

COLD SET WEB OFFSET INKS

FOUR COLORS PROCESS (STAR SERIES)

STAR Cold Set Ink Series Based On New Generation Technology That Satisfies All The Requirements For Latest High – Speed Presses Giving Perfect Printability, A High Degree Of Brilliance In Conjunction With Color Intensive, And Ideal Trapping Characteristics Guarantee Optimum Print Results With Maximum Productivity.

STAR Ink Based On New Technology Guarantees A High Level Of Production Reliability And Best Print Performance On Different Weights Of Uncoated Papers.

Special Features:

Press Performance :

- Good Rheological Behavior
- Easy To Use – Quick And Stable Ink-Water Balance.
- Suitable For All Dampening System.
- Suitable For Different Printing Speeds / Different Ink Duct Systems
- Excellent Tack Stability / Minimum Tack Rise Behavior - Minimum Blanket Piling
- Minimum Start Up Wastage

Post Press Performance :

- High Color Intensity
- Faster Setting - Minimum Roller Accumulation
- Low Rub Off
- Excellent Dot Sharpness And Trapping
- Minimum Show Through / Penetration
- Controlled Misting Even At Very High Speed Machines
