

SAFETY DATA SHEET

SECTION 1: Identification Product identifier	on of the substance/mixture and of the company/undertaking	
Product name	: Black Toner for TASKalfa 3010i, 3011i	
Consumable name	: TK-7107	
Relevant identified uses of	f the substance or mixture and uses advised against	
Identified uses	: The image formation of our electrophotographic equipments.	
	Other uses are not recommended.	
Details of the supplier of the safety data sheet		
Manufacturer	: KYOCERA Document Solutions Inc.	
Address	: 1-2-28 Tamatsukuri, Chuo-ku, Osaka 540-8585, Japan	
Supplier	: KYOCERA Document Solutions America, Inc.	
Address	: 225 Sand Road, P.O. Box 40008, Fairfield, New Jersey 07004-0008, U.S.A.	
Telephone number	: +1(973)808-8444	

Emergency telephone number

: For safety questions, please contact each sale site during office hours.

SECTION 2: Hazards identification

Classification of the substance or mixture

Classification according to OSHA HCS (29 CFR 1910.1200)

: Not classified as hazardous mixture.

Label elements

Labelling according to OSHA HCS (29 CFR 1910.1200)

: Not applicable.

Other hazards

Hazards not otherwise classified (HNOC) See section 4 and 11 for information on health effects and symptoms. See section 9 for dust explosion information.

SECTION 3: Composition/information on ingredients

Substance or Mixture: : Mixture Chemical name Identifier Weight% CAS No. Styrene acrylate copolymer (2 kinds) Confidential 50-60 Magnetite Confidential 40-50 Wax Confidential 1-5 Titanium dioxide 13463-67-7 < 1

SAFETY DATA SHEET

Information of Ingredients

Substance which present a health hazard within the meaning of OSHA HCS : Titanium dioxide

See section 8 for the information of occupational exposure limits. See section 11 for the information of carcinogens.

SECTION 4: First aid	d measures	
Description of first aid	Imeasures	
Inhalation	: Remove from exposure to fresh air and gargle with plenty of water.	
	Consult a doctor in case of such symptoms as coughing.	
Skin Contact	: Wash with soap and water.	
Eye Contact	: Flush with water immediately and see a doctor if irritating.	
Ingestion	: Rinse out the mouth. Drink one or two glasses of water to dilute.	
	Seek medical treatment if necessary.	
Most important sympt	oms and effects, both acute and delayed	
Potential health effects	and symptoms	
Inhalation	: Prolonged inhalation of excessive dusts may cause lung damage.	
	Use of this product as intended does not result in prolonged inhalation of	
	excessive toner dusts.	
Skin contact	: Unlikely to cause skin irritation.	
Eye contact	: May cause transient eye irritation.	
Ingestion	: Use of this product as intended does not result in ingestion.	
Indication of any immediate medical attention and special treatment needed		
	: No additional information available.	

SECTION 5: Firefighting measures				
Extinguishing media	Extinguishing media			
Suitable extinguishing media	: Water spray, foam, powder, CO ₂ or dry chemical.			
Unsuitable extinguishing media	: None specified.			
Special hazards arising from the subst	Special hazards arising from the substance or mixture			
Hazardous combustion products	: Carbon dioxide. Carbon monoxide.			
Advice for firefighters				
Fire-fighting procedures	: Pay attention not to blow away dust.			
	Drain water off around and decrease the atmosphere temperature to extinguish the fire.			
Protective equipment for firefighters	: None specified.			

SAFETY DATA SHEET

SECTION 6: Accidental release measures

Personal precautions, pro	ptective equipment and emergency procedures	
	: Avoid inhalation, ingestion, eye and skin contact in case of accidental release.	
	Avoid formation of dust. Provide adequate ventilation.	
Environmental precaution	IS	
	: Do not allow to enter into surface water or drains.	
Methods and material for	containment and cleaning up	
Method for cleaning up	: Gather the released powder not to blow away and wipe up with a wet cloth.	
SECTION 7: Handling and storage		
Precautions for safe hand	lling	
	: Do not attempt to force open or destroy the toner container or unit.	

See installation guide of this product.

Conditions for safe storage, including any incompatibilities

: Keep the toner container or unit tightly closed and store in a cool, dry and dark place keeping away from fire. Keep out of the reach of children.

SECTION 8: Exposure controls/personal protection Control parameters (Reference data)

US ACGIH TLV (TWA)

Particles: 10 mg/m³ (Inhalable particles), 3 mg/m³ (Respirable particles) Titanium dioxide: 10 mg/m³

US OSHA PEL (TWA)

Particles: 15 mg/m (Total dust), 5 mg/m (Respirable fraction) Titanium dioxide: 15 mg/m (Total dust)

Exposure controls

Appropriate engineering controls	: Special ventilator is not required under normal intended use.
	Use in a well ventilated area.
Personal protective equipment	: Respiratory protection, eye protection, hand protection, skin and body protection are not required under normal intended use.

SAFETY DATA SHEET

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance

Physical state	: Solid.
	(Fine powder)
Color	: Black.
Odor	: Odorless.
Odor threshold	: No data available.
рН	: No data available.
Melting point	: 140 °C (Toner)
Initial boiling point and boiling range	: No data available.
Flash point	: No data available.
Evaporation rate	: No data available.
Flammability (solid, gas)	: No data available.
Upper/lower flammability or explosive	: No data available.
limits	
Vapour pressure	: No data available.
Vapour density	: No data available.
Relative density	: 1.5-2.0 g/cm³ (Toner)
Solubility(ies)	: Almost insoluble in water.
Partition coefficient: n-octanol/water	: No data available.
Auto-ignition temperature	: No data available.
Decomposition temperature	: No data available.
Viscosity	: No data available.
Explosive properties	: No data available.
Oxidising properties	: No data available.
Other information	
Dust explosion properties : Dust ex	plosion is improbable under normal intended use.
	antal avalasivances of tener is clossified into the s

Experimental explosiveness of toner is classified into the same rank such kind of powder as flour, dry milk and resin powder according to the pressure rising speed.

SECTION 10: Stability and reactivity	/
Reactivity	: No data available.
Chemical stability	: This product is stable under normal conditions of use and storage.
Possibility of hazardous reactions	
	: Hazardous reactions will not occur.
Conditions to avoid	: None specified.
Incompatible materials	: None specified.
Hazardous decomposition products	
	: Hazardous decomposition products are not to be produced.

SAFETY DATA SHEET

SECTION 11: Toxicological information Information on toxicological effects

Information on toxicological Acute toxicity	effects
•	: > 2500 mg/kg (rat) (Based on test result of similar product.) (Toner)
Dermal (LD ₅₀)	: > 2000 mg/kg (rat) (Based on test result of similar product.) (Toner)
Inhalation (LC ₅₀ (4hr))	: > 5.13 mg/l (rat) (Based on test result of similar product.) (Toner)
Skin corrosion/irritation Acute skin irritation	: Non-irritant (rabbit) (Based on test result of similar product.) (Toner)
Serious eye damage/irritation Acute eye irritation	: Mild irritant (rabbit) (Based on test result of similar product.) (Toner)
Respiratory or skin sensitisatio Skin sensitisation	
Germ cell mutagenicity	: Ames Test is Negative. (Toner)
Information of Ingredients Carcinogenicity	: No mutagen, according to MAK, TRGS905 and (EC) No 1272/2008 Annex VI.
- .	: No carcinogen or potential carcinogen according to IARC, Japan Association on Industrial Health, ACGIH, EPA, OSHA, NTP, MAK, California Proposition 65, TRGS 905 and (EC) No 1272/2008 Annex VI.
(except titanium dioxide)	

The IARC reevaluated titanium dioxide as a Group 2B carcinogen (possibly carcinogenic to humans) as the result of inhalation exposure test in rats. But, oral/skin test does not show carcinogenicity. (*2) In the animal chronic inhalation studies for titanium dioxide, the lung tumor was observed in only rats. It is estimated that this is attributed to the overload of rat's lung clearance mechanism (overload phenomenon). (*3) The inhalation of excessive titanium dioxide dose not occur in normal use of this product. Also, epidemiological studies to date have not revealed any evidence of the relation between occupational exposure to titanium dioxide and respiratory tract diseases.

SAFETY DATA SHEET

was noted in 22% of the animal in the middle (4 mg/m ²) exposure group. (*1) But no pulmonary change was reported in the lowest (1 mg/m ²) exposure group, the most relevant level to potential human exposures. Other information : No data available. SECTION 12: Ecological information Ecotoxicity : No data available. Persistence and degradability : No data available. Bioaccumulative potential : No data available. Mobility in soil : No data available. Other adverse effects : No additional information available. SECTION 13: Disposal considerations Waste treatment methods : Do not attempt to incinerate the toner container or unit and the waste toner yourself. Dangerous sparks may cause burn. Any disposal practice should be done under conditions which meet local, state ar federal laws and regulations relating to waste (contact local or state environmenta agency for specific rules). SECTION 14: Transport information UN number UN proper shipping name : None. UN proper shipping name : None. Pracking group : None. Packing group : None. Environmental hazards : None. Special precautions for user : No additional information available. Transport in bulk	Reproductive toxicity	
STOT-single exposure : No data available. STOT-repeated exposure : No data available. Aspiration hazard : No data available. Chronic effects : In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16 mg/m) exposure group, and a milmal to mild degree of fibrosis was noted in 22% of the animal in the middle (4 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group, (1) But no pulmonary change available. SECTION 12: Ecological information : No data available. SECTION 13: Disposal cons	Information of Ingredients	: No reproductive toxicant according to MAK, California Proposition 65, TRGS905
STOT-repeated exposure : No data available. Aspiration hazard : No data available. Chronic effects : In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16 mg/m) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animal in the middle (4 mg/m) exposure group. (*1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group. (*1) But no pulmonary change was reported in the lowest (1 mg/m) exposure group. Safety, health and environmental regulations/legislation specific for the substance or mixture US regulations

All ingredients in this product comply with order under TSCA.

Canada regulations

This product is not a WHMIS-controlled product, since we consider it as a Manufactured article.

EU regulations

This product is not classified as hazardous mixture according to Regulation (EC) No 1272/2008 (CLP).

This product does not contain substances which present a health or environmental hazard within the meaning of CLP.
