

# HEAT SET WEB OFFSET INKS

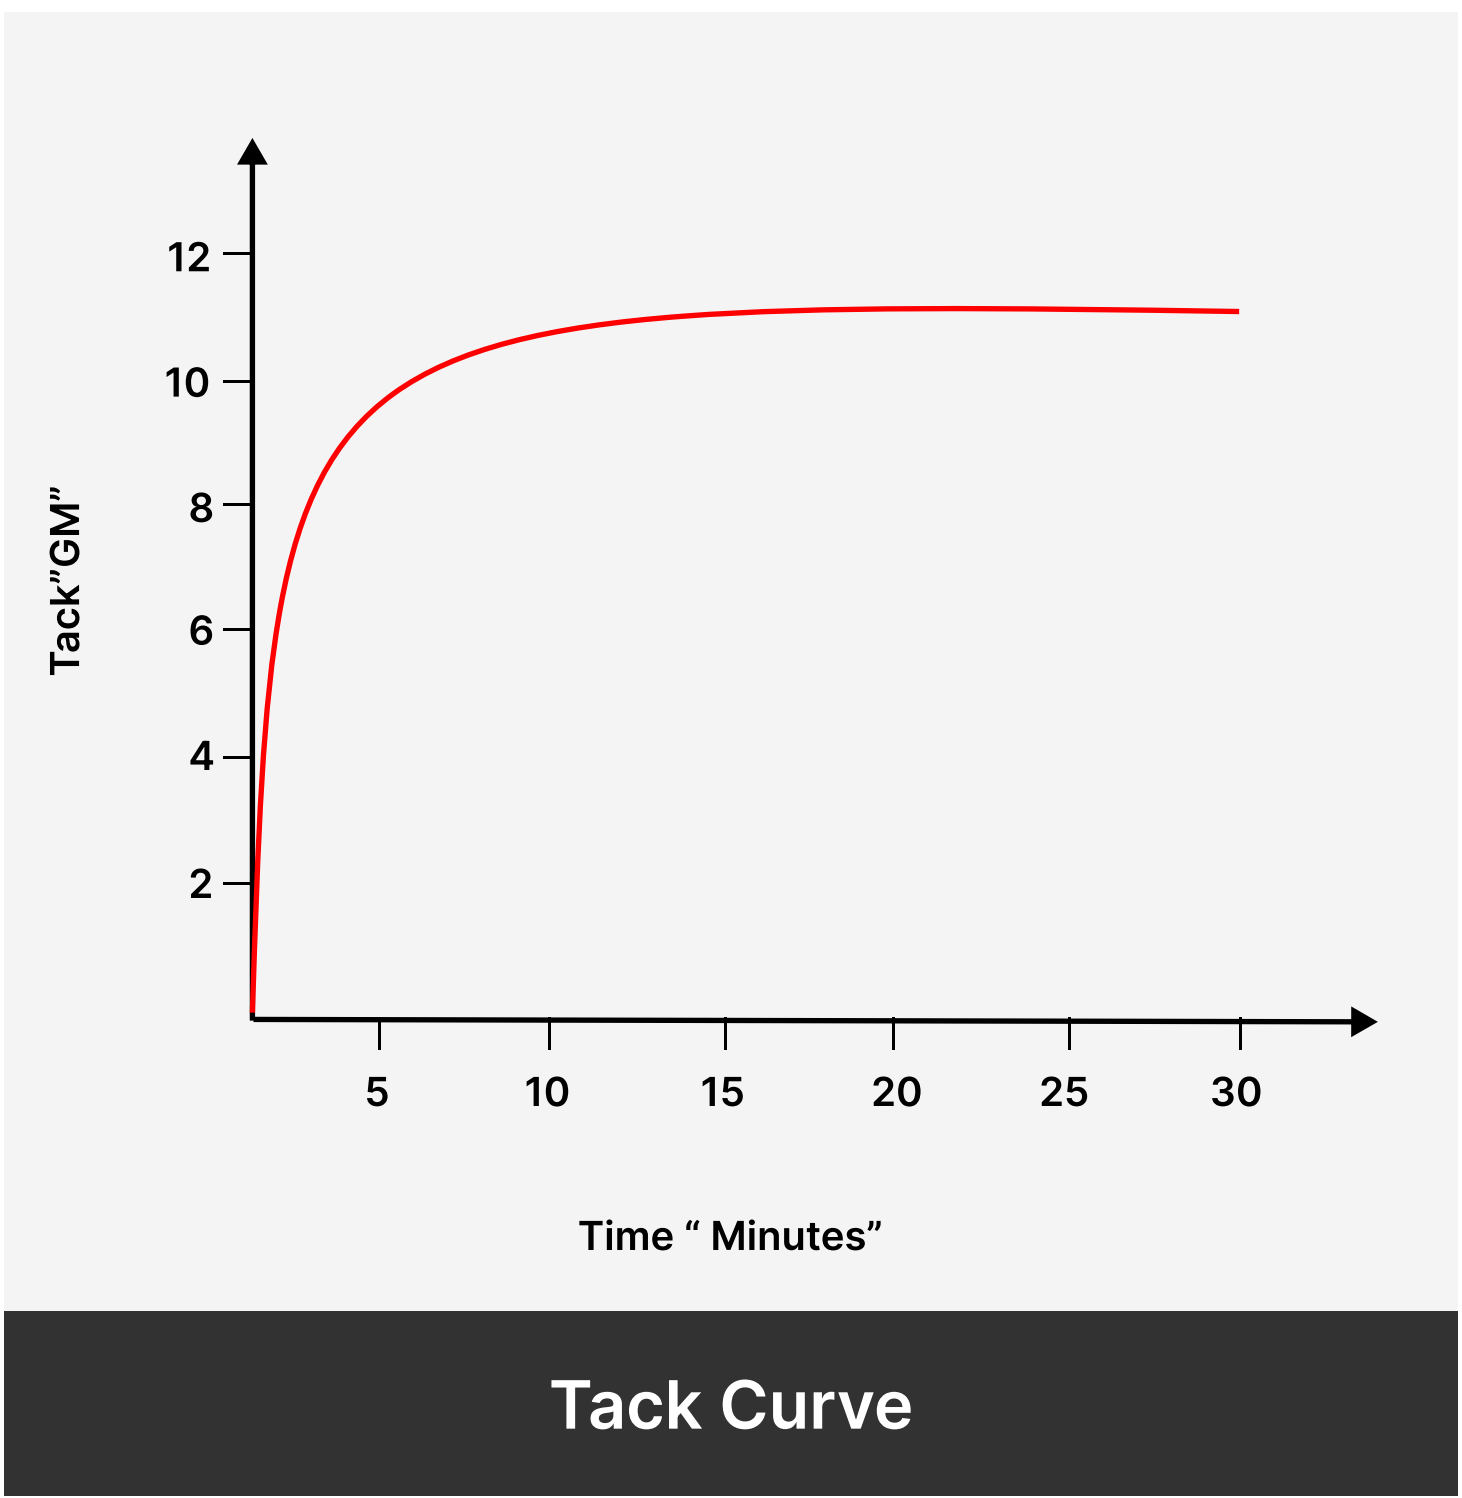

## FOUR COLORS PROCESS (PRIMO SERIES)

The Latest Generation Of High-Speed Printing Presses Pushes The Boundaries Of Printing Technology, Demanding Unparalleled Precision And Performance. These Cutting-Edge Machines Operate With Extreme Requirements, Particularly When It Comes To Print Contrast. Achieving Optimum Print Results Every Time, In Every Situation, Is Paramount.

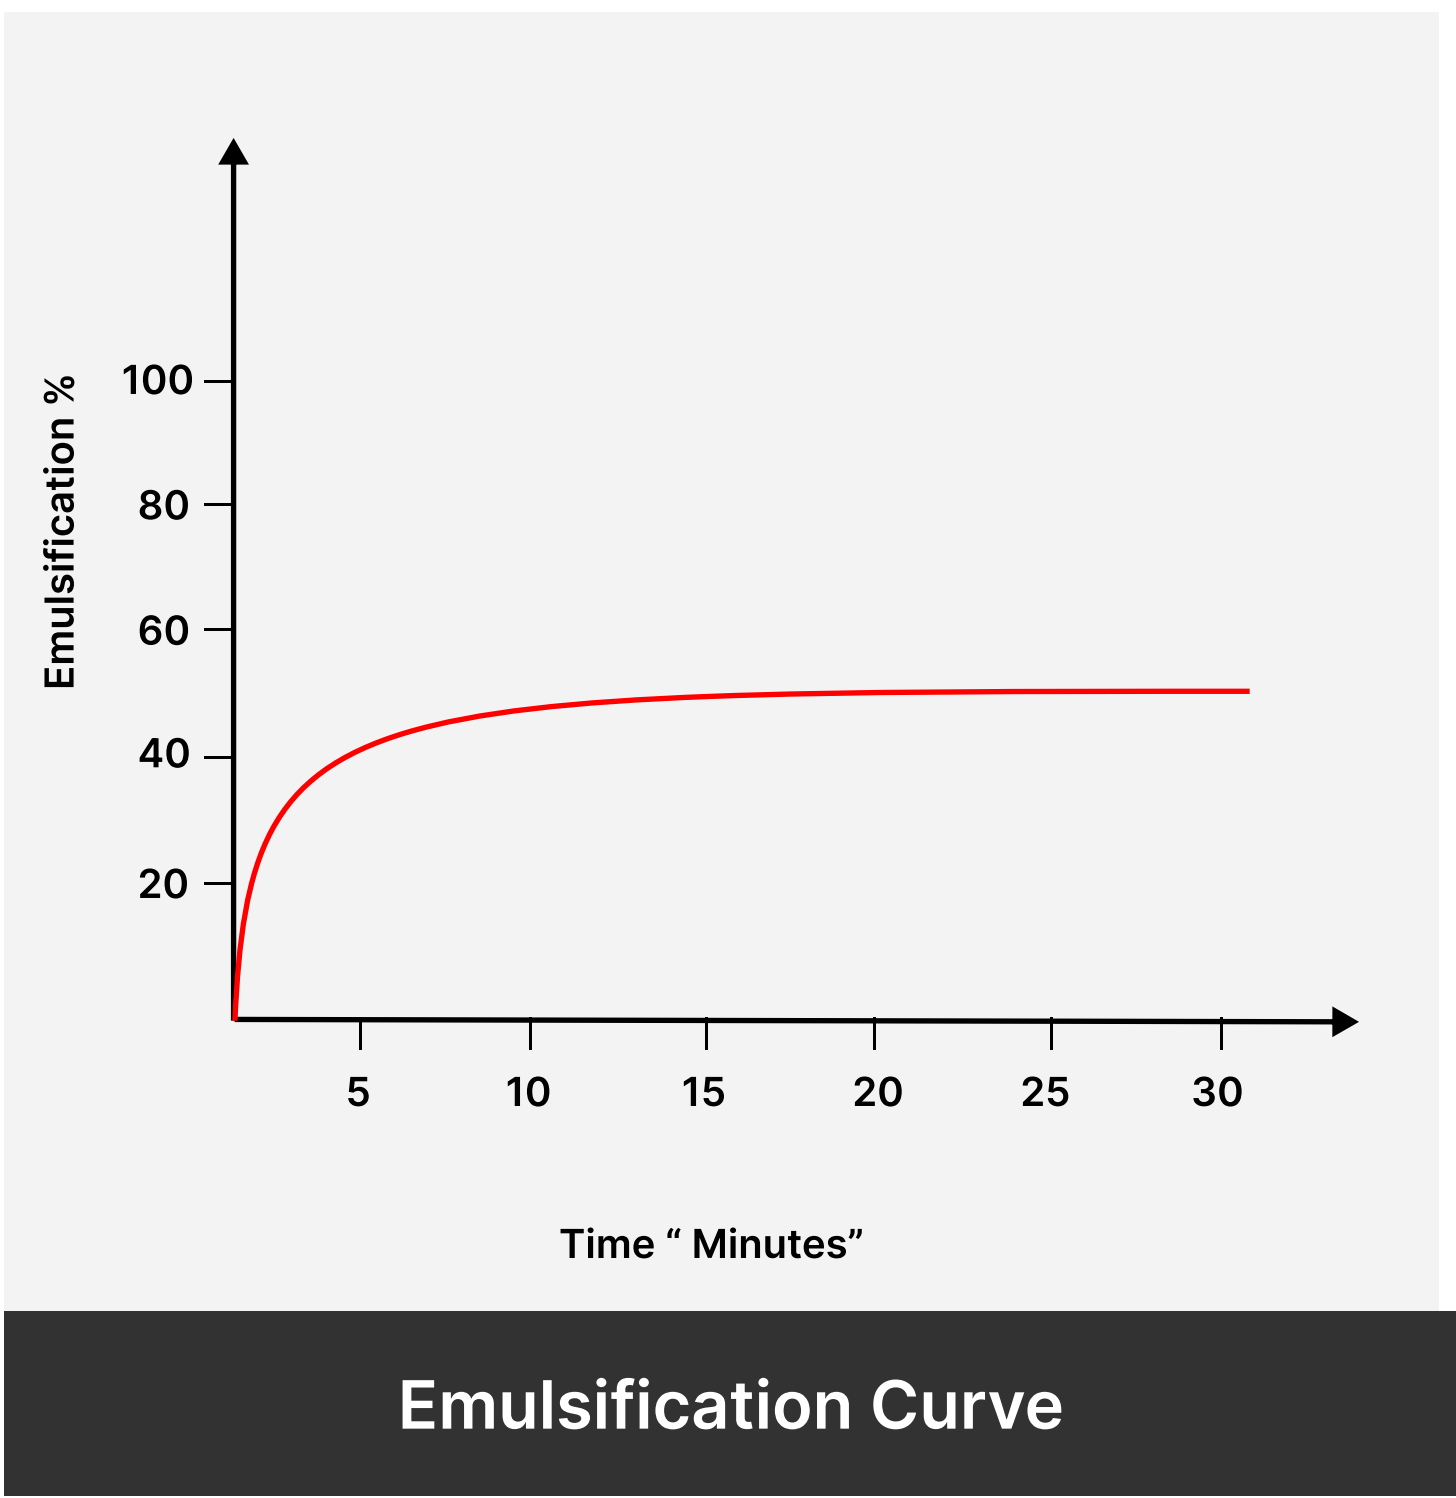

PRIMO Rises To The Challenge As The Heat Set Series Designed To Meet All The Demands Of Heat Set Inks Today. These Inks Offer A High Degree Of Gloss, Creating A Visually Stunning Finish. When Combined With Color-Intensive, Pure Hues And Ideal Trapping Characteristics, PRIMO Guarantees Fantastic And Highly Impressive Levels Of Contrast. The Results Are Truly Captivating, Elevating Print Quality To New Heights.

| COLOR | Light | Alcohol | Alkali | Nitro |
|-------|-------|---------|--------|-------|
| C     | 5     | +       | +      | +     |
| M     | 8     | +       | +      | -     |
| y     | 5     | +       | +      | +     |
| K     | 7-8   | -       | -      | +     |

| Available colors |
|------------------|
| CYAN             |
| MAGENTA          |
| YELLOW           |
| BLACK            |
