Protect It! 10-Outlet Surge Protector, 6 ft. Cord, 2880 Joules, Black Housing

MODEL NUMBER: **TLP1006B**

Highlights

- 10 widely spaced NEMA 5-15R outlets
- 2880-joule surge protection rating
- Filters out threatening EMI/RFI line noise
- 15A resettable circuit breaker prevents dangerous overloads
- 6 ft. AC power cord with right-angle NEMA 5-15P plug

Package Includes

- TLP1006B Protect It! 10-Outlet Surge Protector, Black Housing
- Owner's manual

Description

Perfect for your home or office workstation, the TLP1006B Protect It!® 10-Outlet Surge Protector features a surge protection rating of 2880 joules to defend your sensitive electronic components against strong surges and spikes. In fact, Tripp Lite will repair or replace any connected equipment damaged by surges, including direct lightning strikes, up to $100,000 for life (valid in the U.S., Canada and Puerto Rico only).

The TLP1006B includes full normal mode (H-N) and common mode (N-G/H-G) line surge suppression, as well as technology that filters out EMI/RFI line noise, preventing interference from disrupting your electronics and inflicting damage or data loss.

Your computer and peripherals plug into 10 NEMA 5-15R outlets that are spaced apart to accept bulky transformers without blocking adjacent outlets. Safety covers keep dust and debris away from unused outlets. Integrated 15A circuit breaker protects all outlets and shuts down connected equipment in case of overload. On/off switch provides one-touch control over connected equipment. Diagnostic LED bars indicate power and protection status.

The six-foot AC power cord with right-angle NEMA 5-15P plug allows furniture and equipment to be placed flush against the wall. Keyhole slots incorporated into the bottom panel provide convenient wall or desk mounting options for the black plastic housing.
