# Shelving System

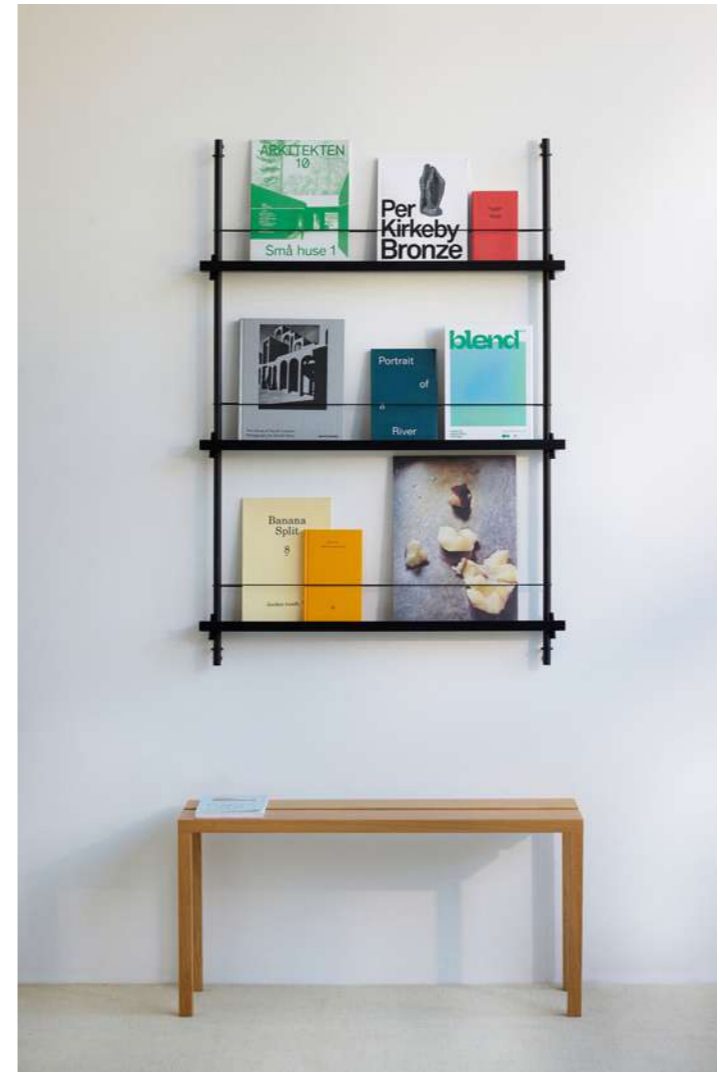

Shelving System gives you full freedom to build your own furniture. Build your own piece of furniture. Make it as tall and as wide as you like, go around corners, or even span different levels. Have as a room divider, or simply on a wall.

Floor Standing

Wall Mounted

Magazine Shelving

Floor Standing  
Oak - Deep Blue  
SS.115.2.E

Start  
off  
small.

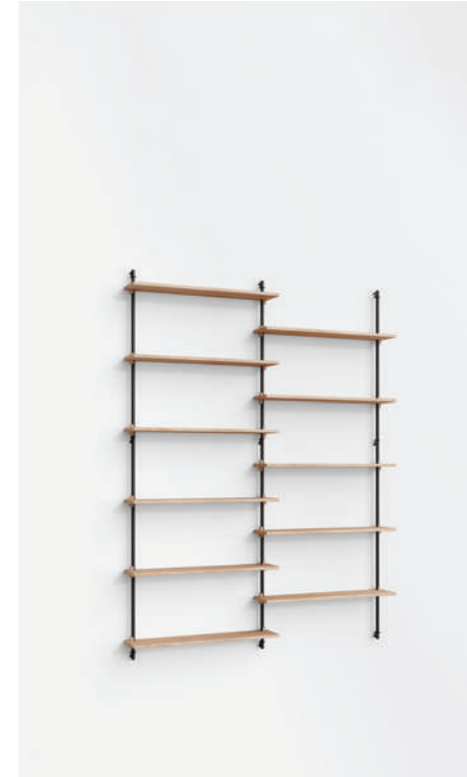

Actually, go  
as tall as you  
like.

Make  
it really  
BIG.

Or  
anything in  
between.

Keep it on the floor  
or mount it to  
the wall.

And it  
keeps getting  
better.

# Bed

Like a  
regular  
bed,

but      expandable.

Whatever size bed you're looking for, why not choose one that can do it all? Thanks to a clever piece of design, the MOEBE Bed is fully expandable and can fit any mattress size from 90cm to 180cm.

Bed 90-180 cm (High)  
Terracotta

Bed 90-180 cm (Low)  
Dusty Rose

A single frame  
can start at 90 cm

and grow a little bigger...  
how about a double?

and still a little bigger...  
130 cm? 150 cm?

Fit for a king  
or a queen...

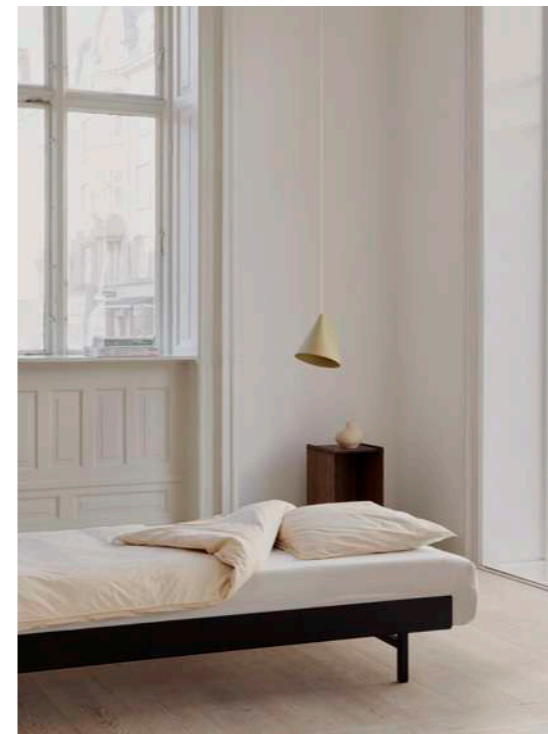

All the way to 180 cm.  
Now that's clever.

Ok, so maybe it's not like a regular bed. The MOEBE Bed has a minimal steel design available in five colours, and is fully expandable to fit any mattress size. It comes in two heights and you can add a Side Table or two if that's your thing.

It really is a bed for life.

# Dining Table

A dining table should be solid, long-lasting, and comfortable. Small or large, rectangular or round, oak or linoleum. Whichever works for your space works for your space, MOEBE Dining Tables are made in Europe from FSC-certified materials and arrive flat-packed for easy assembly.

Rectangular Dining Table

# Rectangular Coffee Table

The MOEBE Rectangular Coffee Table is low in profile, standing just 30cm from the floor. The cross-shaped leg frame gives a feeling of space by suspending the tabletop along the middle and keeping the corners free. Each table arrives flat packed and is threaded together piece by piece via a brass screwing mechanism at its centre.

Available in two lengths, made in Europe and FSC-certified.

60 cm

# Round Coffee Table

The MOEBE Round Coffee Table is low in profile, standing just 30cm from the floor. The cross-shaped leg frame is threaded together piece by piece with a brass screwing mechanism at it's centre, proudly displaying the construction for all to see. And what better way to finish it off than with a glass table top?

Oh, and the wood is FSC-certified, naturally.

# Peg Collection

The MOEBE Peg Collection was developed to play with the idea of connection; bringing separate pieces together to create form and function without overcomplicating things. Peg Step Stool, Peg Stool, and Peg Bench are made in Europe from FSC-certified oak, and arrive conveniently flat-packed.

Peg Collection is formed from two halves, joined together by wooden pegs. As well as holding the bench and stools together, this creates a handy slot along the centre that makes it easy to move around with a single hand.

Peg Bench works well in most settings, but it's narrow width makes it a perfect fit for narrow hallways and tight entrances.

Peg Bench

Peg Step Stool is a perfect child's seat, but it also comes in handy for adults who need an extra bit of help reaching the top shelf in the kitchen.

Peg Step Stool

We think Peg Stool works as a small table, a display stand, or just as somewhere to sit. Oh, and up to three can be stacked together to keep things neat and tidy.

Peg Stool

# Storage Box

Storage Box is ideal for any space – be it for magazines in the living room, blankets in the bedroom, or the mountain of toys in the kids room. The core function is simple: to hide away those things you often use but don't want lying around.

Storage Box  
Oak - White

Storage Box  
Oak - Black

The component based design arrives flat-packed and can be assembled and disassembled whenever needed. The two square metal frames lock the box together, whilst also serving as handles to carry. Designed to be a single piece or to stack together. Lay them flat or stand them up. We recommend stacking a maximum of three boxes.

Storage Box  
Smoked Oak – Black

# Tube Pendant

Tube Pendant is formed from an aluminium tube lined with a simple piece of translucent paper. The top shade can be easily adjusted to allow light to be diffused upwards, while the paper at the lower end can be extended to give the edge of the lamp a soft, warm glow.

# Ceramic Pendant

What if instead of a lightbulb hanging inside a pendant, the pendant could hang on the lightbulb? Our Ceramic Pendant sits freely on the cord, allowing you to rotate the shade in any direction to suit your space. Like to keep things straight? No problem. Looking to introduce some counterbalance? You got it.

# Tall Wall Mirror

Tall Wall Mirror is designed to sit on your wall with as little nonsense as possible. Like the rest of our mirrors, Tall Wall Mirror is kept simple, letting the materials speak for themselves. With its elongated form, the mirror has a soft and simple shape that works well in both modern and classic settings.

Tall Wall Mirror  
Black

# Rectangular Wall Mirror

Rectangular Wall Mirror is a sharp addition to the Mirror Collection. Consisting of only two elements, a mirror glass and two wooden lists, the design is clean and minimal. Focussing on Nordic wood species, the wooden lists are made from either ash or oak, adding a warm and tactile touch to the straightforward design.

Hang the mirror either horizontally or vertically, and choose your preferred expression. Use it in the bathroom, living room, or bedroom. Well, any room, really.

# Standing Frame

A frame, made simple.

Standing Frame comprises two pieces of acrylic glass, four sides, and a rubber band. Suspend photos, flowers, or prints between the transparent glass, or fill out the entire frame. It's up to you.

# Frame

Frame consists of two pieces of acrylic glass, four lists, and a rubber band. The rubber band both holds the frame together and serves for hanging the frame on your wall. The simple but clever construction allows the frame to be hung in either direction or even to be viewed from both sides, giving your artworks or photographs the focus they deserve.

# Papercut Artworks

Half Moons & Triangles is one of four designs in our Papercut Artwork collection. Each artwork is embossed on fine-textured, matte paper of 350 g. The paper cutouts appear like reliefs and look great both hanging alone or together. The off-white paper and the geometric designs will compliment both a white wall transparent through a MOEBE Frame, or a coloured wall in your home, letting the given colour provide a playful backdrop to the artworks.

Shifted Lines  
A4

Circles & Squares  
A4

# Gallery Shelf

Gallery Shelf is a single piece of solid oak that lets you create a gallery-wall feel with minimal effort. A narrow groove runs the length of the shelf to keep your frames in place, perfect for displaying your favourite art pieces and personal objects. It's as simple as that.

Gallery Shelf

# Organise

Life is complex and full of things. Pencils, staplers, bills, keys, glasses, magazines, chargers and papers all need their own place. Organise does what it says: It gives them that place – it organises.

Organise  
Small

Organise  
Large

Each Organise is made of solid untreated oak and is held together by a single rubber band. Available in A4 and A5, each size is stackable and compatible with the other. Works alone or combined together.

# Tray

A simplicity that carries through.

The MOEBE Tray is great for taking drinks and snacks from one place to another. It's designed to hover slightly from the surface making it easy to slide your hands underneath and pick up.

Tray  
Small

Tray  
Large

# Cutting Board

It may be a simple piece of wood, but we think it's a little bit more than that. The tapered V shaped edges of Cutting Board have two main functions – to make it easy to pick up and carry, and to create a narrow edge for the board to stand on and dry after being cleaned. All this to help keep the edges in better condition, for longer. Oh, and it's FSC-certified European oak, naturally.

Cutting Board  
Small

Cutting Board  
Small

Cutting Board  
Large

# Wooden Wall Hook

Wooden Wall Hook is formed from two pieces of solid oak. The larger part is attached to the wall with the second then slotting into the first from above, which hides the screw and gives the perfect hanging point. Wooden Wall Hook works both great alone and in series.

Wooden Wall Hook  
Smoked Oak

# Knob

The construction of Knob is simple. Two pieces of metal and a screw to hold it all together. Use it as a wall hook, a door knob, or for kitchen cupboards. It's up to you.

Knob  
Stainless Steel

Knob  
Brass

Knob  
Stainless Steel

Knob  
Brass

# Wall Hook

Formed from one continuous element, Wall Hook has two points for hanging your coat, keys or cap – either over the top of the bent wire or on the hook underneath. Wall Hook can be used as a single hook or as a series of hooks placed together. It comes in two sizes and three finishes, giving you the option to mix and match as you like.

Wall Hook  
Small

Matt Gold

# Coat Rack

Coat Rack consists of a single metal rod and 4-6 pegs. Drawing a fine line on your wall, the rack ensures a clean look for your hallway, kitchen, or bathroom. The central rod attaches to the wall with two L hooks, and the pegs simply slide on, allowing them to move around freely as needed.

Coat Rack  
40 cm  
Chrome

Coat Rack  
70 cm  
Black

# Bottle Opener

It can't get any simpler. Trust us, we tried.

A series of precise bends turn a single piece of metal into an expressive form designed for a single purpose – to open bottles. Whether in steel or brass, Bottle Opener adds a touch of refined simplicity to the kitchen or dining table, and makes a well-earned refreshment even more satisfying.

Bottle Opener  
Brass

Bottle Opener  
Stainless Steel

# Toilet Roll Holder

The MOEBE toilet roll holder does what it says; it holds your toilet roll. Formed from two parts, the metal wire holds the paper in place whilst the wooden bracket secures it to the wall. The oak is treated with a water-based lacquer making it ideal for use in damp environments.

Toilet Roll Holder  
Oak - Steel

Toilet Roll Holder  
Oak - Brass

Toilet Roll Holder  
Oak - Black

# Pinch

Two pieces of oak and a single rubber band. That's it. Pinch can be used standing or hung from a nail using the hole on the back. Maybe you saved a ticket from last weekend's concert, or a handwritten note from the one you love? These small items are important tokens of our lives, so when you are handed these tokens – 'pinch' them.

Pinch  
Oak

Pinch  
Black

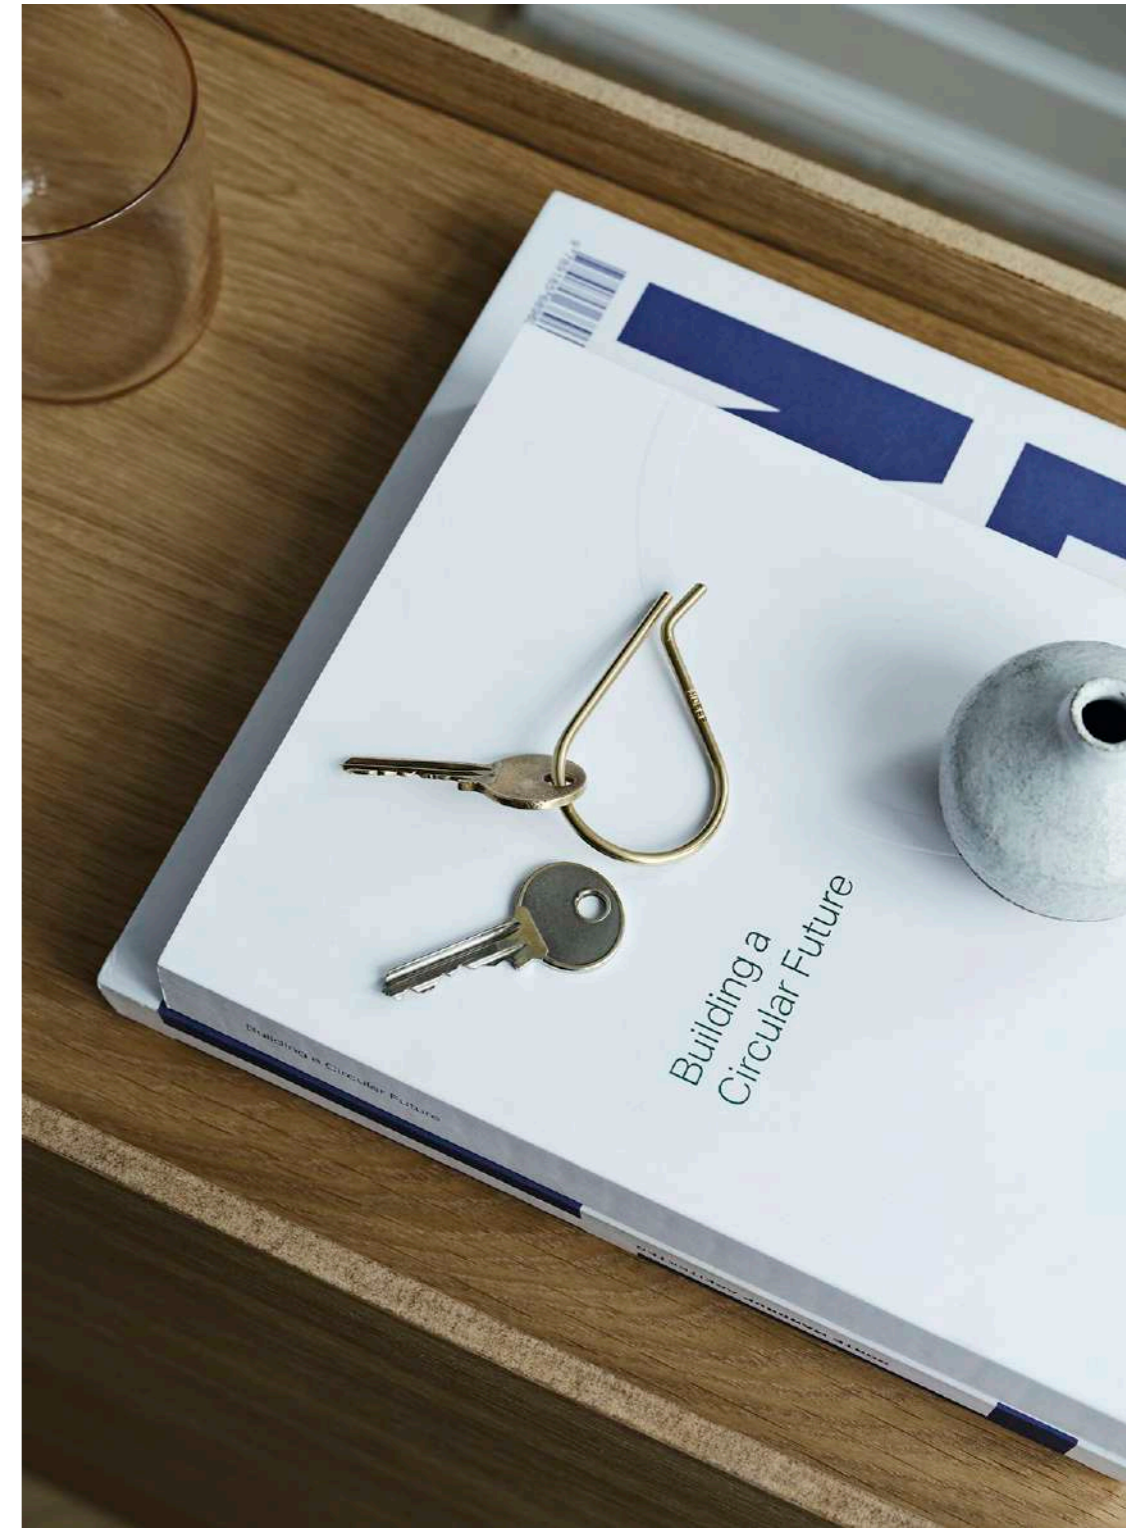

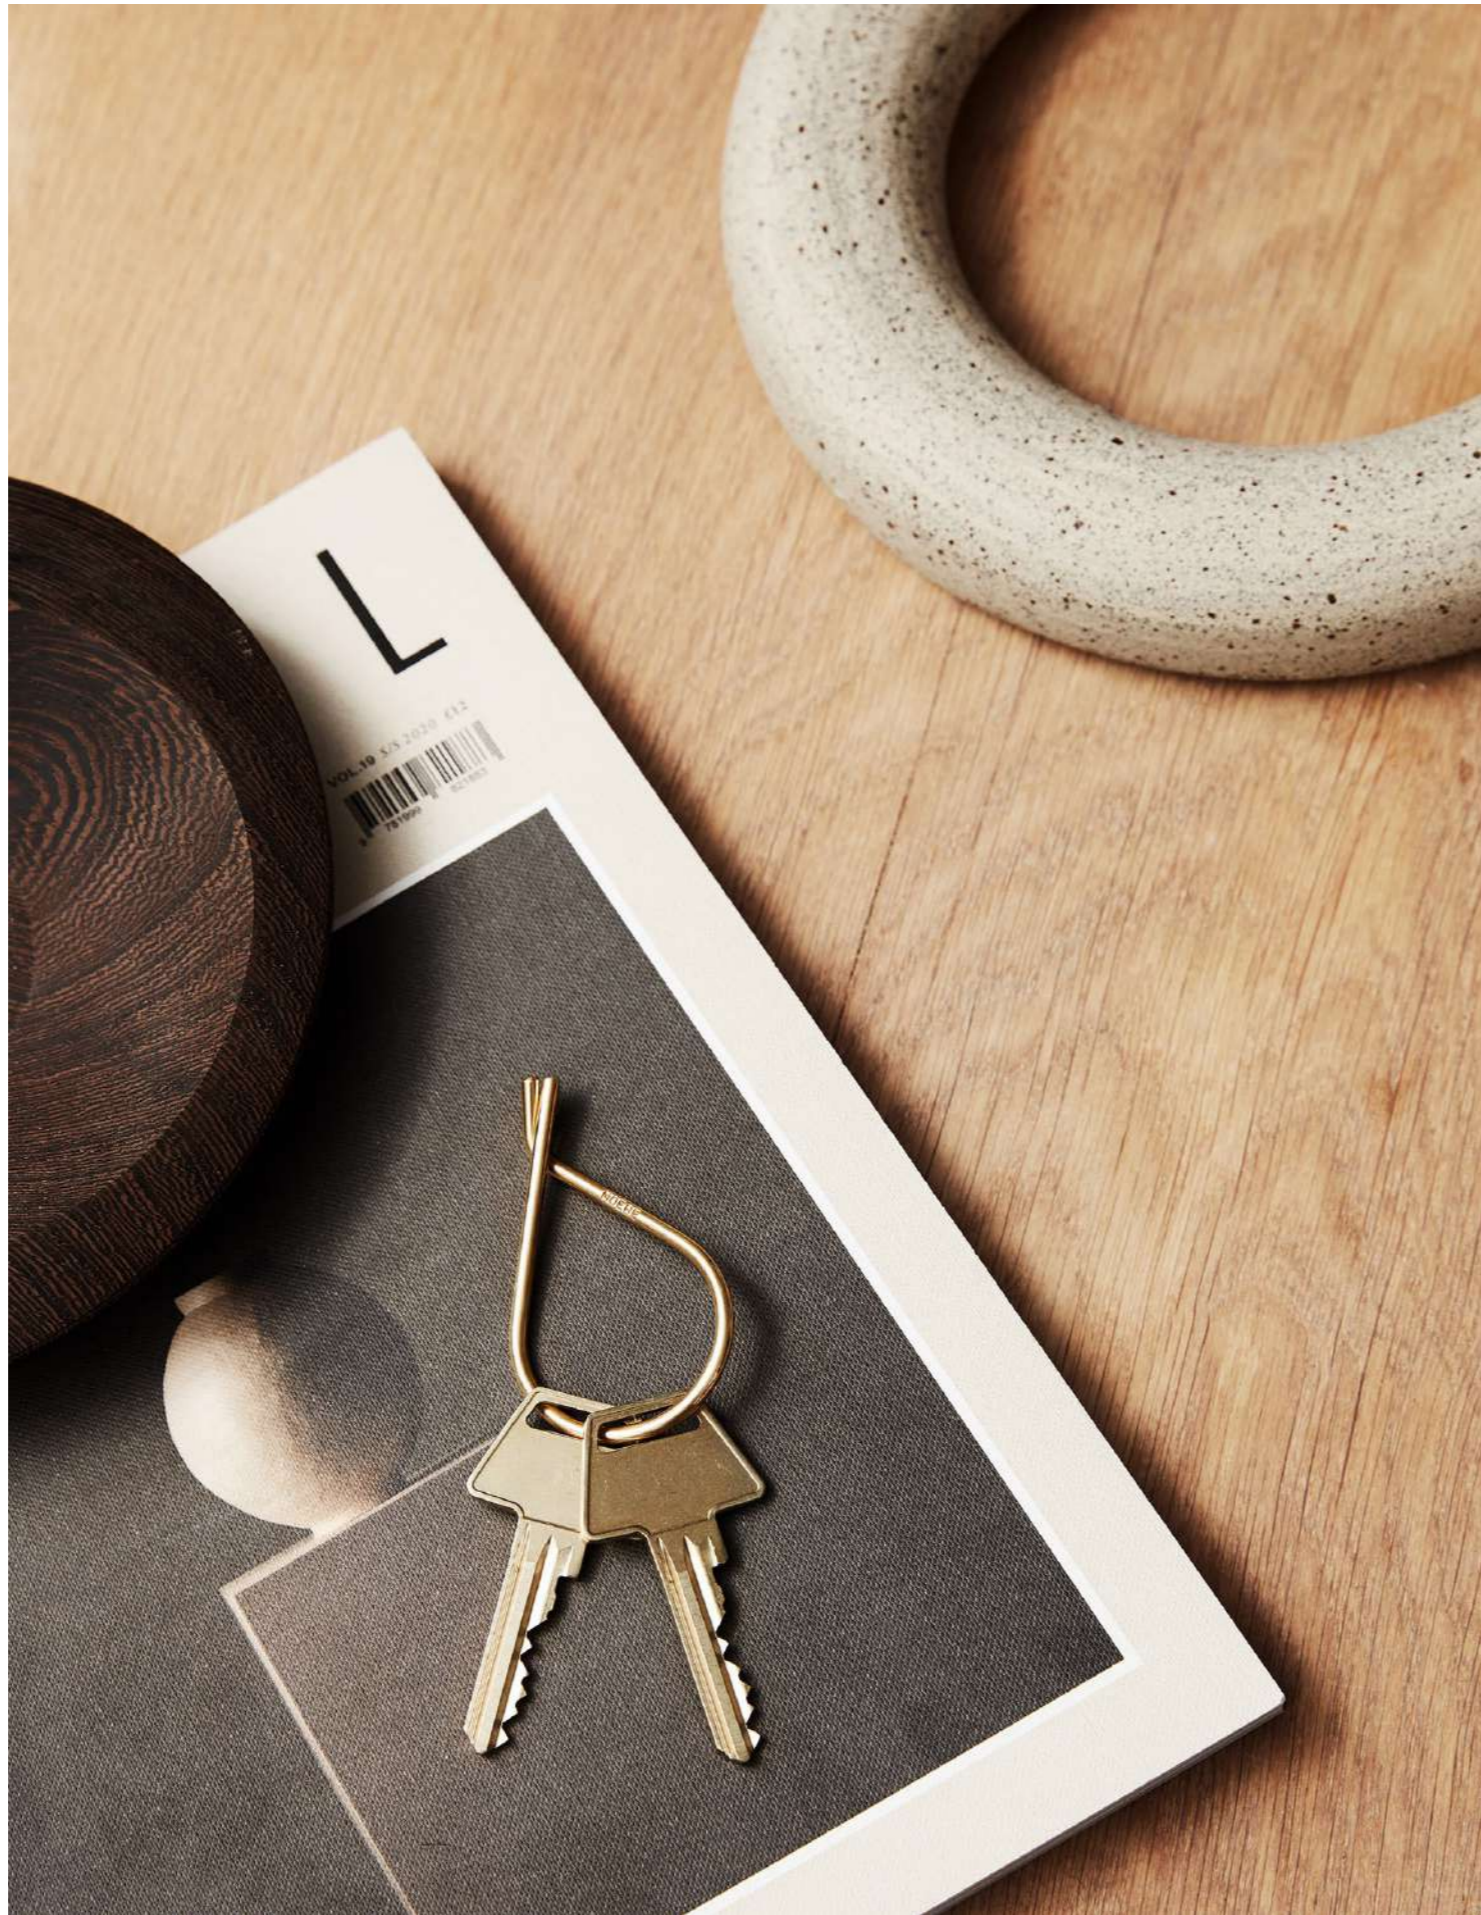

# Key Ring

Designed to upgrade the daily experience of reaching for your keys, our Key Ring is minimal, yet highly functional. Made from a single piece of metal wire, it has an easy closing mechanism meaning your keys will stay organized and kept safe. Simply twist it to open or to close. We know what you might be thinking – but don't worry, despite its simple design, it holds up to 10 keys. Designed in Denmark, made in Europe.

Key Ring  
Stainless Steel

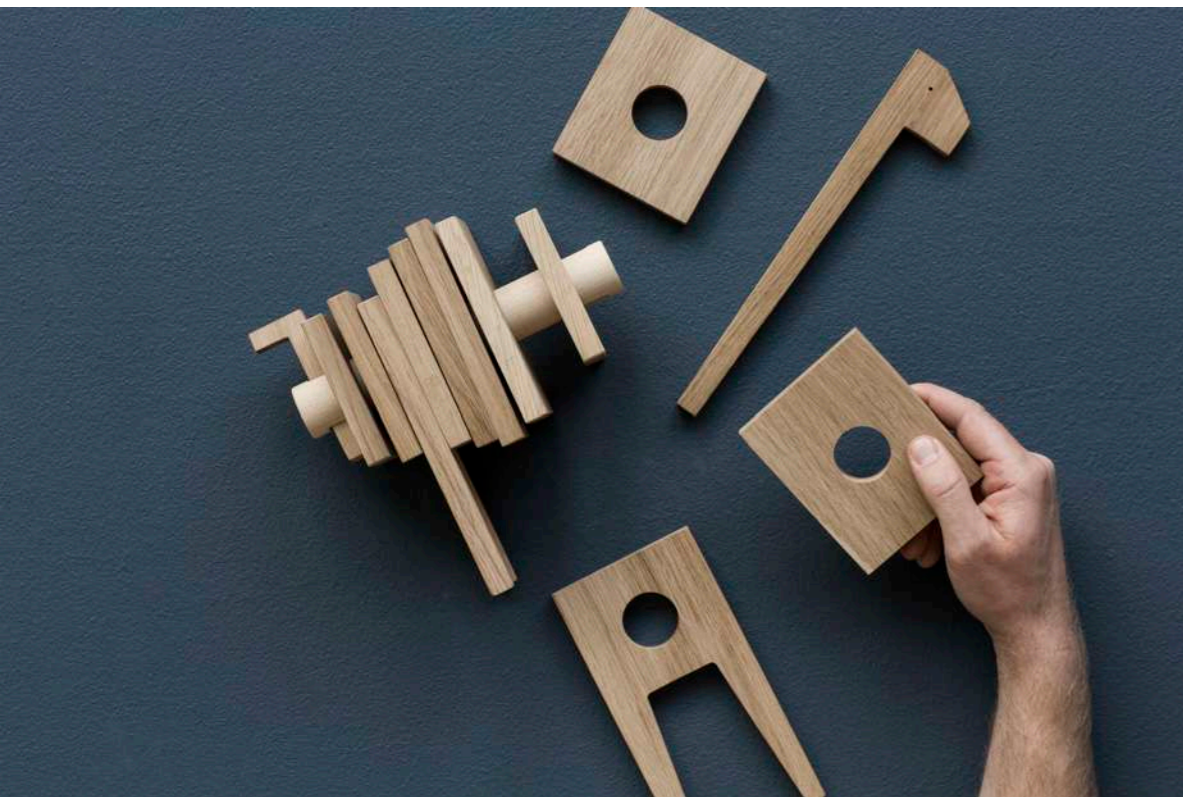

Key Ring  
Brass

# Polygrif

The Polygrif is a customizable creation that transforms through the touch of your hands. The pieces are made of solid oak and beech and it will last a lifetime if you take good care of it. Please do, much love has been put into making it.
