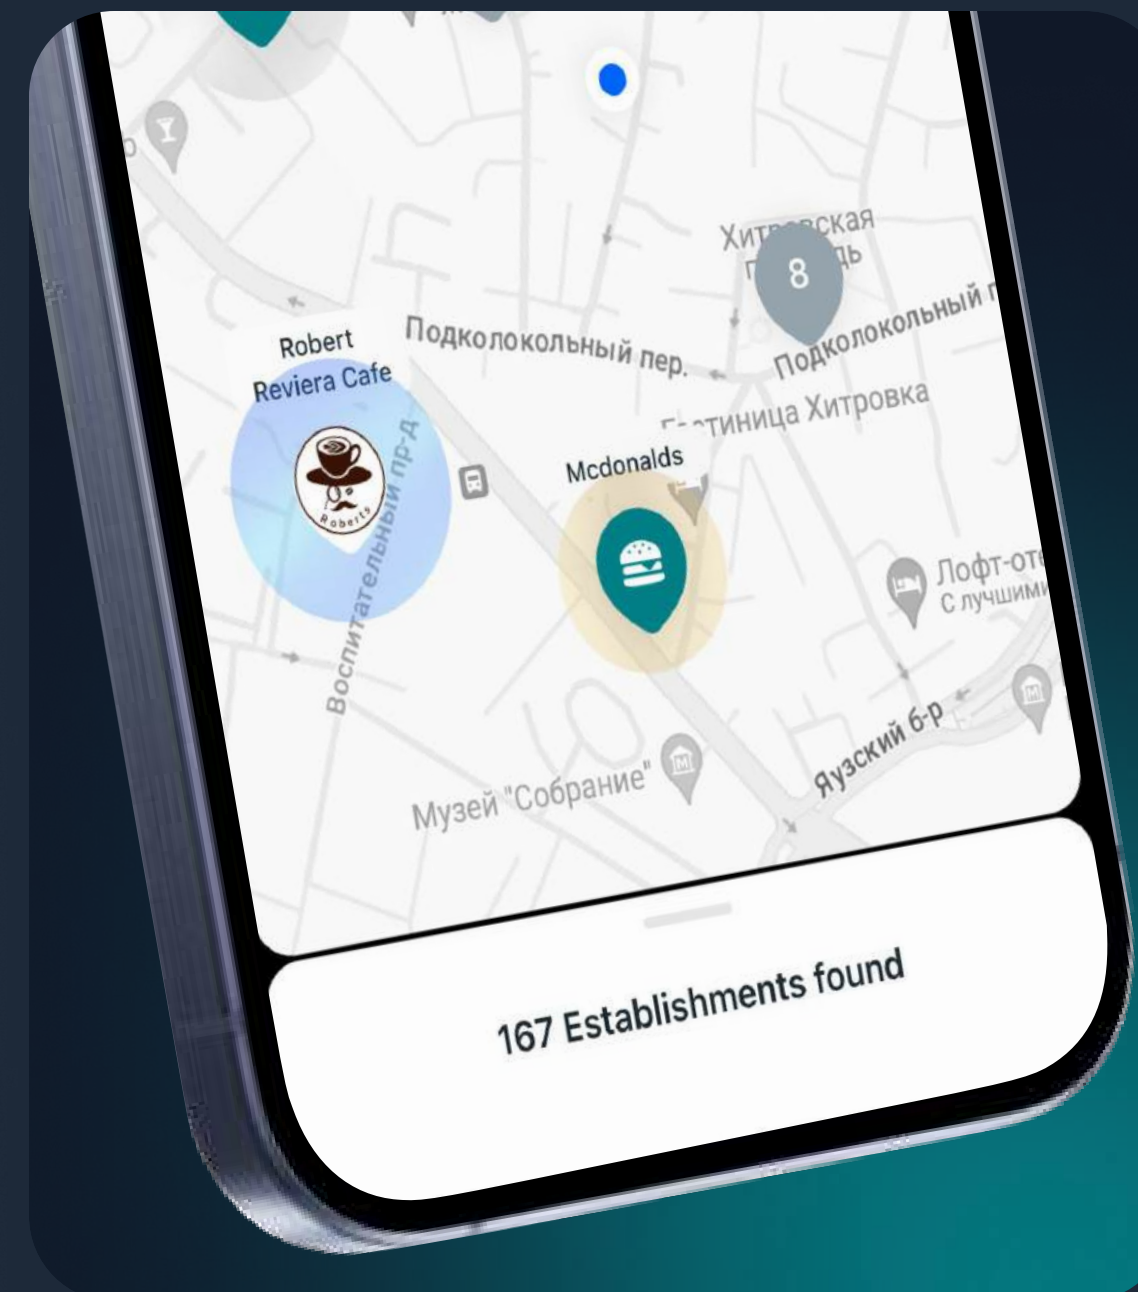

CUSTOMIZATION ON THE APPLICATION MAP

Customizing your restaurant profile on our app's map allows you to stand out from the competition and attract more guests.

- Unique marker on the map
- Brand colors on the restaurant's page
- Banners and covers
- Logos

03

GEOMARKETING

A new level of working with the desires of your guests.

We will prompt them to bring their coffee with them when passing by your coffee shop or to have a snack at your place during a long shopping trip in the mall. We will recommend a favorite dish of his friends or a new reading of familiar recipes.

04

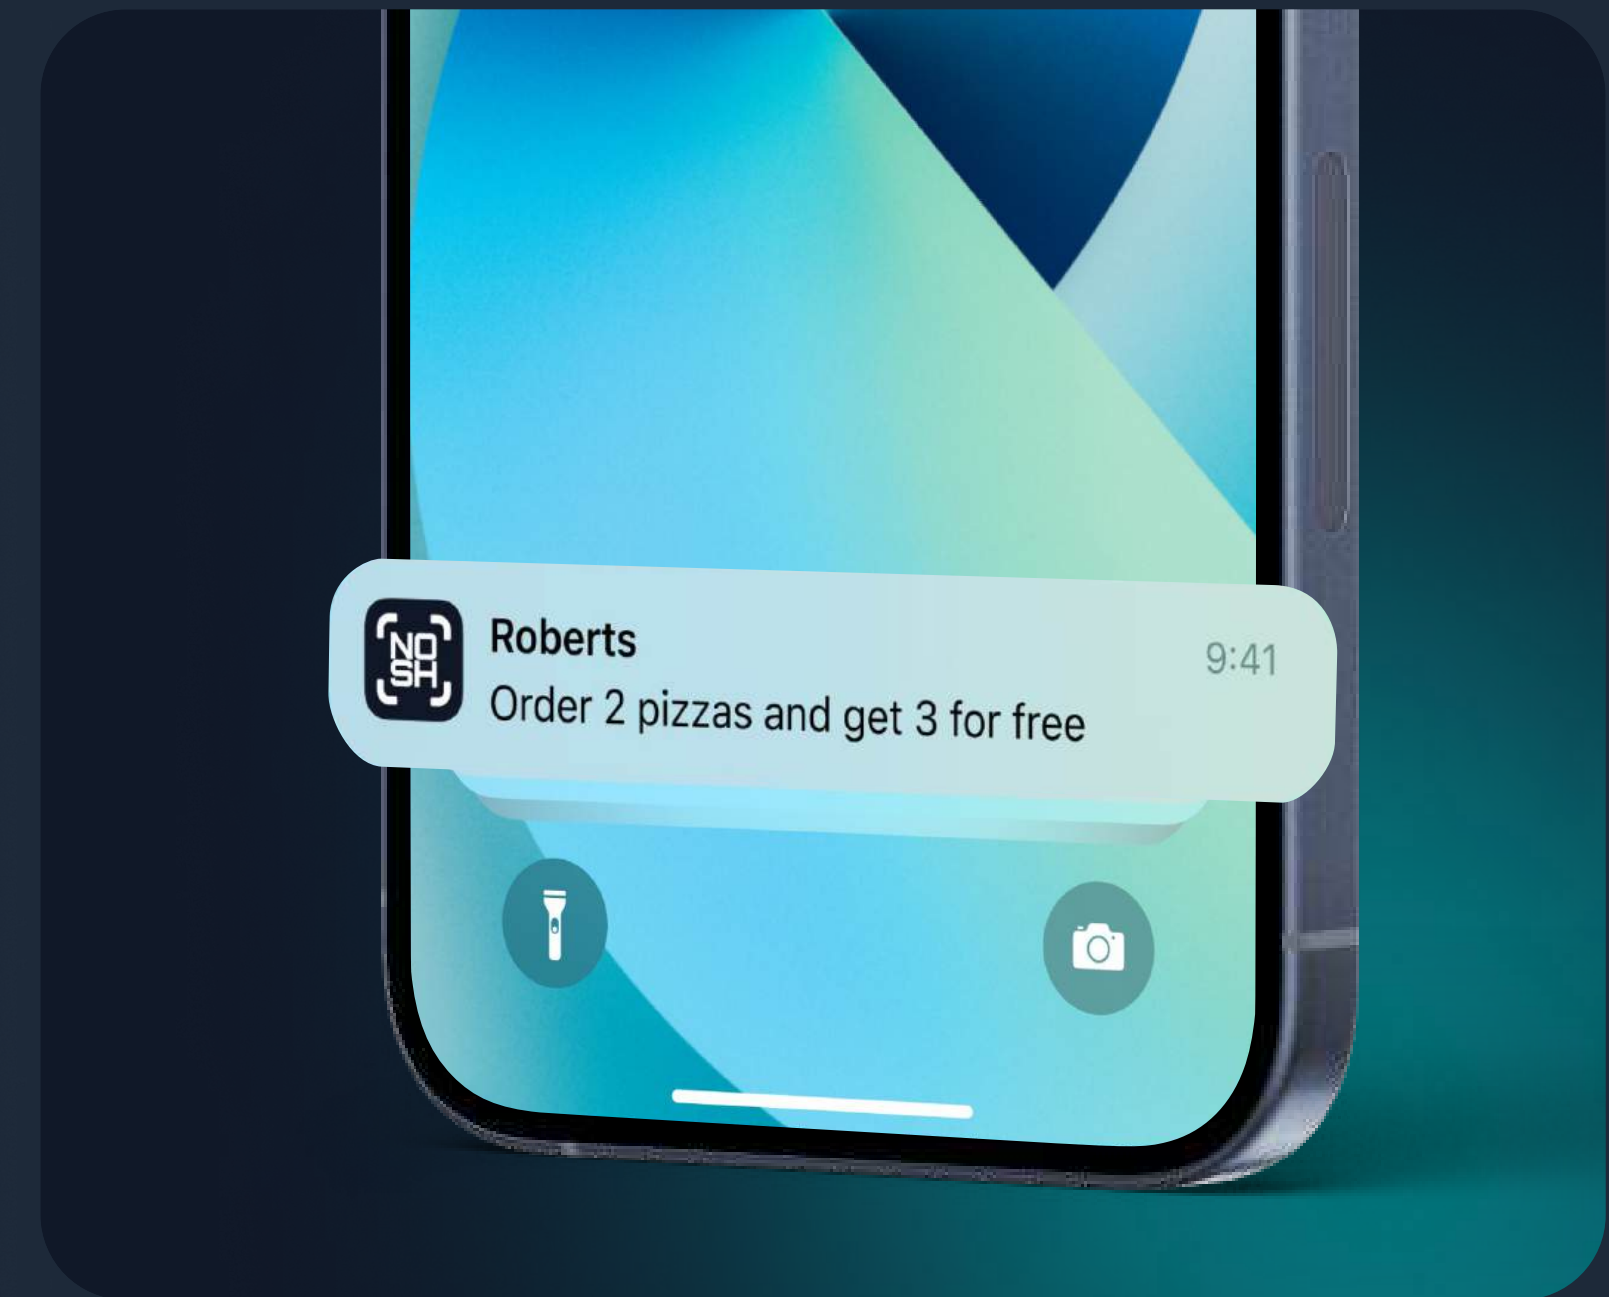

TARGETING

Looking for users on Instagram or Facebook? It's a needle in a haystack.

On our platform, we only target restaurants. Smart targeting will take your advertising to a whole new level.

05

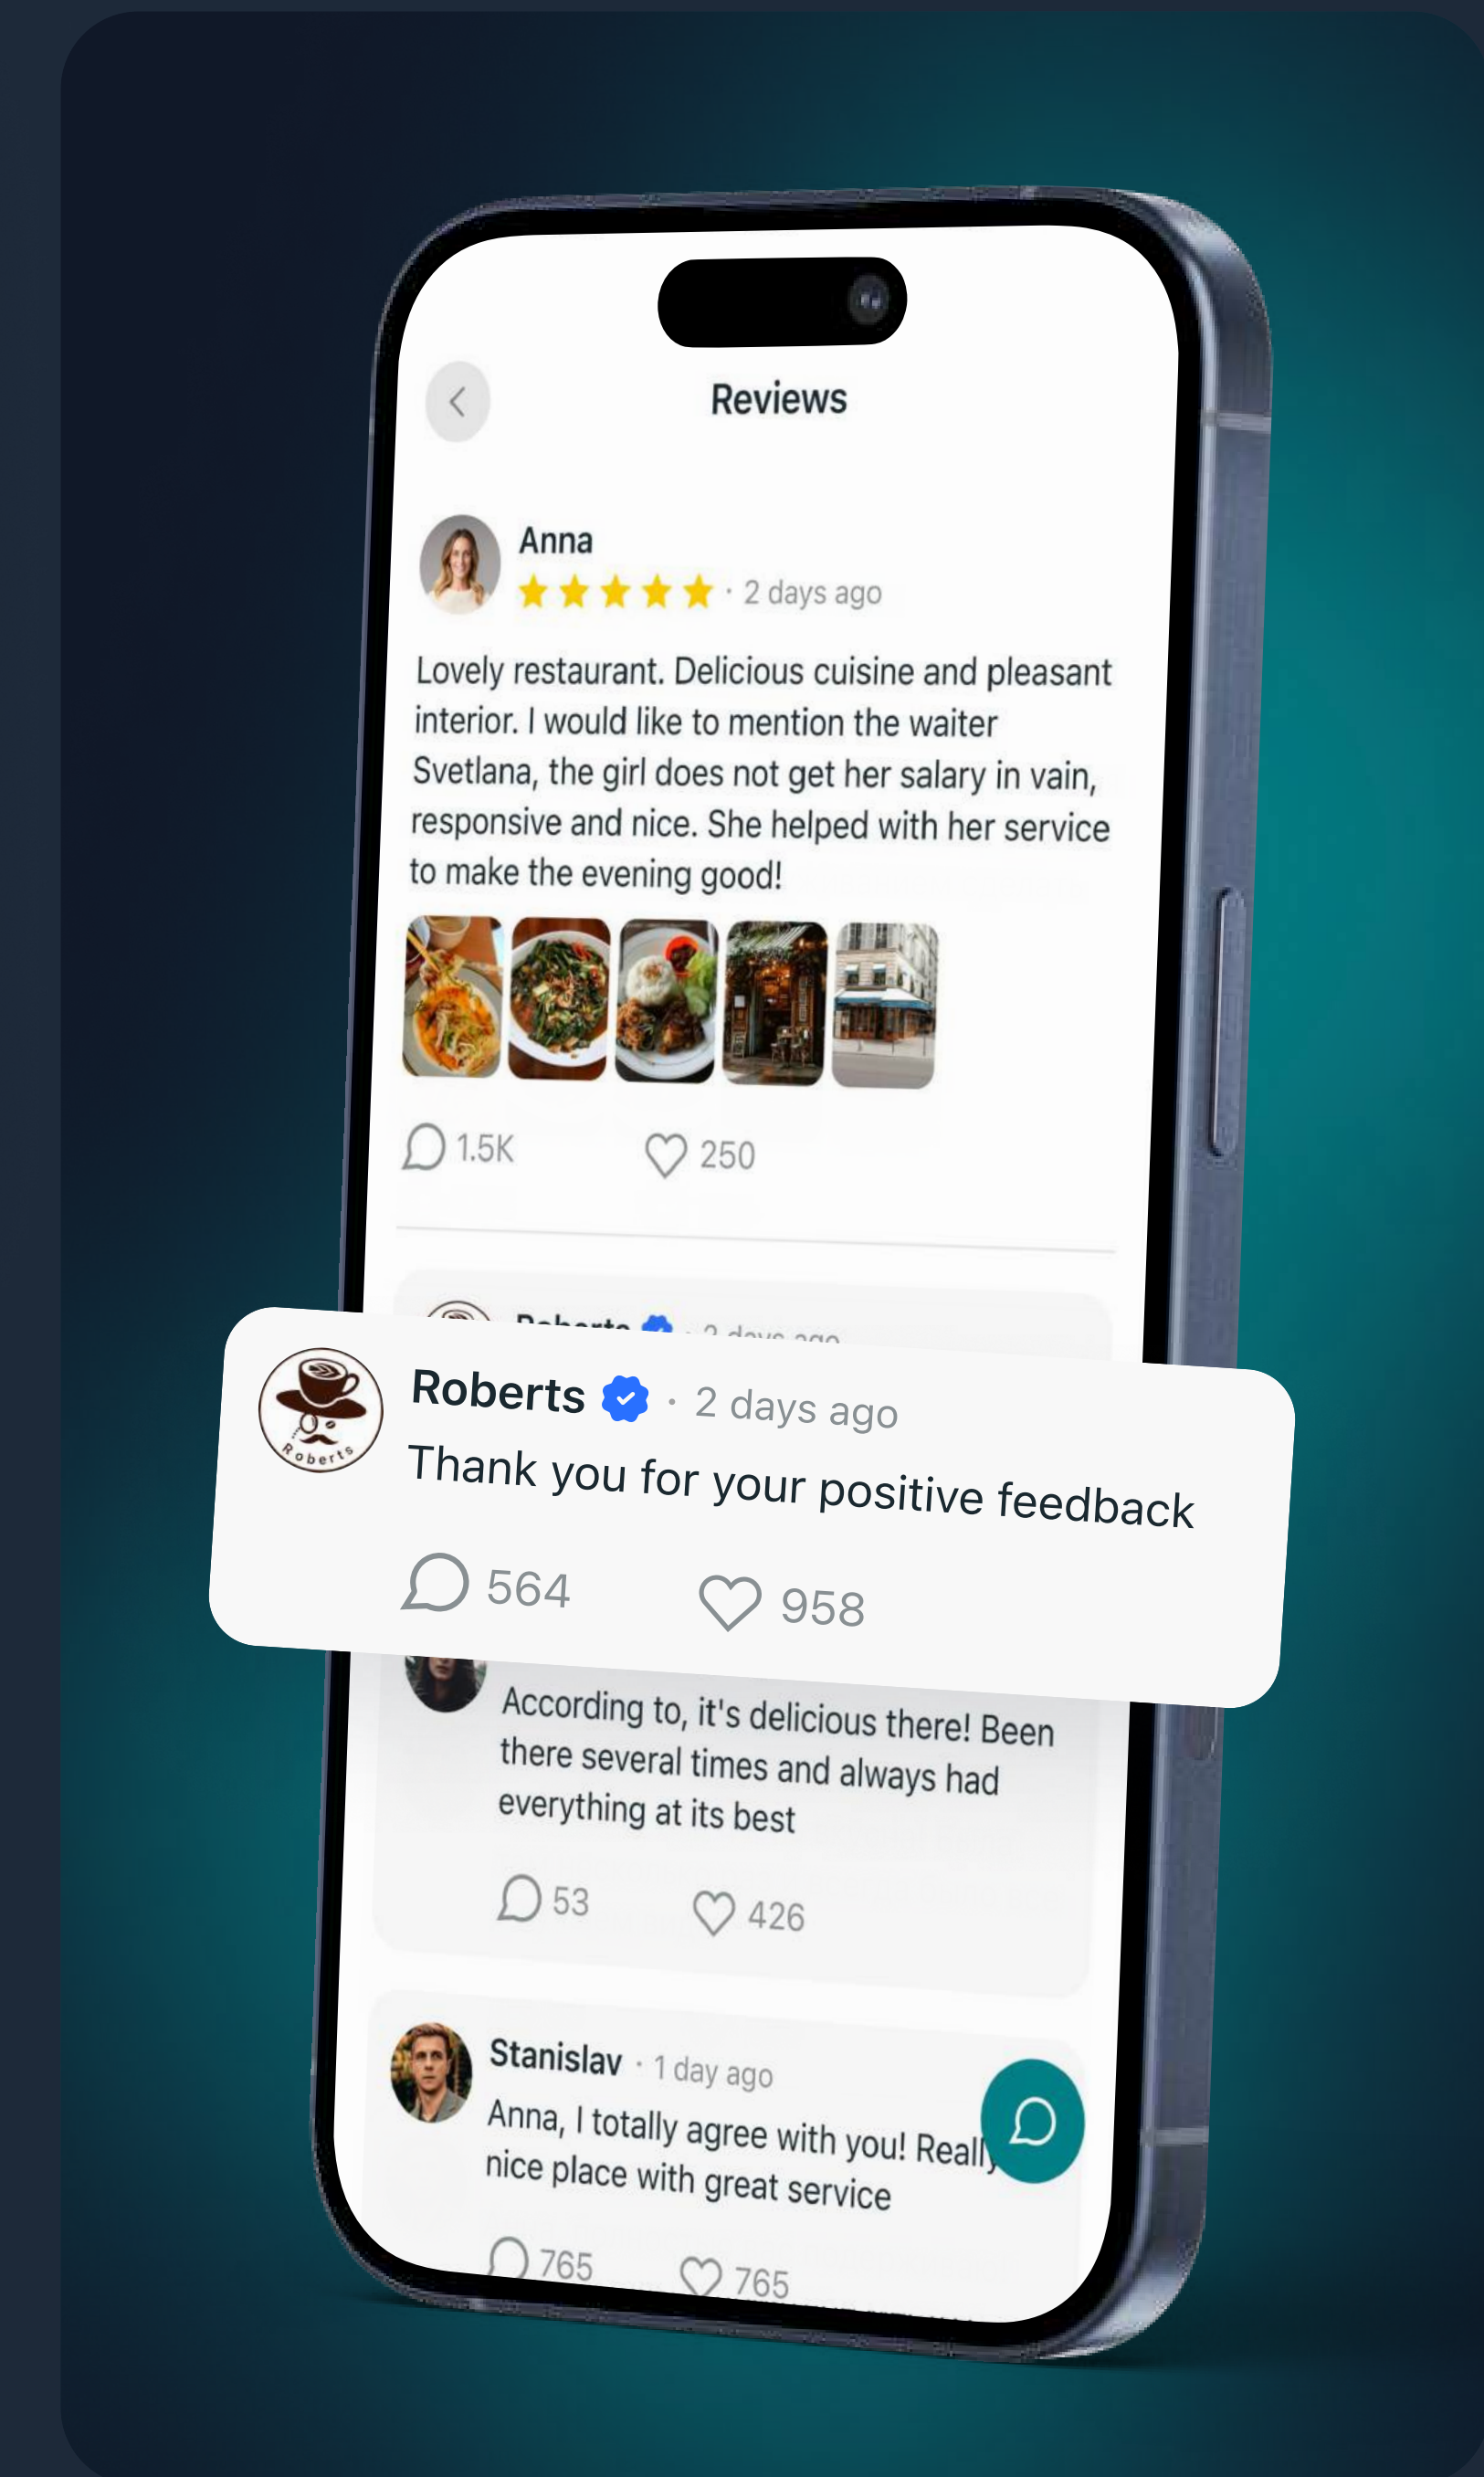

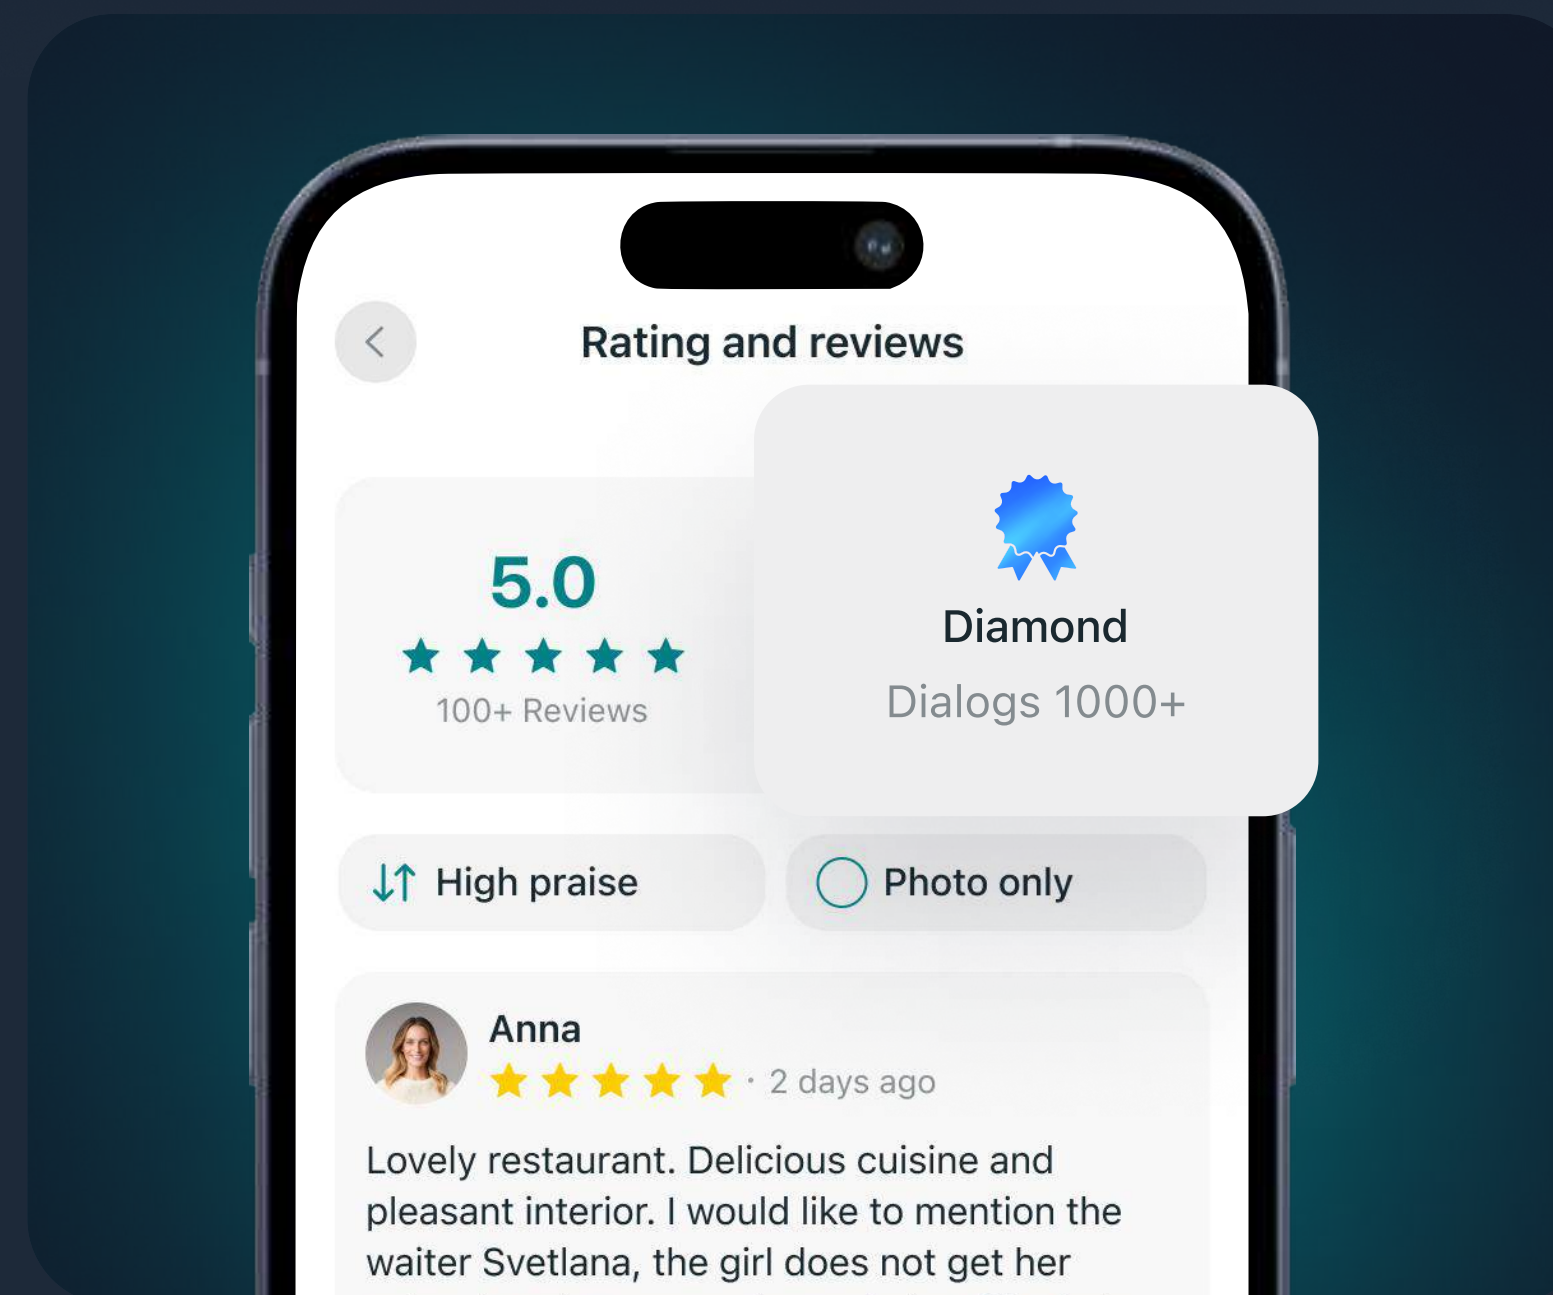

VERIFICATION OF THE RESTAURANT

Only verified restaurants can officially respond to reviews and questions on behalf of the establishment. This is your chance to actively participate in discussions, respond quickly to comments and stand out from the competition.

Turn every guest into a loyal customer!

JOIN NOSH RIGHT NOW

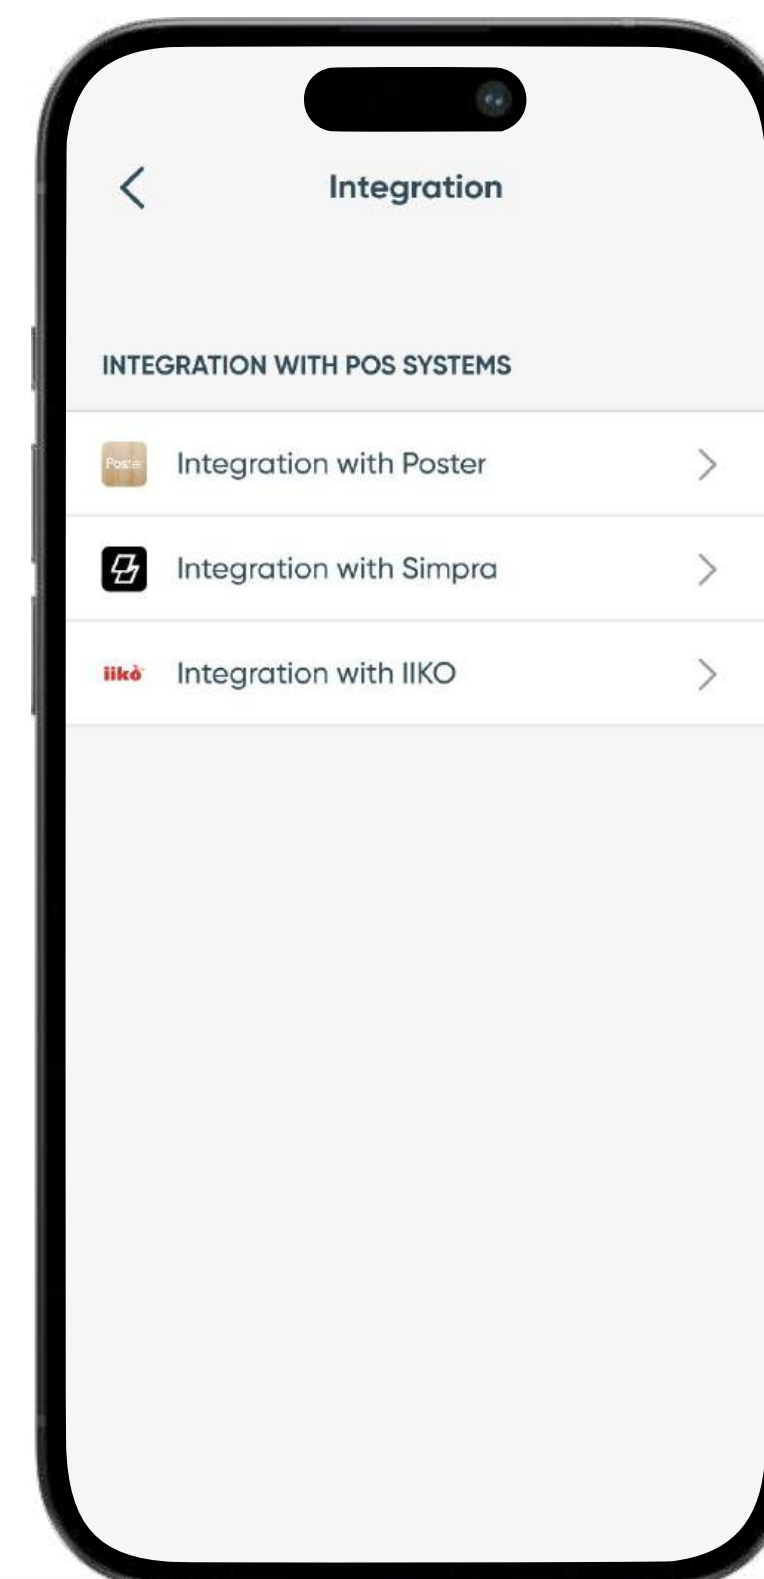

The registration screen for NOSH. At the top, the NOSH logo is on the left and 'EN' is on the right. Below the logo is the heading 'First time here?' followed by the text 'Fill out the fields and start getting tips faster, more often, more conveniently'. There are three tabs: 'Admin' (selected), 'Employee', and 'User'. Below the tabs are input fields for 'First name' (Ivan) and 'Last name' (Ivanov). Below these is an 'Email' field with the placeholder 'Enter your e-mail address'. Below the email field are three password fields: 'Password' (placeholder 'Make up a password'), 'Repeat password', and a field for 'Enter the password again'. At the bottom is a large teal 'Sign up' button. At the very bottom, there is a link that says 'Уже есть аккаунт? Войти'.

Registration

The 'Add employees' screen. At the top, there's a header with a profile picture, 'Hi Victoria', a dropdown arrow, a bell icon, and a gear icon. Below the header is a goal statement: 'Goal: I'm saving up for a car'. A large orange box displays 'In all that time' with a dropdown arrow, '1 000.00\$', and 'Available for withdrawal: 800.00\$'. Below this is a section for transactions. It shows 'April 14' and 'All in one day: 100\$'. There are two transaction entries, each with a TRIO logo, a masked card number, 'Transfer to IBAN', and a time of '4:25 pm'. The first entry shows '-50.00\$' and the second shows '-50.00\$'. Below these is a date separator 'January 15' and a transaction entry showing '+5.00\$' at '4:25 pm'. At the bottom, there are two buttons: 'Good service' and 'Delicious food'.

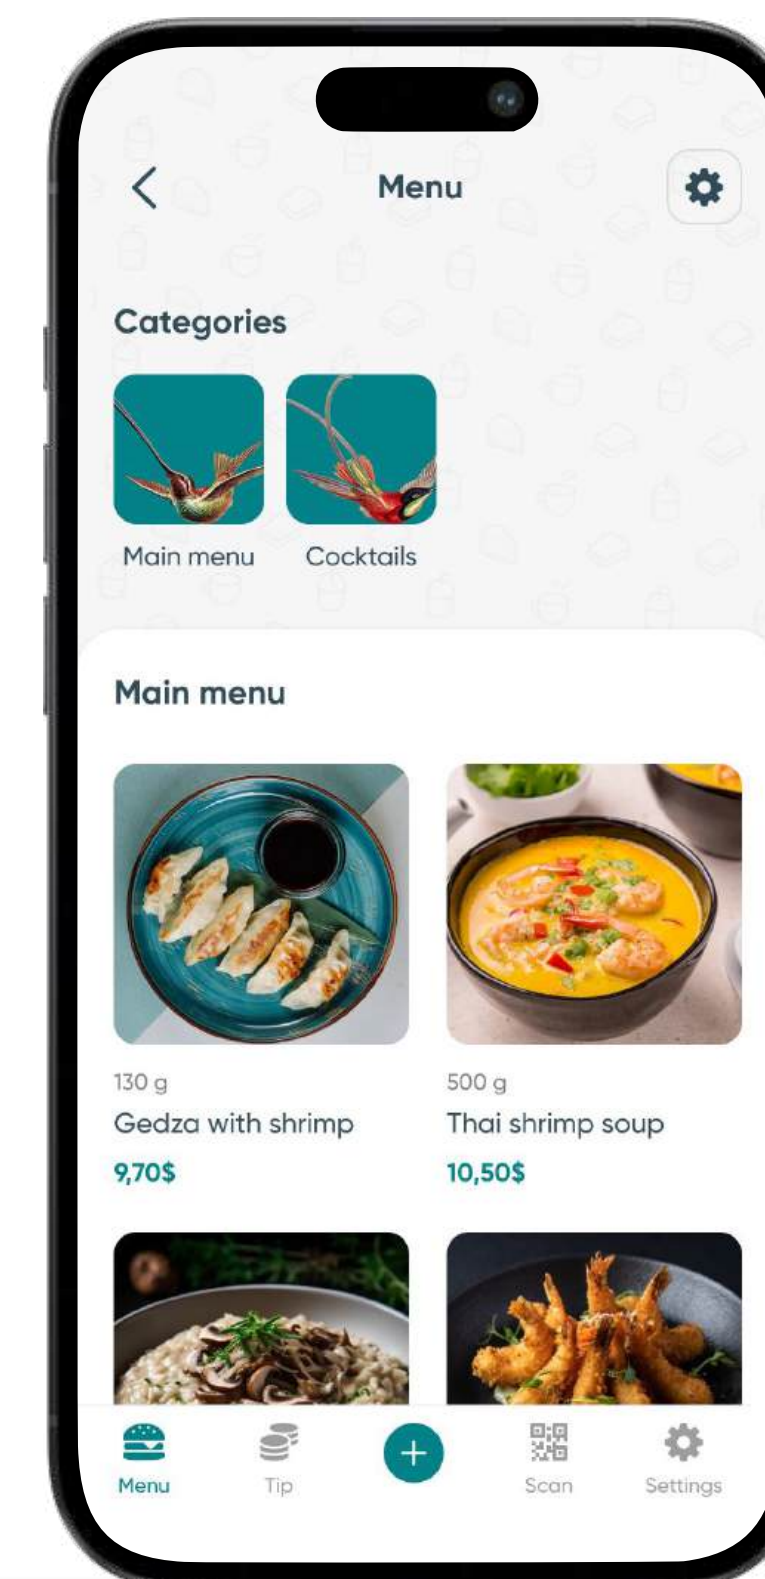

Add employees

The 'Integration' screen. At the top, there's a back arrow and the title 'Integration'. Below the title is a section 'INTEGRATION WITH POS SYSTEMS'. There are three integration options, each with a logo and a right arrow: 'Integration with Poster', 'Integration with Simpra', and 'Integration with Iiko'.

Rapid integration

Iiko/R-keeper/Simpra

The 'Menu' screen. At the top, there's a back arrow and the title 'Menu'. Below the title is a section 'Categories' with two icons: 'Main menu' and 'Cocktails'. Below this is a section 'Main menu' with four food items. Each item has a photo, a description, and a price. The items are: '130 g Gedza with shrimp' for '9,70\$', '500 g Thai shrimp soup' for '10,50\$', and two other items. At the bottom, there is a navigation bar with icons for 'Menu', 'Tip', a plus sign, 'Scan', and 'Settings'.
