## Michael Ginzburg—Guide and Lecturer

---

Since his first scientific project at the Alfred Wegener Institute for Polar and Marine Research at age 17, Michael focused his work on polar algae and sea ice. Field work became his passion and turned even into an addiction when he first stepped on Svalbard at the early age of 20. Michael instantly fell in love with sea ice and ever since (12 years by now) worked on the evolution and ecology of sea ice diatoms of the Arctic and Antarctic.

Michael has studied both marine and polar biology as well as participated in over a dozen scientific expeditions with durations of up to four months. Having traveled all 7 continents, it was only a matter of time before Michael began sharing his passion and love for nature in photography and articles. Today, Michael is leading expeditions and working as a photojournalist throughout the world. In 2016 Michael accepted a teaching position for photojournalism at the German POP Academy in Bremen.

# Ali Liddle — Assistant Expedition Leader

---

## English

Originally from the UK, Ali spent 15 years living in the Falkland Islands where she worked as a Primary school teacher both teaching out in 'camp' and at the school in Stanley. Latterly, she was employed as Education Officer for Falklands Conservation and shared her time between classroom teaching and conservation. In 1997, she spent 9 months living on South Georgia where she ran the Post Office and took every opportunity to hike, ski and explore the surrounding peaks and coastline.

She has published three books to date: *Plants of the Falkland Islands* and two art and craft books for children using penguins and albatross as the inspiration. Ali is a keen runner, having

completed three marathons in the Falkland Islands and two in the UK, and she also enjoys cycling, hiking and camping. Ali has been working on Antarctic and Arctic expedition cruises with Oceanwide for more years than she cares to remember and works on all of the Oceanwide vessels at some point during the year. She has recently relocated from Northumberland to the Isle of Skye where she is renovating a cottage and enjoying the hiking opportunities of the island.

Her particular interest is natural history and the wildlife, and she enjoys sharing her knowledge of and passion for the polar regions.

## Deutsch

Ali kommt ursprünglich aus Großbritannien und hat 15 Jahre lang auf den Falklandinseln gelebt. Dort arbeitete sie als Grundschullehrerin im sogenannten "Camp" wie auch in der Schule von Stanley. Später war sie zuständig für den Bereich Bildung des Umweltamtes und teilte ihre Zeit zwischen Klassenzimmer und Naturschutz. 1997 verbrachte sie neun Monate in Südgeorgien, wo sie das Postamt betrieb. Gleichzeitig nutzte sie jede Gelegenheit, um zu wandern, Ski zu laufen und die umliegenden Gipfel und Küstenlinien zu erkunden. Sie hat drei Bücher veröffentlicht: *Pflanzen der Falklandinseln* und zwei Kunst- und Handwerksbücher für Kinder, die von Pinguinen und Albatrossen inspiriert sind. Sie ist eine leidenschaftliche Läuferin und hat bereits drei Marathons auf den Falklandinseln und zwei in Großbritannien absolviert. Außerdem fährt sie gerne Rad und liebt das Wandern und Zelten.

Ali arbeitet bereits seit vielen Jahren auf allen Schiffen der Oceanwide-Flotte, sowohl in der Antarktis wie auch der Arktis. Sie ist vor kurzem von Northumberland in England auf die Isle of Skye in Schottland gezogen, wo sie zur Zeit eine alte Kate renoviert. In ihrer Freizeit genießt sie die unglaublichen Wandermöglichkeiten der Insel.

Ihr besonderes Interesse gilt der Natur und der Tierwelt: dieses Wissen und ihre Leidenschaft für die Polarregionen teilt sie gerne mit Euch.

# Lynn Woodworth — Expedition Guide

## English

Lynn comes from the mountains and lakes of western Canada, where she first developed her love for remote wilderness and cold water. She started travelling at 17 and settled in Australia, where she completed two biology degrees, including a PhD in conservation genetics, examining minimum viable population size in wildlife. In 1996, she first went to Antarctica by accident. Travelling again after her time in academia, Lynn left her motorcycle in Argentina to sail to the Antarctic Peninsula. She was hooked on Antarctica and has been working in the polar regions ever since. She has been to the Ross Sea region, and knows the Antarctic Peninsula, the Falkland Islands and South Georgia better than some penguins. In the northern summer, she has taken ships to arctic Canada, Iceland, Greenland, Svalbard, Russia and the North Pole. Lynn stopped counting at somewhere over 135 voyages, 17 different vessels, and more than two years of her life spent in the Drake Passage. She has held most ship-based roles including lecturer (wildlife and natural history), guide, zodiac driver, Assistant Expedition Leader and Expedition Leader, and has also worked on shore as Operations Manager. She has co-authored two books on the Antarctic, *Antarctica The Complete Story* (published on three continents) and *The Blue Continent* (released in 17 languages at last count). Lynn still calls Australia home and has recently moved to Tasmania, as close to Antarctica as she can get and still be in Australia.

## Deutsch

Lynn ist Kanadierin. Die Bergen und Seen des westlichen Kanadas weckten ihre Vorliebe für entlegene Wildness und kaltes Wasser. Ihre persönliche Odyssee begann mit 17 Jahren: sie zog nach Australien und absolvierte ein Biologiestudium. Ihre Doktorarbeit in Genetik mit Anwendung im Artenschutz behandelte kleinstmögliche Bestandsgrößen. Ein glücklicher Zufall brachte Lynn 1996 das erste Mal in die Antarktis. Nach ihrer akademischen Auszeit war sie mit dem Motorrad in Argentinien unterwegs, dass sie kurzerhand stehenließ, um gen Süden zu segeln. Seitdem haben die Polarregionen sie voll im Griff. Sie kennt die Ross See, die antarktische Halbinsel, die Falklandinseln und Südgeorgien besser als einige Pinguine. Im Sommer der Nordhalbkugel begleitete sie Schiffe ins arktische Kanada, nach Island, Grönland, Svalbard, Russland und zum Nordpol. Lynn hörte mit dem Zählen bei mehr als 135 Reisen auf 17 verschiedenen Schiffen und mehr als insgesamt zwei Jahren in der Drake Passage auf. Sie arbeitete in etlichen auf einem Schiff vorkommenden Positionen: Lektorin für Natürliches und Tierisches, Guide, Zodiakfahrerin, (assistierende) Expeditionsleiterin, sowie Operationsmanagerin an Land. Sie ist Co-Autorin von zwei Büchern über die Antarktis: *Antarctica The Complete Story* (auf drei Kontinenten veröffentlicht) und *The Blue Continent* (bei der letzten Zählung in 17 Sprachen übersetzt). Lynn ist vor kurzem nach Tasmanien gezogen, näher zur Antarktis war nicht möglich.

## Tom van Hoof - Expedition Guide

Tom fell in love with the Arctic when he was attending a climatology masterclass as student at the University Centre of Svalbard in 2001. During his PhD research at Utrecht University he organised and carried out several lake coring expeditions in the USA and Scandinavia. During his PhD Tom published a number of key scientific publications on the role of CO<sub>2</sub> on climate change during the past millennium. After living a year in the desert of Tucson, Arizona (USA), where he was working as a Postdoctoral research fellow at the University of Arizona, Tom returned to the Arctic when he started working for the Dutch Geological Survey in 2005. As a biostratigrapher (fossil-lover) he returned to Spitsbergen for a number of expeditions, collecting rocks and guiding fellow geologists. One of these expeditions was on board the Ortelius (SEES.NL) where he got into contact with Oceanwide Expeditions. Tom's academic background in geology/palaeoclimatology is a broad one, ranging from climate change during the past 1000 yrs to ecology of coal forming swamp ecosystems 300 million years ago. He loves to be outside especially in the Arctic wilderness. Since 2018 Tom left the Dutch Geological Survey and started his own geological consultancy business. To be able to spend some time in the Arctic, and share his passion for wilderness, he started to work as a guide.

## Laurence Dyke – Expedition Guide

Laurence is a scientist with a background in geography and glaciology. He first visited the Arctic in 2010 whilst undertaking research for his PhD in palaeoglaciology and was immediately entranced by the wild and beautiful landscapes of the high latitudes. His subsequent research has taken him on numerous expeditions to remote areas of Greenland in a quest to understand how and why huge glacier systems have changed in the past.

Laurence is also a passionate advocate for polar science and has produced a number of videos and articles about research from Greenland and the wider Arctic. Laurence lectures in glaciology and geography.

# Adam Turner, FRGS — Expedition Guide

## English

Adam was brought up in countryside of Essex, England. He began sailing at the age of 9 and began working on the local river aged 12 before leaving school. By 16 he had a small fishing boat and was working on boatyards and taking tourists to see the local seal colonies as well as helping out on the local Lifeboat. Adam then joined HM Forces and was posted to Northern Ireland and in the UK, he also served in Kenya as a boat operator. In 2002 Adam joined the Police and spent several years on a specialist unit working across the UK with his search dog Charley. Since being a young lad Adam had dreamt of working in the Antarctic like his Uncle had done in the late 1980's, in 2014 Adam left the Police and worked as

Boating Officer for British Antarctic Survey at King Edward Point, South Georgia where he spent just over a year. Adam studied at Middlesex University and gives lectures on history, in 2017 he was elected as a Fellow of the Royal Geographical Society, he now works as guide and Consultant.

Adam hold a commercial masters certificate and instructs in several marine disciplines, he enjoys diving, climbing, kayaking and outdoor activities.

## Deutsch

Adam ist in Essex, England aufgewachsen. Schon mit 9 Jahren begann er zu segeln und arbeitete mit 12 auf dem lokalen Fluss, bevor er die Schule verließ. Schon mit 16 war er Eigentümer eines kleinen Fischerbootes, arbeitete in kleinen Werften und nahm Touristen auf kleine Ausflüge zu den lokalen Seehundbanken mit. Er war außerdem auf dem örtlichen Rettungsboot beschäftigt. Seine Ausbildung erhielt er in der Armee und wurde in Nordirland, England sowie Kenia als Bootsführer stationiert. 2002 ging er zur Spezialeinheit der Polizei und arbeitete überall in England mit seinem Suchhund Charly und bildete Hunde aus. Seine Liebe zum Wasser hat Adam nie aufgegeben: Er unterrichtet verschiedene Techniken der Seefahrt und ist der Fahrer seines örtlichen Rettungsbootes. Seit seinen jungen Jahren hat er davon geträumt, eines Tages wie sein Onkel in der Antarktis zu arbeiten. Für diesen Traum verließ Adam im Jahr 2014 die Polizei, um als Bootsoffizier für ein Jahr für das British Antarctic Survey auf King Edward Point, Südgeorgien zu arbeiten. In England ist Adam als freiberuflicher Berater und Trainer beschäftigt. Mit seiner kleinen Familie genießt er es, in der Natur unterwegs zu sein. Adam ist sehr an Geschichte und Tieren interessiert.

## Alexander Romanovskiy, Russia

Alexander Romanovskiy comes from Saint-Petersburg, the Northern capital of Russia. He was born in 1981. After having graduated from the boarding school Alexander entered Saint-Petersburg State University, where he spend 5 years studying physical geography, ecology, regional geography and international tourism. Afterwards he was working on his PhD thesis in Herzen State Pedagogical University of Russia, doing geocological researches. In the year of 2011 however Alexander decided to pause his scientific career and start doing something completely different, which means working in tourism and traveling the world. He spent 2 seasons working as a trekking guide in Fann mountains (Tajikistan), 1 season on Novolazarevskaya Antarctic scientific station (Queen Maud Land, Antarctica) working as a member of a guesthouse crew. Since February of 2012 most part of the year he spends on Svalbard. For five seasons in a row Alexander has been living and working as a guide in a ghost town of Pyramiden. In 2016 a new page in Alexander's guiding career was opened: he started working as a naturalist guide on cruise ships in polar regions of the world – Svalbard and Antarctica.

3 to 4 months a year Alexander dedicates to his main passion – traveling the world. No public transport, no hotels, only hitch-hiking and staying overnight with locals or sleeping in a tent. This way he has already visited almost all Soviet republics, Middle East (Iran, Turkey), Asia (China), South America (Argentina, Chile, Paraguay), and it is hopefully far not the end! The world is big, friendly and interesting to explore!
