# AIR CARE SIMPLIFIED

## The AirWorks® Complementary Air Care System

No client should ever smell anything unpleasant anywhere in any facility. Cleanliness of the restroom is one of the most important factors in the overall patron perception of an establishment. A poorly maintained restroom can turn clientele away from an establishment permanently.

Every commercial enterprise should incorporate some form of ambient scenting as part of its marketing strategy to increase traffic and customer satisfaction. The AirWorks® Complementary Air Care System is created with products that have corresponding fragrances of varying intensities, creating a uniform scent throughout the space.

89% of respondents would consider a public restroom dirty based on **odor alone**.\*

\*Based on a 2013 study conducted by Cintas.

# Choosing Solutions For A Complementary Air Care System

Competing scents in a restroom can be unpleasant. HOSPECO has developed a refreshing new concept in air care, the Complementary Air Care System. By choosing one fragrance for your entire restroom, you achieve a uniform scent that eliminates malodors.

Solutions included in the complementary system are denoted with this symbol in the air care products section.

## Step 1 | Location

There are key areas of any facility that can benefit from ambient scenting. Identify where it is going to be used and the proper intensity for the space. Decide if the air care system is for a small, medium or large space and locate the coordinating fragrance intensity.

## Step 2 | Fragrance

Identify the desired fragrance. Several fragrances are offered in each intensity. Choose the one desired most for the space.

## Step 3 | Solutions

Choose the air care solutions that meet your needs in matching fragrances to build additional fragrance throughout your desired space. **The recommended optimal system:** AirWorks® 3.0 for the wall, AirWorks® SPLASH FREE™ Urinal Screen and the AirWorks® Bowl Clip for the toilet. To further increase intensity of fragrance, add an AirWorks® Hang Tag.

**Metazene® odor neutralizer** doesn't merely mask odors with scent, it destroys the particles that cause vaporous malodors at their molecular level. Available in AirWorks® 3.0 Refills and AirWorks® Metered Aerosols.

Nilodor's exclusive Single Scent Solution ensures a coordinated fragrance for all steps of cleaning and odor control.

## Single Scent Solution

Co-mingling multiple scents may lead to a more offensive odor than the one you're trying to eliminate. Additionally, it can lead to people wondering what malodor you are trying to hide.

Single Scent Solutions are extensive. These products address all four stages of restroom odor control and cleaning.

Single Scent Solutions are denoted with this symbol in the odor control section.

## Water Soluble Deodorizers

Cleaning and deodorizing time can be greatly reduced by adding our water soluble deodorizers to cleaners or plain mop water. This allows the user to clean and deodorize the total surface area in one easy step.

## Nilium® Water Soluble Neutralizer Concentrate

- Neutralizes malodors instead of simply masking them
- Dilutes 1 oz. per gallon of water, or cleaning solution
- Multi-Purpose deodorizer
- One application of Nilium® will counteract odors up to 24 hours
- Compatible with cleaners, disinfectants, bleach, and quats

## Urine Removers

One daily application of Urine Digester on grout, subflooring, walls, and other surfaces, during daily maintenance, is all it takes to eliminate the source of the odor. Urine Digester will penetrate deep into the grout and sub floor where a bulk of the urine is located.

## Urine Digester with Odor Neutralizer

- Contains natural enzyme-producing bacteria that breaks down and digests urine, feces, vomit, and other organic odor-causing sources.
- Multi-Purpose for hard surface and carpeting
- Works around the clock
- R.T.U. or dilutable
