

PHILIPS

VoiceTracer

Audio Recorder

For lectures and interviews

3 high-fidelity microphones

Remote control & sharing app

8 GB internal memory

Long-lasting battery

DVT4110

Exceptional recording, shared instantly

Capture lectures and distant speakers in outstanding sound quality thanks to the three specialized high-fidelity microphones. Record and control your recorder remotely using your smartphone app for even greater flexibility. Easily share your files with the world via the app.

Superior audio quality

- Three specialized stereo-microphones for capturing distant speakers
- MP3 and PCM recording for clear playback and easy file sharing
- 8 GB memory built-in for up to 88 days of recording
- Rechargeable Li-ion polymer battery for extra-long recording

Easy and intuitive experience

- Smartphone app for easy sharing of recordings
- Smartphone app for remote audio control
- Large color display for clear recording status information
- Various audio scenes for perfect sound settings in any situation

Designed around you

- Voice-activation for hands-free recording
- Plug and play in Windows, macOS and Linux
- Tripod mount for optimal stable positioning
- Smart audio recording and playback functions for best recording results

Highlights

Three high-fidelity microphones

When recording distant speakers, their voices are often too quiet. The innovative Lecture Mode, optimized for recording speakers, analyses the incoming audio signal and automatically adapts the zoom level to the sound source. The microphone focuses on the speaker in the center and filters sounds coming from the sides. Surrounding noises are suppressed while the speaker's voice is crystal clear.

MP3 and PCM recording

Capture your recordings in MP3 and PCM format. The popular MP3 file format allows you to play back your files virtually anywhere and simply share them with others.

8 GB internal memory

Capture and store up to 88 days of continuous recording thanks to the 8 GB of internal memory.

Extra long battery life

The high-capacity Li-ion polymer battery can be easily charged through a standard micro USB jack. This guarantees extended battery life for extra-long recording ensuring that your recorder will always be ready to work when you are.

Easy share

Transfer your recordings straight from your Philips VoiceTracer to your smartphone via Wi-Fi and instantly share them with friends and family using the convenient Philips VoiceTracer app. No need to attach the recorder to your PC using a cable anymore to transfer and share files.*

Remote control

Control your audio recorder using your smartphone, even from a distance. The Philips VoiceTracer app makes recording events such as lectures much easier and more convenient. You can place your recorder in the front of the room near the speaker, take a seat at the back, and still control and adjust the recording comfortably and without interrupting the lecture.

Large color display

The large color display offers sharp images, making it easier to see and read everything at first glance. The clear user interface supports eight languages and is optimized for easy, intuitive operation.

Audio scenes

The Philips VoiceTracer comes with preinstalled scenes which automatically adjust the recorder's audio settings depending on what you want to record, whether it is notes, audio for speech recognition, interviews, lectures, music or meetings.

Voice-activated recording

Voice-activated recording is a convenient feature for hands-free recording. When enabled, recording will start automatically when you begin speaking. Recording pauses when you stop and resumes automatically when you begin speaking again. The Philips VoiceTracer app can be downloaded for free from the Apple App Store or Google Play Store.

Highlights

Tripod mount

Integrated tripod thread for mounting your VoiceTracer onto a tripod or camera. Allows optimal stable positioning for capturing even clearer sound.

Smart recording functions

Smart recording functions make it even easier to achieve stunning audio results. The pre-recording and timer functions make sure you don't miss a single bit. Voice-activated recording is a convenient feature for hands-free recording which pauses recording when you stop speaking and resumes automatically when you begin speaking again. Recordings can be edited by overwriting a part or adding a new recording at the end. Long recordings can be split automatically or manually into separate files for easier editing or sharing. Smart playback functions, such as bookmarks and filters, also make it easier and quicker to find the recording you are looking for.

Specifications

Connectivity

Headphones: 3.5 mm, impedance 16 Ohm or more

Microphone: 3.5 mm, stereo socket, impedance 2 kOhm

USB: type C, high-speed USB 2.0

Wireless connectivity

Free remote control and sharing app

Supported operating systems: Android

9/8/7/6, iOS 12/11

Wi-Fi communication mode: personal/mobile hotspot on smartphone (tethering)

Wi-Fi standard: IEEE 802.11 b/g/n/e/i (2.4 GHz only)

Wi-Fi security: WPA/WPA2-PSK, WPS

Display

Type: LCD color display

Backlight

Diagonal screen size: 2 in/5 cm

Resolution: 240 × 320 pixels

Audio recording

Built-in microphone: 2 omni-directional microphones for stereo recording, 1 directional microphone for distance zoom recording

Recording formats: MPEG1 layer 3 (MP3), PCM (WAV)

Recording quality: MP3 (8, 32, 64, 96, 128, 192, 256, 320 kbps), PCM (22 kHz/16 bit, 44.1 kHz/16 bit, 48 kHz/16 bit, 96 kHz/24 bit)

Audio scenes: Note, Speech recognition, Interview, Lecture, Meeting, Music, Custom

Recording time (built-in memory): 2147 h (MP3, 8 kbps), 536 h (MP3, 32 kbps), 268 h (MP3, 64 kbps), 178 h (MP3, 96 kbps), 134 h (MP3, 128 kbps), 89 h (MP3, 192 kbps), 67 h (MP3, 256 kbps), 53 h (MP3, 320 kbps), 24 h (PCM, 22 kHz/16 bit), 12 h (PCM, 44.1 kHz/16 bit), 11 h (PCM, 48 kHz/16 bit)

Pre-recording mode: 5, 10, 15 seconds buffer

File editing function: overwrite, append

Auto-divide function: 15, 30, 60 minutes

Auto-bookmark function: 5, 10, 15, 30, 60 minutes

Bookmark function: up to 99 per file

Voice-activated recording: 24 levels

Instant one-touch recording

Record monitor function

Recording timer

Wind filter

Limiter (attack time/decay time): slow (32/128 ms), medium (16/64 ms), fast (8/16 ms)

Noise-cut

Speaker

Speaker output power: 200 mW

Speaker size: 11 × 15 mm

Frequency response: 50–20,000 Hz

Storage media

Built-in memory capacity: 8 GB

Built-in memory type: NAND Flash

Mass storage class compliant

MicroSD card socket: up to 32 GB

Music playback

Sound enhancement: ClearVoice

Equalizer: Classic, Jazz, Pop, Rock

Playback mode: Repeat file, Repeat all, Random

ID3 tag support

Variable playback speed

Supported file formats: MP3, WMA

Convenience

Metallic tripod thread

Firmware upgradeable

Keypad lock

Multi language: English, French, German, Spanish, Italian, Russian, Polish

Variable playback speed

Power

Battery type: built-in rechargeable Li-ion polymer battery

Battery capacity: 1000 mAh

Battery lifetime: up to 36 hours of recording (MP3, 8 kbps)

Rechargeable: yes

Charging time (full charge): 3 hours

System requirements

Free USB port

Operating system: Windows 10/8/7, macOS, Linux

Design and finishing

Colour(s): silver/chrome

Green specifications

Lead-free soldered product
