bersih yang dapat diatribusikan kepada entitas induk mencapai Rp578 miliar atau meningkat lebih dari 10 kali lipat dibandingkan periode yang sama tahun sebelumnya. Kinerja tersebut terutama didorong oleh kontribusi penjualan kaveling tanah komersial di kawasan CBD PIK2 yang terus menunjukkan permintaan kuat dari investor strategis dan pelaku usaha, seiring dengan berkembangnya aktivitas ekonomi di dalam kawasan.

Selain mencatat kinerja yang positif, PIK2 juga terus memperkuat ekosistem kawasan melalui berbagai infrastruktur dan fasilitas strategis. Nusantara International Convention Exhibition ("NICE"), yang telah beroperasi sebagai salah satu pusat MICE terbesar di Indonesia, terus mendorong peningkatan kunjungan, aktivitas bisnis, dan eksposur kawasan. Hingga saat ini, NICE telah mengamankan puluhan event nasional maupun internasional yang semakin memperkuat daya tarik PIK2 sebagai destinasi bisnis, hiburan, dan gaya hidup.

Di sisi lain, pembukaan bertahap Tol KATARAJA semakin meningkatkan konektivitas kawasan dengan Bandara Internasional Soekarno-Hatta serta jaringan jalan tol utama di Jabodetabek. Peningkatan aksesibilitas ini diharapkan dapat mendorong mobilitas masyarakat dan pelaku usaha, sekaligus memperkuat daya saing kawasan sebagai destinasi hunian, bisnis, dan investasi.

Secara fundamental, PANI didukung oleh total aset sekitar Rp50 triliun serta cadangan lahan seluas sekitar 1.825 hektare yang memberikan visibilitas pengembangan jangka panjang. Dengan kombinasi skala kawasan yang besar, konektivitas yang terus berkembang, serta penguatan ekosistem yang berkelanjutan, PIK2 semakin memperlihatkan potensinya sebagai kota pesisir modern yang mampu menjadi pusat aktivitas ekonomi baru dan mendorong pertumbuhan kawasan dalam jangka panjang.

Pekan lalu, PANI telah menyelenggarakan Rapat Umum Pemegang Saham Tahunan ("RUPST") dengan tingkat kehadiran pemegang saham sebesar 91,69%, yang menyetujui seluruh agenda yang diajukan Perseroan. Persetujuan tersebut

the parent entity of IDR 578 billion, representing an increase of more than tenfold compared to the same period last year. This strong performance was primarily driven by sales of commercial land plots within the PIK2 CBD area, which continued to attract robust demand from strategic investors and business operators amid the growing economic activities across the development.

In addition to delivering strong financial performance, PIK2 continued to strengthen its integrated ecosystem through the development of strategic infrastructure and key facilities. The Nusantara International Convention Exhibition ("NICE"), which is now operational as one of Indonesia's largest MICE venues, has continued to drive visitor traffic, business activities, and greater exposure for the area. To date, NICE has secured dozens of national and international events, further enhancing PIK2's appeal as a premier destination for business, entertainment, and lifestyle activities.

Meanwhile, the phased opening of the KATARAJA Toll Road continues to enhance connectivity between the area, Soekarno-Hatta International Airport, and the Greater Jakarta region's major toll road network. This improved accessibility is expected to facilitate the movement of residents and businesses, while further strengthening the area's competitiveness as a prime destination for residential, commercial, and investment activities.

Fundamentally, PANI is supported by total assets of approximately IDR 50 trillion and a land bank of around 1,825 hectares, providing strong visibility for long term development. Backed by its large-scale township, continuously improving connectivity, and an expanding ecosystem, PIK2 continues to demonstrate its potential as a modern coastal city and an emerging center of economic activity, capable of driving sustainable growth over the long term.

Last week, PANI held its Annual General Meeting of Shareholders ("AGMS"), with shareholder attendance reaching 91.69% of the Company's total voting shares, during which all agenda items proposed by the Company were approved. The

| <p>Tentang Agung Sedayu Group "ASG"</p> <p>Agung Sedayu Group adalah perusahaan pengembang properti terkemuka yang berpusat di Jakarta. Berdiri sejak 1971, ASG mengkhususkan diri pada pengembangan properti sebagai solusi bisnis dan <i>one-stop-living</i>, dengan menyajikan kenyamanan yang ideal sekaligus kemudahan gaya hidup modern. Portofolio pengembangan ASG tersebar di beberapa daerah prestisius di Jakarta, Bogor, Depok, Tangerang, dan Bekasi yang terdiri dari <i>township, superblok, apartemen, office tower, mall, industrial estate, hotel</i>, dan lain sebagainya. Agung Sedayu Group (ASG) berawal dari sebuah perusahaan kontraktor rumah pertokoan sederhana yang didirikan pada tahun 1971. Dalam kurun waktu 10 tahun pertama, perusahaan ini mulai dikenal pasar melalui perbincangan dari mulut ke mulut. ASG kemudian berkembang pesat berkat kerja keras seluruh karyawan sehingga mampu mengembangkan jangkauan pelanggan dan memperluas mitra usaha. Semenjak 1991, ASG berhasil menunjukkan jati dirinya sebagai perusahaan properti papan atas melalui kesuksesannya membangun Harco Mangga Dua, yang merupakan Mal Elektronik terintegrasi pertama di Indonesia. Kesuksesan tersebut segera diikuti dengan kesuksesan lainnya dengan pengembangan beberapa kawasan residensial dan komersial berskala besar, seperti Taman Palem seluas 200 hektar dan beberapa apartemen gedung tinggi. Dengan orientasi kualitas terbaik dan efisiensi proses bisnis, dipadu dengan perhatian penuh pada manajemen risiko, ASG berhasil terhindar dari krisis keuangan Asia. Tidak seperti perusahaan pengembang lainnya, di masa krisis ASG justru mampu mempertahankan posisinya sebagai yang terdepan. Ini terwujud melalui ketekunan, kerja keras, dan pembiayaan internal. Over the next decade, ASG grew its reputation in market through word of mouth. ASG began to rapidly accelerate due to hardwork from all employees causing ASG to be capable to expand customers range and business partnership. In 1991, ASG successfully showed its true identity as a top tier property company through the success of building Harco Mangga Dua, Indonesia's first Integrated Electronic Mall in Indonesia. The success was quickly followed by other successes in development of various residential area and large scale of commercials, such as the 200-hectare Taman Palem and several high-rise Apartments. With the best quality and business process efficiency orientation, coupled with careful risk-management, allowed ASG to weather the Asian monetary crisis in good condition. Unlike many other property developers, ASG managed to maintain its position ahead of the others. This was done through rigorous discipline, hardwork, and internal funding. Following the post-crisis shakeout which eliminated a number of developers, ASG strengthened its position and was able to fulfill the rush of market demand of commercial spaces and residential needs.
