

## **DinoLand 4D+ Privacy Statement**

Thank you for downloading DinoLand 4D+. We at Octagon Studio do not collect any of your personal data. We only receive anonymous statistics about the usage of the app (such as the total number of users of the app, how long they interact with the AR experiences, and their average daily use time).

You can unlock AR experiences in the app by using your mobile device's camera to scan the special markers. You can also take pictures and videos using this app but sharing is limited to the built-in function which you can set on your own. We do not collect any photos/ videos taken using DinoLand 4D+ app.

The information about your DinoLand 4D+ is stored on your mobile device only. You can delete this information by deleting the app. However, because the AR experiences are downloaded when scanning the cards for the first time, you have to re-download any AR experience if you delete the app.
