'Heroines': a dictionary definition: 'A woman admired for her courage, outstanding achievements, or noble qualities'. Who has inspired you? Is there a woman from the Old Testament, New Testament, Christian history, our historical or contemporary world whose example you have followed or whose wisdom has challenged you? An opportunity to share thoughts on women such as these. It would be helpful if you could let Elaine know (elaine.leck@hotmail.com) who you choose so that we can prepare a running order for the evening. *Rosemary Kempself*

Tuesday Short Walk – Tuesday 14 October, 3.00pm

We shall be walking again on Tuesday 14th October. Usual format - meet in the car park at 3.00 pm for a walk round the recreation ground followed by tea and cake. Don't worry if you can't walk very far - short cuts are allowed and you won't be the only one. If the weather is wet, we shall just do tea and talk! *Dick Hibberd*

HOME GROUPS – Tuesday 14 October, 7.30pm - come along!

All Home group leaders are invited to this meeting in St Catherine's Aisle. We can chat about our autumn studies and learn what Rev Jeremy and Bishop David are proposing for December. WANTED willing helpers - Techy Desk

WANTED willing helpers to help on the Techy Desk - previous experience a bonus but not a pre-requisite, nor an excuse for not giving it a try! Training will be provided and a gentle introduction given. It would be good to add a few helpers to help swell our numbers, the number of rota duties are very manageable - come and give it a try, you may find you have a hidden talent!

Green Team Tip of the Week

Each week, your Green Team plans to bring you a Tip of the Week to help you be even better stewards of God's lovely creation (and probably save you money too!).

Tip 2 - Your Combi Boiler

All combi boilers have a "comfort" function which pre-heats about 5 litres of water, so it's got some 'ready' for you. The trouble is, this runs 24hrs a day 365 days a year... while you're asleep, while you're on holiday, even when it's a heatwave and your heating is off! Over the year this uses a lot of fuel, so turning this pre-heating off - usually "ECO" mode on your boiler (clue in the title! 😊) can save 5 -10% on your bill!

"Can I change it myself?": The answer is "yes, you can".

On many boilers, just press the ECO button, (always a good idea to consult your manual first, or your Friendly Neighbourhood Nerd aka Mark Sutton). Otherwise, get it changed at your next boiler service. (After a power cut or turning the boiler off, you might need to do it again, so worth a check even if you think it's already in ECO mode). There is a small 'price' to pay... When you change the setting to ECO, it'll take 10 to 15sec longer for the water to run hot, but it's worth it.

You will use a little bit more water, and water is precious too, but you can catch the water and water your plants with it 😊

With regard to the temperature, there are three temperatures that can be varied

A Hot water

B Radiator

C Room

I think only C is programmable (using a smart thermostat)

A and B are modifiable by changing the boiler settings, but as far as I've come across, only manually, so not practical to modify on an hourly basis.

Heat pumps are different beasts due to their lower temperature and longer time coefficients, as you rightly say.

Finally, remember, even the combined might of All Saints and St Anthony's can't save the planet alone, so SPREAD THE WORD!
