

INFLATE A BALLOON WITH LEMON JUICE AND BICARBONATE OF SODA

WHAT YOU WILL NEED

A small bottle or jar
Lemon juice
Vinegar
Balloons
Bicarbonate of soda (baking soda)

INSTRUCTIONS

1. Stretch the balloon a bit first, this just makes it easier to inflate.
2. Fill your jar or bottle about one quarter full with lemon juice.
3. Use a funnel to tip the bicarbonate of soda into the neck of the balloon.

Place the balloon over the top of the bottle without letting the bicarbonate of soda fall into the lemon juice. **When you are ready** tip the balloon up so the bicarbonate of soda drops into the lemon juice.

Watch the balloon inflate!

Just like the Holy Spirit filled the Disciples with power so the balloon will fill with gas!
