Living, working, growing together

Established 40+ years

Provide meaningful activities

Residential/ Day service provider

Intentional community with roots in Anthroposophy- Rudolph Steiner

DIGITAL

PARTICIPATION

CHARTER 

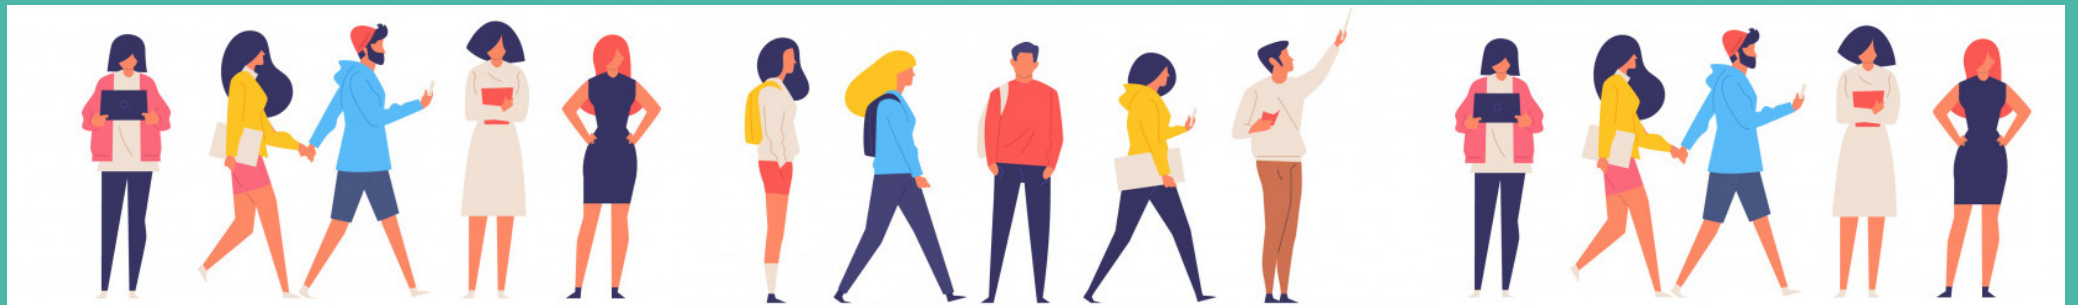

Opportunity to buy IT equipment

Found and furnished suitable room in community

Rarely used technology with residents- very limited access

Aim to offer ASDAN qualifications in computing- lack of interest

Focus on using digital methods alongside traditional crafts- graphic communication projects

Lack of confidence of staff in own digital skills and their ability to support residents to develop them

Keeping vulnerable adults safe particularly social media

Doing things differently v's what we have always done- focus on traditional activities

Some of our harder to reach residents have surprised us

Having regular groups sessions- able to practice, learn at own pace

Staff getting used to using digital/ providing activities in a different way

Making it fun-Using digital to complement/ alongside enjoyable activities

Continue to offer visualeyex workshop/ expand this

Connect with other organisations

Look at recruiting more 'digital champions
